

GooDee YG600-Movin

GooDee Smart 4K Projector User Manual

Model: YG600-Movin

INTRODUCTION

Thank you for choosing the GooDee Smart 4K Projector. This projector is designed to provide an immersive home theater experience with its advanced features, including 5G WiFi, Bluetooth 5.2, Netflix/Prime Video certification, Dolby Audio, and 4K support. This manual will guide you through the setup, operation, and maintenance of your new projector to ensure optimal performance and longevity.

SAFETY INFORMATION

Please read all safety warnings and instructions before using this product to prevent injury or damage. Keep this manual for future reference.

- Do not block ventilation openings. Ensure adequate airflow around the projector.
- Do not expose the projector to rain or moisture to avoid electric shock or fire.
- Use only attachments/accessories specified by the manufacturer.
- Unplug the projector during lightning storms or when unused for long periods.
- Refer all servicing to qualified service personnel.
- Avoid direct eye exposure to the projector lens when the lamp is on.

WHAT'S IN THE BOX

Verify that all items are present in the packaging:

- GooDee Smart 4K Projector (Model: YG600-Movin)
- Power Cord
- Remote Control
- HDMI Cable
- Projector Lens Cover
- Cleaning Kit
- User Manual (this document)

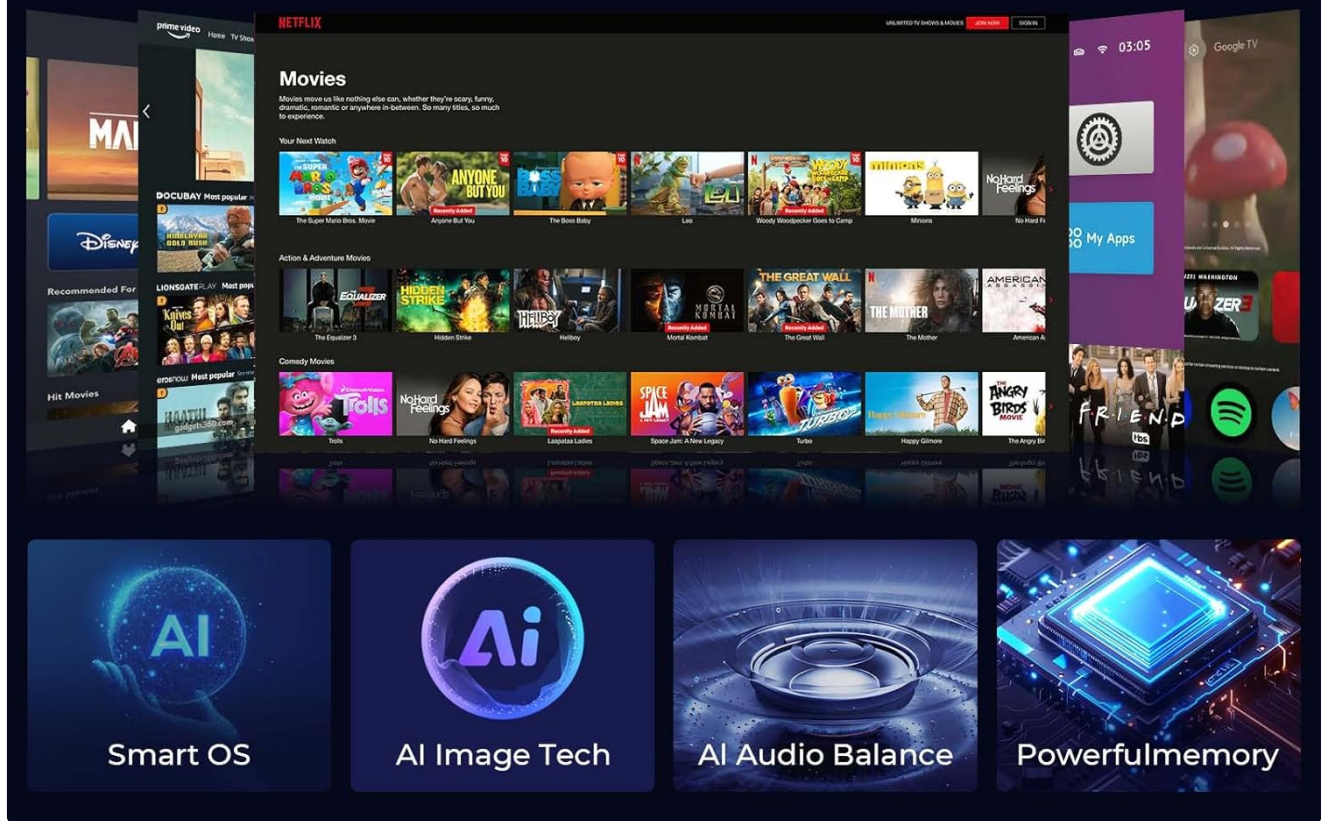

PRODUCT OVERVIEW

Familiarize yourself with the main components of your GooDee Smart 4K Projector.

The GooDee Smart 4K Projector and its included remote control. The projector features a sleek white and black design with a prominent lens and control panel.

Convenient & Accurate Screen Adjustment

The rear panel of the projector, displaying various input and output ports for connectivity.

SETUP

1. Placement

Place the projector on a stable, flat surface. Ensure there is sufficient space around the projector for proper ventilation. The optimal projection distance varies based on desired screen size (up to 400 inches diagonal).

2. Power Connection

Connect the power cord to the projector's power input and then to a power outlet.

3. Initial Power On

Press the power button on the projector or the remote control to turn on the device. The GooDee logo will appear, followed by the smart OS interface.

4. Network Connection (WiFi)

Navigate to the settings menu on the projector's interface. Select "Network" or "WiFi" and choose your desired network. Enter the password if prompted. The projector supports both 2.4G and 5G WiFi connections for stable and fast streaming.

Illustration demonstrating the difference in stability and speed between 2.4G and 5G WiFi connections, with 5G offering a faster experience.

5. Focus and Keystone Correction

The GooDee YG600-Movin features electric focus and electric keystone correction. Use the remote control to adjust the focus until the image is clear and sharp. For keystone correction, adjust until the projected image forms a perfect rectangle. This eliminates trapezoidal distortion.

Not only For Nights Enjoy a Visual Feast Everytime

OPERATING INSTRUCTIONS

1. Navigating the Smart OS

The projector runs on a smart operating system, providing direct access to various applications. Use the remote control's directional buttons and OK button to navigate through menus and select apps. The home screen provides quick access to certified streaming services.

The projector's smart interface showing pre-installed applications like Netflix, Prime Video, and YouTube, ready for direct streaming.

2. Using Certified Streaming Apps

The GooDee YG600-Movin is certified for Netflix, Amazon Prime Video, and YouTube. Simply select the app from the home screen and log in with your credentials to start streaming content directly. Due to copyright restrictions, direct mirroring or casting from mobile devices for these apps is not supported.

3. Wireless Screen Mirroring

For other content, the projector supports wireless screen mirroring for iOS, Android, and Windows devices. Ensure your device and the projector are connected to the same WiFi network. Follow the on-screen instructions for your specific device (e.g., AirPlay for iOS, Miracast for Android/Windows).

Your browser does not support the video tag.

This video demonstrates how to use the DLNA Wireless Simultaneous function for screen mirroring with your GooDee Smart Projector.

4. Audio Output (Dolby Audio & Bluetooth)

The projector features built-in 2*5W speakers with genuine Dolby Audio for a rich sound experience. For enhanced audio, connect external Bluetooth speakers or soundbars using the latest Bluetooth 5.2 technology. Navigate to the Bluetooth settings, enable Bluetooth, and pair with your desired audio device.

5G+2.4G Wifi Connection

More Stable, much faster, no lagging

An image highlighting the projector's Dolby Audio capabilities and Bluetooth 5.2 connectivity for external sound systems.

5. Zoom Function

The projector offers a 50%-100% zoom function, allowing you to adjust the screen size without physically moving the projector. Use the remote control to fine-tune the image size to fit your projection surface.

This graphic illustrates the projector's ability to adjust screen size from 50% to 100% and apply keystone correction for an optimal viewing experience up to 400 inches.

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your projector.

1. Cleaning the Lens

Use the provided cleaning kit or a soft, lint-free cloth specifically designed for optical lenses. Gently wipe the lens in a circular motion. Avoid using abrasive cleaners or excessive force.

Your browser does not support the video tag.

This video from GooDee-US demonstrates recommended methods for cleaning your smart projector screen.

2. Cleaning the Exterior

Wipe the projector's exterior with a soft, dry cloth. For stubborn marks, a slightly damp cloth can be used, followed by a dry wipe. Do not use harsh chemicals.

3. Dust Prevention

The projector is designed with imported high-tech materials to block dust and prolong its life. However, it is still recommended to keep the projector in a clean environment and use the lens cover when not in use.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No image projected	Power cable loose, projector off, input source incorrect.	Check power connection, turn on projector, select correct input source.
Image blurry	Out of focus, incorrect keystone.	Use electric focus and keystone correction on the remote control.
No sound	Volume too low, external audio device not connected/paired.	Increase volume, check Bluetooth connection, ensure external device is on.
Cannot connect to WiFi	Incorrect password, out of range, network issue.	Verify password, move closer to router, restart router and projector.
Streaming apps not working	Network issue, app error, copyright restriction for mirroring.	Check internet connection, restart app, remember certified apps cannot be mirrored.
