DUDUPET DU4L-KA

DUDUPET 4L Automatic Pet Feeder User Manual

Model: DU4L-KA

1. INTRODUCTION

Thank you for choosing the DUDUPET 4L Automatic Pet Feeder. This device is designed to provide a convenient and reliable feeding solution for your cats and small dogs, ensuring they receive their meals on time and in controlled portions. With features like programmable feeding schedules, voice recording, and dual power supply, this feeder offers peace of mind for pet owners.

2. PRODUCT OVERVIEW

The DUDUPET Automatic Pet Feeder is equipped with several key components and features to ensure optimal performance and ease of use.

Key Features:

- **4L Large Capacity:** Suitable for storing a significant amount of dry pet food, reducing the frequency of refills.
- **Programmable Feeding:** Set up to 6 meals per day with 1 to 20 portions per meal. Each portion is approximately $7\pm 2g$.
- **10-Second Voice Recording:** Record a personalized message to call your pet at meal times.
- **Dual Power Supply:** Operates via a DC 5V adapter or 3 D-cell batteries (not included) for backup.
- **Anti-Clog Design:** Ensures smooth food dispensing and prevents blockages.
- **Freshness Preservation:** Integrated desiccant bag keeps food fresh and dry.
- **Stainless Steel Bowl:** Durable and easy to clean for hygienic feeding.

DUDUPET Automatic Cat Feeder

A Healthy Diet on Time Everyday

1-6 meals
day

1-20 portions
meal

1 portion
= $7\pm 2g$ (4L \approx 2KG)

3. SETUP INSTRUCTIONS

Follow these steps for the initial setup of your DUDUPET Automatic Pet Feeder.

1. **Unpack the Feeder:** Carefully remove all components from the packaging. Ensure you have the feeder unit, stainless steel bowl, 5V adapter, and desiccant bag.
2. **Install the Stainless Steel Bowl:** Place the stainless steel bowl into the designated slot at the base of the feeder. Ensure it is securely seated.
3. **Insert Desiccant Bag:** Open the lid of the feeder. Locate the desiccant bag holder on the underside of the lid. Insert the desiccant bag into this holder. This helps keep the food fresh. Replace the desiccant bag every 30 days for optimal freshness.
4. **Fill with Dry Food:** Pour dry pet food into the food storage compartment. Ensure the kibble diameter is between 3mm and 10mm to prevent clogging. Do not use kibble over 10mm.
5. **Close the Lid:** Securely close the lid of the feeder.

6. **Connect Power:** Connect the 5V adapter to the feeder and plug it into a wall outlet. For backup power, you may insert 3 D-cell batteries (not included) into the battery compartment at the bottom of the unit. It is recommended to use both power sources for uninterrupted feeding.

Démonter, Nettoyer, Répéter Sans souci

Nettoyage sans effort, fraîcheur ultime :

4. OPERATING INSTRUCTIONS

Learn how to program and use your DUDUPET Automatic Pet Feeder effectively.

4.1. Setting the Time

Refer to the control panel on the front of the feeder. Use the designated buttons (usually 'Set' or 'Clock' and arrow buttons) to adjust the current time. Confirm your selection to save.

4.2. Programming Meal Times and Portions

The feeder allows you to schedule up to 6 meals per day.

1. **Enter Programming Mode:** Press the 'Program' or 'Meal' button.
2. **Set Meal Time:** Use the arrow buttons to set the desired time for the first meal.
3. **Set Portions:** After setting the time, use the arrow buttons to select the number of portions (1-20) for this

meal.

4. **Repeat for Additional Meals:** Repeat steps 2 and 3 for up to 6 meals.
5. **Save Settings:** Exit programming mode to save your settings. The feeder will now dispense food at the programmed times.

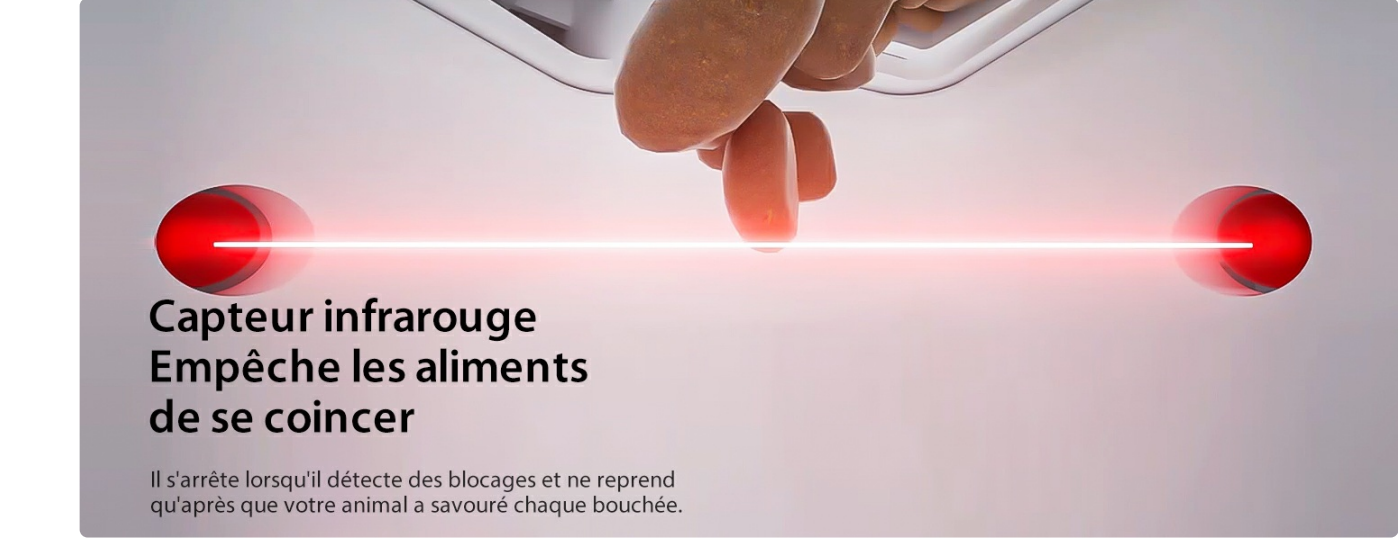

4.3. Voice Recording

You can record a 10-second voice message to play during meal times.

1. **Start Recording:** Press and hold the 'Record' button. The feeder will indicate when recording begins (e.g., a beep or flashing light).
2. **Record Message:** Speak clearly into the microphone. The recording will automatically stop after 10 seconds or when you release the button.
3. **Play Recording:** Press the 'Play' button to listen to your recorded message.

Image: The pet feeder with a cat approaching it, illustrating the 10-second voice recording feature. A speech bubble indicates a voice message, such as "Baby, time to eat," playing to call the pet for its meal.

Capteur infrarouge Empêche les aliments de se coincer

Il s'arrête lorsqu'il détecte des blocages et ne reprend qu'après que votre animal a savouré chaque bouchée.

Image: A smart pet feeder with a cat walking towards it, emphasizing the voice recording feature. A speech bubble shows "Baby, it's time to eat!" in French, indicating the feeder's ability to play a personalized message to call the pet for meals.

4.4. Manual Feeding

To dispense food manually, press the 'Manual' or 'Feed' button. Each press will dispense one portion of food.

5. MAINTENANCE

Regular cleaning and maintenance will ensure the longevity and hygienic operation of your feeder.

5.1. Cleaning the Feeder

The feeder is designed for easy disassembly and cleaning.

1. **Unplug the Feeder:** Always disconnect the power adapter and remove batteries before cleaning.
2. **Remove Components:** Detach the stainless steel bowl and the food storage container from the main unit.
3. **Wash Components:** The stainless steel bowl and the food storage container can be washed with mild soap and water. Rinse thoroughly.
4. **Wipe Main Unit:** Use a damp cloth to wipe the exterior of the main unit. Do not submerge the main unit in water.
5. **Dry Thoroughly:** Ensure all components are completely dry before reassembling.

Démonter, Nettoyer, Répéter Sans souci

illustrating the ease of disassembly for cleaning.

5.2. Desiccant Bag Replacement

The desiccant bag helps keep the food fresh and dry. It is recommended to replace it every 30 days.

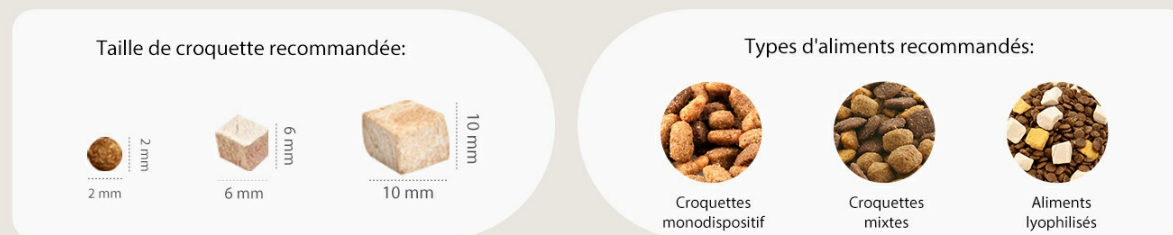

1. **Open Lid:** Open the top lid of the feeder.
2. **Remove Old Bag:** Carefully remove the used desiccant bag from its holder on the underside of the lid.
3. **Insert New Bag:** Place a new desiccant bag into the holder.
4. **Close Lid:** Close the lid securely.

Image: A close-up view of the feeder's lid, showing the compartment where the desiccant bag is placed to maintain food freshness. The desiccant bag is highlighted with text indicating its purpose and recommended replacement frequency.

Les croquettes ne restent jamais coincées à l'intérieur

Convient aux croquettes de 2 à 10 mm

X Rappel : N'utilisez pas de croquettes de plus de 10 mm, car elles risquent de rester coincées à l'intérieur du distributeur et de ne pas pouvoir nourrir votre animal.

Image: A transparent view of the feeder's top section, showing the desiccant bag positioned above the kibble storage, emphasizing its role in keeping the food fresh.

6. TROUBLESHOOTING

If you encounter any issues with your DUDUPET Automatic Pet Feeder, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Feeder not dispensing food.	<ul style="list-style-type: none"> Low food level. Kibble size too large. Food blockage. Power issue. 	<ul style="list-style-type: none"> Refill the food reservoir. Ensure kibble is between 3-10mm. Check for and clear any blockages in the dispenser mechanism. Verify power adapter connection or replace D-cell batteries.
Voice recording not playing or unclear.	<ul style="list-style-type: none"> Recording error. Low volume. 	<ul style="list-style-type: none"> Re-record the message, ensuring you speak clearly and within the 10-second limit. Check if there's a volume setting (if applicable, refer to manual).
Feeder not turning on.	<ul style="list-style-type: none"> No power. Incorrect battery installation. 	<ul style="list-style-type: none"> Ensure the power adapter is securely plugged in. Check if batteries are inserted correctly with the correct polarity.
Food getting stuck in dispenser.	<ul style="list-style-type: none"> Kibble size issue. Moisture in food. 	<ul style="list-style-type: none"> Use recommended kibble sizes (3-10mm). Ensure desiccant bag is fresh and properly installed.

Amis des animaux Alimentation saine

Grâce aux voyants lumineux montés sur le côté pas d'éblouissement direct à l'heure du repas.

Image: A diagram illustrating the infrared sensor mechanism within the feeder, designed to detect and prevent food blockages, ensuring smooth dispensing. The text indicates it stops when blockages are detected and resumes after the pet has eaten.

Notre mangeoire intelligente enregistre votre voix pour faire de chaque repas un moment spécial pour votre animal !

Bébé
c'est l'heure de manger !
