Powelephant 50000mAh Integrated Cable Power Bank

Powelephant 50000 mAh Power Bank with Integrated Cables: User Manual

Model: 50000mAh Integrated Cable Power Bank

1. INTRODUCTION

Thank you for choosing the Powelephant 50000 mAh Power Bank. This portable charger is designed to provide reliable and fast power to your electronic devices on the go. With its high capacity, integrated charging cables, multiple output ports, and built-in LED flashlight, it is an ideal companion for travel, outdoor activities, and daily use.

2. PRODUCT FEATURES OVERVIEW

- **High Capacity:** 50,000 mAh battery for extended use, providing power for approximately 14 days on a full charge.
- **Integrated Cables:** Built-in 20W Type-C and 10W Lightning charging cables for convenience, eliminating the need to carry extra cables.
- **Fast Charging:** Supports 22.5W super-fast charging via the Type-C port.
- **Multiple Outputs:** 7 output ports to charge up to 7 devices simultaneously.
- **Multiple Inputs:** 3 input ports for recharging the power bank.
- **LED Flashlight:** Powerful integrated LED light for emergency situations.
- **Advanced Safety:** Equipped with overcurrent protection, voltage boost conversion, and other safeguards for stable and safe charging.

3. SETUP AND FIRST USE

3.1 Initial Charging of the Power Bank

Before using your Powelephant Power Bank for the first time, it is recommended to fully charge it. This ensures optimal battery performance and accuracy of the digital display.

1. Connect the provided USB-C charging cable to one of the power bank's input ports (e.g., the USB-C input port).
2. Connect the other end of the USB-C cable to a compatible USB wall adapter (not included) or a computer's USB port.
3. The digital display on the power bank will show the charging progress. It will indicate "100%" when fully charged.

4. OPERATING INSTRUCTIONS

4.1 Charging Your Devices

The Powelephant Power Bank offers multiple ways to charge your devices, including integrated cables and external ports.

1. Using Integrated Cables:

- Locate the built-in Type-C or Lightning cable on the power bank.
- Connect the appropriate integrated cable directly to your device's charging port.
- The power bank will automatically begin charging your device. The digital display will show the

remaining battery percentage.

2. Using External USB Ports:

- Connect your device's charging cable (not included) to one of the available USB output ports (USB-A or USB-C) on the power bank.
- Connect the other end of your device's charging cable to your device.
- Charging will commence automatically.

The power bank supports charging up to 7 devices simultaneously, allowing you to share power with others.

Image 4.1: The power bank charging multiple devices concurrently, demonstrating its multi-output capability.

4.2 LED Flashlight Function

The power bank includes a powerful LED flashlight for use in low-light conditions or emergencies.

- To turn on the LED flashlight, press and hold the power button for approximately 3 seconds.
- To turn off the LED flashlight, press and hold the power button again for approximately 3 seconds.

5. SAFETY INFORMATION

Your Powelephant Power Bank is designed with multiple safety features to protect both the device and your connected electronics. Please observe the following:

- Do not expose the power bank to extreme temperatures (hot or cold), direct sunlight, or high humidity.
- Avoid dropping, impacting, or disassembling the device.
- Keep away from water and flammable liquids.
- Use only compatible charging cables and adapters.
- Do not attempt to charge the power bank and another device simultaneously using the same port if not explicitly supported.
- If the power bank becomes excessively hot during charging or discharging, discontinue use immediately and contact support.
- Dispose of the power bank responsibly according to local regulations for electronic waste.

6. MAINTENANCE

- Clean the power bank with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store the power bank in a cool, dry place when not in use.
- For optimal battery longevity, recharge the power bank at least once every three months if stored for extended periods.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Power bank not charging	Charging cable or adapter faulty; power bank fully charged; input port issue.	Try a different charging cable and adapter. Ensure the power bank is not already at 100%. Try a different input port if available.
Device not charging from power bank	Power bank battery depleted; device cable faulty; device not compatible; output port issue.	Check power bank's charge level. Try a different device charging cable. Ensure your device is compatible. Try a different output port.
LED flashlight not working	Incorrect operation; power bank battery depleted.	Ensure you are pressing and holding the power button for 3 seconds. Recharge the power bank.
Slow charging	Cable quality; device input limit; multiple devices charging.	Use high-quality cables. Some devices have charging limits. Charging multiple devices simultaneously may reduce individual charging speeds.

8. SPECIFICATIONS

Feature	Detail
Brand	Powelephant
Battery Capacity	50000 mAh

Feature	Detail
Voltage	5V
Power Source	Battery Powered
Item Weight	895 Grams
Number of Ports	4 (This refers to external ports, not including integrated cables. The product description mentions 7 outputs and 3 inputs in total, which is more comprehensive.)
Integrated Cables	1x Type-C (20W), 1x Lightning (10W)
Fast Charging Output	22.5W (via Type-C port)

9. WARRANTY AND SUPPORT

Powelephant is committed to providing high-quality products and customer satisfaction. For any questions, concerns, or support needs regarding your power bank, please do not hesitate to contact our customer service team.

We aim to respond to all inquiries within 12 hours and provide the best possible solution.

Please refer to your purchase documentation or the seller's platform for specific warranty details and contact information.
