## nannio D-VM2508T

# nannio Smart Baby Monitor Camera

Model: D-VM2508T

Your comprehensive guide to setup, operation, and maintenance.

## INTRODUCTION

---

The nannio Smart Baby Monitor Camera (Model D-VM2508T) is designed to provide parents with peace of mind by offering remote monitoring of their baby or pet. This device features Wi-Fi connectivity, HD video, pan-tilt-zoom capabilities, two-way audio, clear night vision, and a temperature sensor. This manual will guide you through the installation, operation, and maintenance of your new smart camera.

## SETUP GUIDE

---

Follow these steps to set up your nannio Smart Baby Monitor Camera:

### 1. Step 1: Prepare Your Environment

Ensure you have a stable 2.4GHz Wi-Fi network. The camera requires a Wi-Fi router, the camera unit, and a smartphone or tablet for initial setup and monitoring.

## 2. Step 2: Download the Mini Nanny App

Search for "Mini Nanny" in your device's app store (Apple App Store or Google Play Store) and download the application. Install and launch the app.

Your browser does not support the video tag.

## 3. Step 3: Power Up the Camera

Connect the camera to a power source using the provided power adapter. The camera will be ready in approximately 30 seconds, indicated by the LED changing from blinking red to a steady red light.

## 4. Step 4: Pair the Camera with the App

In the Mini Nanny app, tap the icon to add a camera. Press and hold the "PAIR" button on the camera for over 5 seconds until the LED indicator starts to blink green. Follow the on-screen prompts in the app to complete the pairing process.

## 5. Step 5: Connect to Wi-Fi Network

The app will scan for available Wi-Fi networks. Select your 2.4GHz Wi-Fi network and enter the correct Wi-Fi/Router password. Ensure the password is accurate to avoid connection errors.

## 6. Step 6: Set Camera Password

After Wi-Fi setup, you will be prompted to change the camera's default password. Create a strong, unique password for enhanced security. Avoid using simple passwords like "12345678".

## 7. Step 7: Placement Considerations

Place the camera in a location that provides a clear view of the monitoring area. Ensure it is within range of your Wi-Fi router and away from potential interference sources like microwaves or other strong electronic devices. The camera can be wall-mounted or placed on a flat surface.

# Expandable Up to 4 Cameras

See 4 different places, to check every one is safe at the same time.

- **Pan-Tilt-Zoom (PTZ):** Use the app to remotely control the camera's viewing angle.
  - **Pan:** Rotate the camera horizontally to view a wider area.
  - **Tilt:** Adjust the camera vertically to look up or down.
  - **Zoom:** Digitally zoom in on specific areas for a closer look.

## MAINTENANCE

---

To ensure optimal performance and longevity of your nannio Smart Baby Monitor Camera, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the camera lens and body. Avoid using liquid cleaners or abrasive materials, as they may damage the device.
- **Placement:** Keep the camera in a dry environment, away from direct sunlight, heat sources, and excessive moisture.
- **Cable Management:** Ensure power cables are not tangled or pinched, and are placed safely away from children and pets to prevent accidents.
- **Software Updates:** Regularly check the Mini Nanny app for available software updates to ensure your camera has the latest features and security enhancements.

## TROUBLESHOOTING

---

If you encounter issues with your nannio Smart Baby Monitor Camera, refer to the following common problems and solutions:

Problem	Possible Cause & Solution
<b>Camera not connecting to Wi-Fi.</b>	<ul style="list-style-type: none"> <li>• Ensure your Wi-Fi network is 2.4GHz. The camera does not support 5GHz networks.</li> <li>• Verify the Wi-Fi password entered is correct.</li> <li>• Move the camera closer to the Wi-Fi router to improve signal strength.</li> <li>• Restart both the camera and your Wi-Fi router.</li> </ul>
<b>No video feed or black screen.</b>	<ul style="list-style-type: none"> <li>• Check if the camera is powered on and the LED indicator is solid red (connected).</li> <li>• Ensure your smartphone/tablet has a stable internet connection.</li> <li>• Restart the Mini Nanny app.</li> <li>• If the issue persists, try re-pairing the camera with the app.</li> </ul>
<b>Two-way audio not working.</b>	<ul style="list-style-type: none"> <li>• Check the volume settings on your smartphone/tablet and within the Mini Nanny app.</li> <li>• Ensure the microphone and speaker icons in the app are not muted.</li> <li>• Verify the camera's microphone and speaker are not obstructed.</li> </ul>
<b>Delayed video or audio.</b>	<ul style="list-style-type: none"> <li>• This can be caused by a weak Wi-Fi signal or network congestion. Try moving the camera closer to the router or reducing other network activity.</li> <li>• Ensure your internet connection speed is adequate.</li> </ul>

If these solutions do not resolve the issue, please contact nannio customer support.
