Safety Information

Please observe the following safety precautions to prevent injury or damage to the product:

- Ensure all parts are securely fastened before use. Loose components can cause instability.
- Do not exceed the maximum weight capacity of the tabletop (70 pounds).
- Keep small parts and assembly hardware away from children and pets to prevent choking hazards.
- Assemble the unit on a soft, clean surface to avoid scratching the furniture.
- Periodically check all connections and tighten as necessary.
- This product is intended for indoor use only.

Package Contents

Before beginning assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Top Panel
- Side Panels (2)
- Bottom Panel
- Back Panel
- Drawer Components (Front, Back, Sides, Bottom)
- Drawer Slides (2)
- Cabinet Doors (2) with Scratching Boards
- Door Hinges (4)
- Legs (4)
- Hardware Pack (Screws, dowels, cam locks, etc.)
- Instruction Manual

Assembly Instructions

Follow these steps carefully to assemble your cat litter box enclosure. It is recommended to have a second person assist with assembly.

1. **Prepare the Workspace:** Clear a spacious area and lay out all components on a soft, clean surface to prevent scratches. Identify all parts and hardware using the provided list.
2. **Assemble the Base:** Attach the four legs to the bottom panel using the designated screws. Ensure they are tightened securely.
3. **Attach Side Panels:** Connect the side panels to the bottom panel using dowels and cam locks. Ensure the side panel with the cat entry hole is positioned correctly.
4. **Install Drawer Slides:** Secure the drawer slides to the inner side panels of the cabinet according to the pre-drilled holes.
5. **Assemble the Drawer:** Construct the drawer by attaching the front, back, and side pieces, then slide in the bottom panel. Install the drawer pull handle.
6. **Insert Drawer:** Carefully slide the assembled drawer onto the installed drawer slides.
7. **Attach Top Panel:** Place the top panel onto the assembled structure, securing it with dowels and cam locks.
8. **Install Cabinet Doors:** Attach the hinges to the cabinet doors and then to the main cabinet structure. Adjust hinges as needed for proper door alignment. The doors feature integrated scratching boards.
9. **Secure Back Panel:** Fasten the back panel to the unit using small nails or screws. Ensure the openings for electronic devices are aligned if using an automatic litter box.

Operating Instructions

This enclosure is designed for ease of use and versatility.

- **Litter Box Placement:** Open the cabinet doors and place your cat's litter box inside the main compartment. The internal usable size is approximately 30"x14"x22.2"H, accommodating most standard litter boxes.
- **Cat Access:** Cats can enter and exit through the side hole (11.8"x7.8"). This design provides privacy and helps contain litter scatter.
- **Scratching Board Doors:** The cabinet doors are equipped with natural sisal scratching pads. Encourage your cat to use these to help protect other furniture.
- **Storage Drawer:** Utilize the upper drawer for storing cat supplies, toys, or other household items.
- **Electronic Devices:** If using an automatic litter box, route power cords through the designated openings at the back of the unit.

Maintenance and Care

Regular cleaning and maintenance will extend the life of your furniture.

- **Cleaning the Cabinet:** Wipe down the wooden surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Cleaning the Interior:** For the litter box compartment, remove the litter box and clean the interior surfaces as needed. A mild pet-safe cleaner can be used.
- **Scratching Board Care:** The sisal scratching pads are designed for durability. If they become heavily worn, they may need replacement to maintain effectiveness.
- **Hardware Check:** Periodically inspect all screws and fasteners to ensure they remain tight. Re-tighten if any looseness is detected.

Troubleshooting

Refer to this section for solutions to common issues.

Problem	Possible Cause	Solution
Cabinet is wobbly or unstable.	Loose fasteners or uneven floor.	Ensure all screws and cam locks are fully tightened. Place shims under legs if the floor is uneven.
Drawer does not slide smoothly.	Drawer slides are misaligned or obstructed.	Check that drawer slides are installed correctly and free of debris. Lubricate slides if necessary.

Problem	Possible Cause	Solution
Doors do not close properly.	Hinges are misaligned or loose.	Adjust the door hinges to ensure proper alignment and tightness.
Cat is not using the enclosure.	New environment, unfamiliar smell, or preferred litter box location.	Place a familiar item (toy, blanket) inside. Ensure the litter box is clean. Allow time for adjustment. Consider using catnip.
