

## X9 Pro

# W&O X9 Pro Smartwatch User Manual

Model: X9 Pro

## INTRODUCTION

Welcome to the user manual for your W&O X9 Pro Smartwatch. This guide provides essential information for setting up, operating, maintaining, and troubleshooting your device. The X9 Pro Smartwatch features a vibrant 2.02-inch Super AMOLED display, an aircraft-grade aluminum body, and comes with both silicone and fabric straps. It offers advanced health monitoring, comprehensive fitness tracking, Bluetooth calling, and convenient wireless charging.

Please read this manual thoroughly to ensure proper use and to fully utilize all the features of your new smartwatch.

## SETUP

### 1. Initial Charging

Before first use, fully charge your smartwatch. The X9 Pro supports wireless charging.

Image: The X9 Pro Smartwatch being charged wirelessly on its charging pad. This illustrates the wireless charging capability.

Place the back of the smartwatch onto the wireless charging pad. Ensure the watch is correctly aligned for charging to begin. The screen will indicate charging status.

## 2. App Installation

To unlock the full potential of your smartwatch, download and install the companion application. The recommended application is **Wear Fit Pro**, available on Google Play Store for Android devices and the App Store for iOS devices.

- **System Requirements:** Android 5.0+ or iOS 10.0+

## 3. Device Pairing

After installing the app, follow these steps to pair your smartwatch with your smartphone:

1. Ensure Bluetooth is enabled on your smartphone.
2. Open the Wear Fit Pro application.

3. Navigate to the 'Device' or 'Add Device' section within the app.
4. The app will search for available devices. Select 'X9 Pro' from the list.
5. Confirm the pairing request on both your smartphone and smartwatch.

## OPERATING YOUR SMARTWATCH

---

### Basic Navigation

- **Touch Screen:** Swipe left, right, up, or down to navigate through menus and notifications. Tap to select items.
- **Side Button:** Typically used to return to the home screen, access the app menu, or power the device on/off.
- **Action Button:** Can be customized for quick access to specific functions or emergency features.

### Communication Features

- **NFC:** Near Field Communication technology for various functions (specific uses may vary by region and app).
- **Emergency Features:** Fall detection and crash detection can automatically alert emergency services. An alarm siren can be activated via the action button, audible up to 600 feet.

- **Alarm Clock & Stopwatch:** Standard timekeeping functions.
- **Breathing Training:** Guided breathing exercises for relaxation.

## MAINTENANCE

---

### Cleaning Your Smartwatch

To maintain the appearance and functionality of your X9 Pro Smartwatch:

- Wipe the screen and body with a soft, lint-free cloth.
- For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive materials.
- Clean the charging contacts regularly to ensure efficient charging.

### Water Resistance

The X9 Pro Smartwatch has an IP67 water and dust resistance rating. This means it is resistant to splashes and brief immersion in shallow water.

- **Do NOT use the watch for swimming, diving, or high-speed water sports.**
- Avoid exposing the watch to hot water, steam, or strong jets of water.
- If the watch gets wet, dry it thoroughly before charging or using any buttons.

## TROUBLESHOOTING

---

If you encounter issues with your X9 Pro Smartwatch, try the following solutions:

### Device Not Turning On

- Ensure the watch is fully charged. Place it on the wireless charger for at least 30 minutes.
- Press and hold the side button for several seconds to attempt a power-on.

### Cannot Pair with Smartphone

- Verify Bluetooth is enabled on your smartphone and the watch.
- Ensure the Wear Fit Pro app is updated to the latest version.
- Restart both your smartphone and the smartwatch.
- If previously paired, try unpairing the device from your phone's Bluetooth settings and then re-pairing through the app.
- Ensure the watch is within Bluetooth range of your phone.

### Inaccurate Health Readings

- Ensure the watch is worn snugly on your wrist, but not too tight.
- Clean the sensors on the back of the watch.
- Note that these readings are for reference and not intended for medical diagnosis.

### Charging Issues

- Ensure the wireless charging pad is connected to a working power source.
- Check that the watch is correctly positioned on the charging pad.
- Clean the charging area on both the watch and the pad.
