Oraimo OCC-73D

Oraimo 48W Car Charger Adapter (Model OCC-73D) User Manual

Your guide to efficient and safe in-car charging.

1. Introduction

Thank you for choosing the Oraimo 48W Car Charger Adapter. This manual provides essential information for the proper setup, operation, and maintenance of your device. Please read it thoroughly to ensure optimal performance and safety.

2. Product Overview

The Oraimo 48W Car Charger Adapter (Model OCC-73D) is designed to provide fast and efficient charging for your mobile devices while on the go. It features a durable metal body and dual output ports for versatile compatibility.

Package Contents:

- Oraimo 48W Car Charger Adapter (OCC-73D)
- User Manual

3. Setup

Follow these steps to set up your car charger:

1. Ensure your vehicle's engine is running or the ignition is in the accessory position to provide power to the cigarette lighter socket.
2. Insert the Oraimo 48W Car Charger Adapter firmly into your vehicle's 12V/24V cigarette lighter socket. The charger is designed for universal compatibility with most car models.

3. Once properly inserted, the charger is ready for use. No additional setup or software installation is required.

4. Operating Instructions

The Oraimo 48W Car Charger Adapter offers convenient dual-port charging.

1. Connect your device's charging cable to either the USB-A port (Output 1) or the Type-C port (Output 2) on the car charger.
2. Connect the other end of the cable to your mobile device (smartphone, tablet, etc.).
3. The charger will automatically detect your device and begin charging. You can charge two devices simultaneously.

5. Features

5.1 Super Fast 48W Charging Speed

This car charger supports Quick Charge 3.0 (QC 3.0) and Power Delivery 30W (PD 30W) technologies, delivering a combined maximum output of 48W. This allows for significantly faster charging compared to conventional car chargers, charging compatible devices up to 6 times faster.

Image 5.1: A smartphone connected to the Oraimo car charger, displaying a high charge percentage and indicating active QC3.0 and PD30W fast charging.

5.2 Dual Output Ports

Equipped with one USB-A port (18W) and one Type-C port (30W), the charger allows you to power two devices concurrently at their optimal charging speeds. This design accommodates a wide range of charging cables and devices.

5.3 Wide Compatibility

The Oraimo car charger is compatible with a broad spectrum of electronic devices, including Apple and Android smartphones, tablets, and other USB-charged devices. Its intelligent control shunt technology ensures maximum power delivery tailored to your device's needs.

5.4 Multiple Security Systems

The charger incorporates multiple safety features to protect your devices and vehicle. These include:

- Over-voltage protection
- Over-current protection
- Over-temperature protection
- Overload protection

These systems ensure a safe charging environment, preventing damage from power fluctuations.

5.5 Durable and Compact Design

Constructed with a robust metal body, the charger is designed for longevity and reliable performance. Its compact, thumb-sized form factor ensures it does not obstruct other controls in your vehicle and is suitable for most vehicles with 12V/24V sockets. The metal shrapnel at the bottom provides stable and elastic connections, ensuring continuous power transmission even during changing traffic conditions.

Image 5.4: A detailed illustration of the car charger's durable metal shrapnel connection, emphasizing its firm and uninterrupted power delivery.

6. Maintenance

To ensure the longevity and optimal performance of your Oraimo car charger, follow these maintenance guidelines:

- **Cleaning:** Periodically wipe the charger's exterior with a soft, dry cloth. Avoid using liquid cleaners or abrasive materials.
- **Storage:** When not in use for extended periods, store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping the charger or subjecting it to strong impacts, as this can damage internal components.
- **Connection:** Ensure the charger is always inserted firmly into the car's socket to prevent loose connections and potential power interruptions.

7. Troubleshooting

If you encounter issues with your Oraimo car charger, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not charging	Loose connection in car socket Vehicle ignition off Faulty charging cable Device issue	Ensure charger is fully inserted. Turn on vehicle ignition. Try a different charging cable. Test with another device.

Problem	Possible Cause	Solution
Slow charging speed	Non-fast charging cable Device not supporting fast charge High power consumption by device	Use a fast-charging compatible cable. Verify device supports QC 3.0 or PD 30W. Close background apps on your device.
Charger gets hot	Normal operation during fast charging Overload or poor ventilation	Slight warmth is normal. If excessively hot, disconnect and allow to cool. Ensure proper ventilation around the charger.

If the problem persists after trying these solutions, please contact Oraimo customer support for further assistance.

8. Specifications

Feature	Detail
Brand	Oraimo
Model Number	OCC-73D
Product Dimensions	13 x 3 x 7.5 cm
Item Weight	50 g
Wattage	48 Watts (Total)
Input Voltage	12V - 24V DC
Number of Ports	2 (1x USB-A, 1x Type-C)
USB-A Output	18W (QC 3.0)
Type-C Output	30W (PD 30W)
Material	Metal
Special Features	Fast Charging, Lightweight Design, Multiple Safety Protections
Compatible Devices	Cellular Phones, Tablets, and other USB-charged devices

9. Warranty and Support

Oraimo provides a **365-day warranty** for this product. If you have any questions or require assistance, please contact Oraimo customer service.
