4. SETUP AND INSTALLATION

Follow these steps to install your TUSITA Spine Clip Holder and attach your Garmin GPS device:

1. **Attach the Spine Clip Holder to a compatible mount:** The 1-inch ball on the spine clip holder is designed to integrate with any TUSITA mount that accepts a 1-inch ball. Securely fasten the spine clip holder to your desired mounting arm or base.

PAY ATTENTION : This product only included the TUSITA Spine Clip Holder with Ball, other accessories need to be purchased additionally.

Note: This product only includes the TUSITA Spine Clip Holder with Ball. Other mounting accessories (e.g., handlebar mounts, suction cup mounts) must be purchased separately.

5. OPERATING INSTRUCTIONS

Once your Garmin GPS device is securely mounted, operate it according to its own user manual. The TUSITA Spine Clip Holder provides a stable platform for your device, allowing full access to its screen and controls.

- **Secure Attachment:** Always ensure the GPS device is fully clipped into the spine holder before beginning any activity.
- **Angle Adjustment:** Utilize the ball and socket joint to achieve the optimal viewing angle. Ensure the adjustment knob is tightened firmly after positioning to prevent movement during use.
- **Removal:** To remove your Garmin GPS device, press the release tab on the spine clip and slide the device upwards.

6. MAINTENANCE

To ensure the longevity and proper function of your TUSITA Spine Clip Holder, follow these maintenance

guidelines:

- **Cleaning:** Clean the holder with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the composite material.
- **Inspection:** Periodically inspect the holder for any signs of wear, cracks, or damage, especially before and after strenuous use.
- **Storage:** Store the holder in a clean, dry place when not in use.

7. TROUBLESHOOTING

If you encounter any issues with your TUSITA Spine Clip Holder, consider the following:

- **Device not securing properly:**
 - Ensure your Garmin device is fully compatible with the spine mount system.
 - Check for any obstructions or debris in the spine clip mechanism.
 - Verify that the device is slid completely down until it clicks into place.
- **Mount feels loose:**
 - Ensure all adjustment knobs on your connected mounting arm are tightened firmly.
 - Inspect the 1-inch ball and socket for wear.

If problems persist, please contact TUSITA customer support.

8. SPECIFICATIONS

Model Number	T0016102W18401
Brand	TUSITA
Item Weight	49.8 g (1.76 Ounces)
