ZETTA 1024 Portable Tire Inflator User Manual

Model: HJY-1024 | Brand: Aerogogo

PRODUCT OVERVIEW

The ZETTA 1024 Portable Tire Inflator is a versatile and efficient air compressor designed for various inflation needs, from car tires to sports balls. Its compact size and cordless operation make it an ideal tool for on-the-go use.

Figure 1: ZETTA 1024 Portable Tire Inflator and its applications.

Key Features:

- **Powerful Performance:** Inflates car tires in approximately 6 minutes with 150 PSI and 23L/min airflow.
- **Long-lasting Battery:** Powered by a 12V 2600mAh*3 battery, providing 40 minutes of continuous use at 35 PSI and up to 100 days of standby time.
- **Auto Shut-off Feature:** Automatically stops inflation once the preset pressure is reached, ensuring safe and precise inflation.
- **4+N Smart Modes:** Features an LCD screen with intelligent modes for various items (car, motorcycle, bike, ball) and a customizable mode.
- **LED Lighting:** Equipped with LED and SOS lights for emergency situations.
- **Power Bank Functionality:** Includes a USB-C port for reverse charging of other devices.
- **Five Nozzle Options:** Comes with five interchangeable nozzles to meet diverse inflation needs.

Figure 2: Overview of ZETTA 1024 key features.

GETTING STARTED

Package Contents:

- ZETTA 1024 Portable Tire Inflator
- Air Hose
- USB-C Charging Cable
- 5 Interchangeable Nozzles (including needle and adapters for various valves)
- Storage Bag

Charging the Device:

Before first use, fully charge the ZETTA 1024. Connect the provided USB-C charging cable to the device and a compatible USB power adapter (not included). The battery indicator on the LCD screen will show charging progress. A full

charge ensures optimal performance and standby time.

Figure 3: LCD screen displaying device status and settings.

OPERATING INSTRUCTIONS

Basic Inflation Steps:

1. **Connect the Hose:** Screw the air hose securely onto the inflator's air outlet.
2. **Attach Nozzle:** Select the appropriate nozzle for your item (tire, ball, etc.) and attach it to the other end of the air hose.
3. **Connect to Item:** Securely connect the nozzle to the valve of the item you wish to inflate. The LCD screen will display the current pressure.
4. **Select Mode & Set Pressure:**
 - Press the mode button to cycle through the 4+N smart modes (Car, Motorcycle, Bike, Ball, Custom).
 - Use the "+" and "-" buttons to adjust the desired target pressure.

5. **Start Inflation:** Press the power button to begin inflation. The device will automatically stop once the preset pressure is reached.

Portable Easy Use Tire Inflator

Figure 4: Easy-to-follow steps for product use.

Smart Modes and Pressure Settings:

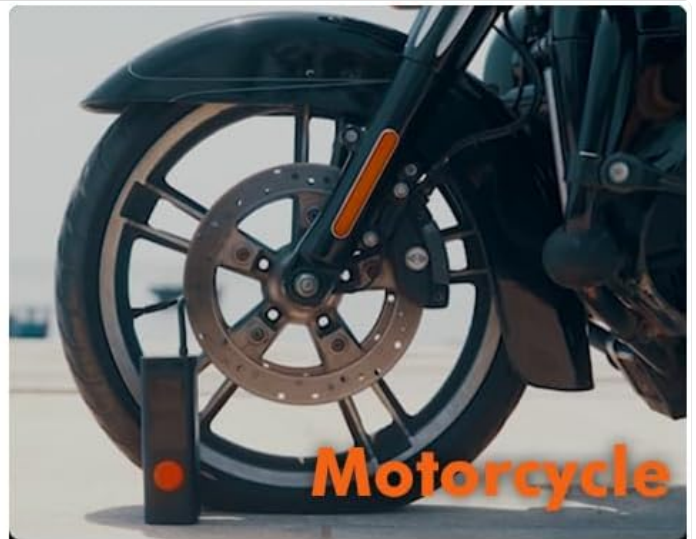

The ZETTA 1024 offers preset modes for common items, simplifying the inflation process. You can also manually adjust the pressure in custom mode for specific requirements.

- **Car Mode:** Default setting for car tires.
- **Motorcycle Mode:** Optimized for motorcycle tires.
- **Bike Mode:** Suitable for bicycle tires (supports both Presta and Schrader valves with included adapters).
- **Ball Mode:** Ideal for sports balls.
- **Custom Mode:** Allows manual setting of pressure up to 150 PSI.

Car

**2X Faster Up to
23L/min Inflation**

Motorcycle

**Up to 150psi covers
large pressure range**

Bike

**Built-in 2600mAh x3
rechargeable Li-battery**

Balls

**Real-time pressure on
smart digital screen**

Figure 5: Versatility across different inflation needs.

Using the LED Light:

Press the light button to activate the built-in LED light. This is useful for inflating items in low-light conditions or as an emergency light. The light also features an SOS flashing mode.

Using as a Power Bank:

The ZETTA 1024 can be used to charge other devices. Connect your device's USB-C charging cable to the inflator's USB-C port to initiate charging.

MAINTENANCE

- **Cleaning:** Wipe the device with a soft, dry cloth. Do not use abrasive cleaners or immerse in water.
- **Storage:** Store the inflator in a cool, dry place, away from direct sunlight and extreme temperatures. Use the provided storage bag to protect it.

- **Battery Care:** For optimal battery life, charge the device fully every 3-6 months if not in regular use.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not turn on.	Low battery.	Charge the device fully.
Inflator not inflating.	Hose or nozzle not securely connected.	Ensure all connections are tight.
Inflator stops prematurely.	Preset pressure reached; or low battery.	Check preset pressure. Recharge device if battery is low.
Inaccurate pressure reading.	Loose connection; or device needs calibration.	Ensure hose is tightly connected. If issue persists, contact customer support.

SPECIFICATIONS

Feature	Detail
Model Name	ZETTA 1024
Item Model Number	HJY-1024
Brand	Aerogogo
Maximum Operating Pressure	150 PSI
Air Flow Capacity	23 LPM
Voltage	12 Volts
Battery Capacity	2600mAh*3 Lithium Ion (included)
Noise Level	78 dB
Item Weight	1.63 pounds (0.74 Kilograms)
Package Dimensions	9.17 x 4.13 x 3.03 inches
Country of Origin	China
