

## Deedlite A5

# Deedlite Shiny Bath Wipes & Car Drying Towel Instruction Manual

Model: A5

## INTRODUCTION

---

Thank you for choosing Deedlite Shiny Bath Wipes & Car Drying Towels. These premium microfiber towels are designed for superior absorption and streak-free cleaning across various surfaces, from automotive to household applications. This manual provides essential information for optimal use and care of your new cleaning cloths.

## PRODUCT FEATURES

---

- **Ultimate Streak-Free Drying:** Advanced twisted-loop technology ensures instant water absorption without leaving streaks or water spots.
- **Gentle Yet Effective:** Ultra-soft, edgeless microfiber is 100% paint-safe, suitable for delicate surfaces like car paint, waxed finishes, and glass.
- **Extra-Large & Super Absorbent:** Designed to cover more surface area, reducing drying time. Available in various sizes.
- **Reusable & Quick-Drying:** Machine-washable and durable for hundreds of uses. Includes a hang hook for convenient storage.
- **Multi-Purpose Use:** Ideal for cars, shower cabins, mirrors, windows, and general household cleaning.

## SETUP / FIRST USE

---

For optimal performance, it is recommended to wash the Deedlite Shiny Bath Wipes & Car Drying Towels before their first use. This helps to remove any manufacturing residues and primes the microfiber for maximum absorbency.

- Machine wash with similar colors in cold water.
- Do not use fabric softener or bleach, as these can damage the microfiber and reduce its effectiveness.
- Tumble dry on low heat or air dry.

## OPERATING INSTRUCTIONS / USAGE

---

The Deedlite microfiber towels are designed for versatile cleaning and drying. Follow these guidelines for best results:

### For Car Drying:

1. After washing your vehicle, gently lay the towel flat on a wet surface.
2. Drag the towel across the surface without applying excessive pressure. The twisted-loop design will absorb water efficiently.
3. For heavily wet areas, fold the towel to use a dry section.
4. The towel is designed to dry an entire car without needing to be wrung out.

### For Shower & Household Cleaning:

1. Use the towel to wipe down shower doors, mirrors, windows, and other wet surfaces after use.
2. The microfiber material effectively removes water spots and streaks, leaving surfaces sparkling clean.
3. For general cleaning, the towel can be used dry for dusting or damp with water (or a mild cleaner) for wiping surfaces.

## MAINTENANCE AND CARE

Proper care will extend the life and effectiveness of your Deedlite microfiber towels:

- **Washing:** Machine wash separately or with other microfiber items to prevent lint transfer. Use cold water.
- **Detergent:** Use a mild liquid detergent. Avoid powder detergents, as they can clog microfiber pores.
- **Avoid Additives: Do not use fabric softeners, bleach, or dryer sheets.** These products can reduce the towel's absorbency and cleaning power.
- **Drying:** Tumble dry on low heat or air dry. High heat can damage microfiber. The integrated hang hook allows for easy air drying.
- **Storage:** Store clean, dry towels in a clean, dust-free area.

## TROUBLESHOOTING

---

If you encounter issues with your Deedlite Shiny Bath Wipes & Car Drying Towels, consider the following:

- **Streaks or Residue:** This is often caused by using too much cleaning product, fabric softener, or washing with lint-producing materials. Re-wash the towel according to the care instructions, ensuring no fabric softener is used.
- **Reduced Absorbency:** If the towel is not absorbing effectively, it may have accumulated residues from detergents or fabric softeners. Perform a deep clean by washing it with a microfiber-specific cleaner or a small amount of white vinegar, followed by a thorough rinse.
- **Linting:** If the towel is leaving lint, it might be new (requiring an initial wash) or has been washed with cotton items. Wash separately as instructed.

## SPECIFICATIONS

---

Attribute	Detail
Brand	Deedlite
Model Name	A5
Material	Microfiber
Size (Current Product)	15.75*23.62 INCH
Number of Items	2
Color	2pack (referring to the color/variant)
