4. SETUP

Follow these steps for initial setup:

1. **Unpack:** Carefully remove all components from the packaging.
2. **Clean:** Wash the glass carafe, filter cone, and measuring scoop with warm, soapy water. Rinse thoroughly and dry. Wipe the main unit with a damp cloth.
3. **Position:** Place the main unit on a dry, stable, and level surface. Ensure adequate ventilation around the machine.
4. **Fill Water Tank:** Open the water tank lid and fill with fresh, cold water up to the desired level. Do not exceed the MAX fill line.
5. **Assemble:** Place the filter cone onto the designated brewing area, then position the glass carafe underneath.
6. **Power On:** Plug the power cord into a suitable electrical outlet. The touchscreen display will illuminate.

5. OPERATING INSTRUCTIONS

The Gevi 4-in-1 Smart Pour-over Coffee Machine offers various modes for a personalized brewing experience.

5.1. Smart Touchscreen Interface

The machine features an intuitive touchscreen for controlling all functions. The display shows real-time brewing status and allows adjustments to preset parameters.

Efficiency, Precision & Consistency

Image 5.2: An exploded view of the grinder mechanism, highlighting the upgraded titanium flat burrs and the dial for selecting one of 51 grind settings. The design also incorporates anti-static grinding.

1. **Add Beans:** Place coffee beans into the bean hopper.
2. **Select Grind Setting:** Use the rotary dial to choose your desired grind size (1-51). Finer settings are suitable for espresso, while coarser settings are for pour-over or filter drip.
3. **Grind:** Select the grind function on the touchscreen. The anti-static tunnel ensures minimal mess.

5.3. Brewing Coffee

The machine offers both automatic and custom brewing modes.

5 Functions for Personalized Options

Image 5.3: The touchscreen showing five personalized functions: Auto Grind Program, Customizable Pour Coffee Recipes, Precise Built-in Scale, Smart Kettle Mode, and Visual Auto Descaling Function.

5.3.1. Auto Mode (Beginner Mode)

For quick and easy brewing, the Auto Mode is designed to achieve the 'Gold Cup Standard' with minimal input. Simply select the number of cups, and the machine handles the rest, including precise temperature control and water flow.

5.3.2. Custom Mode (Barista Mode)

For experienced users, the Custom Mode allows fine-tuning of various parameters:

- **Grind Setting:** Adjust from 1 to 51.
- **Brew Ratio:** Customize the coffee-to-water ratio.
- **Bloom Time:** Set the pre-infusion time for optimal flavor extraction.
- **Water Temperature:** Control the brewing temperature using the NTC Temperature Sensing System.
- **Brew Speed:** Adjust the water flow rate through the 360° rotating spout for even saturation.

You can name and save your custom recipes for future use.

5.4. Built-in Precise Scale

The machine includes a built-in scale to accurately weigh coffee beans or grounds in real-time, ensuring precise measurements for consistent results.

6. MAINTENANCE AND CLEANING

Regular maintenance ensures optimal performance and longevity of your coffee machine.

6.1. Daily Cleaning

- After each use, empty and rinse the glass carafe and filter cone. These parts are dishwasher safe.
- Wipe the exterior of the main unit with a soft, damp cloth. Do not use abrasive cleaners.
- Ensure the bean hopper and grinder chute are free of residual coffee grounds using the provided cleaning brush.

6.2. Descaling Function

The Gevi coffee machine features a visual auto descaling function to remove mineral buildup from the water system. Follow the on-screen prompts for the descaling process, typically recommended every 2-3 months depending on water hardness.

7. TROUBLESHOOTING

If you encounter issues with your Gevi coffee machine, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Machine does not turn on	No power supply; power cord not properly connected.	Check power outlet and ensure the cord is securely plugged in.
Coffee not brewing	Water tank empty; filter cone clogged; brew cycle not initiated.	Fill water tank; clean filter cone; press Start/Pause button.
Grinder not working	Bean hopper empty; grinder clogged; incorrect setting.	Add beans; clean grinder burrs; verify grind setting.
Coffee tastes weak or too strong	Incorrect grind size; wrong coffee-to-water ratio; water temperature issue.	Adjust grind setting; modify brew ratio; check water temperature settings.

If the problem persists, please contact Gevi customer support for assistance.
