SAFETY INFORMATION

- Ensure all components are securely fastened before use.
- Keep children and pets away from the desk during height adjustment.
- Do not overload the desk beyond its maximum weight capacity of 60 kg.
- Avoid placing liquids directly on the control panel or near electrical components.
- The desk features an anti-collision system and overheat protection. Do not attempt to bypass these safety features.
- Unplug the desk from the power source before cleaning or maintenance.

PACKAGE CONTENTS

Verify that all parts are present and undamaged. Refer to the included assembly guide for a detailed list of components.

- Desk Frame (Metal)
- Desk Top (Laminated Wood, multi-section)
- Control Panel with USB Charging Port
- Motor System
- Headphone Hook
- Cable Management Hub
- Assembly Hardware and Tools
- User Manual (this document)

SETUP AND ASSEMBLY

Assembly of the JUMMICO Electric Height Adjustable Desk is designed to be straightforward. The desktop is provided in sections for easier handling and assembly.

1. Unpack all components and lay them out on a clean, flat surface.
2. Assemble the desk frame according to the detailed instructions provided in the separate assembly guide.
3. Attach the multi-section desktop to the assembled frame, ensuring all screws are tightened securely.
4. Install the control panel in the desired location on the underside of the desk.
5. Connect all motor and control panel cables to the main control box.
6. Attach the headphone hook and cable management hub as desired.
7. Ensure all cables are properly routed and secured to prevent interference with the desk's movement.

Important: The desktop is composed of multiple sections. Ensure they are aligned correctly during assembly. For optimal stability, it is recommended to have two people for assembly.

Height Adjustment

The desk's height can be adjusted electrically from 73 cm to 118 cm.

- **Raise Desk:** Press and hold the "+" button on the control panel.
- **Lower Desk:** Press and hold the "-" button on the control panel.
- Release the button when the desired height is reached.

Memory Presets

The control panel allows you to save two preferred height settings for quick adjustment.

1. Adjust the desk to your desired height using the "+" or "-" buttons.
2. Press the "M" button, then immediately press either "1" or "2" to save the current height to that memory slot.

3. To recall a saved height, simply press the corresponding "1" or "2" button. The desk will automatically move to the saved position.

USB Charging Port

The control panel includes a USB port for convenient charging of your electronic devices. Simply connect your device's USB cable to the port.

Anti-Collision System

The desk is equipped with an anti-collision system. If the desk encounters an obstacle during height adjustment, it will automatically stop and reverse slightly to prevent damage.

MAINTENANCE

- **Cleaning:** Wipe the desk surface and frame with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals.

Ensure the desk is unplugged before cleaning.

- **Cable Management:** Regularly check and organize cables using the provided cable management hub to prevent tangling or damage during height adjustments.
- **Fasteners:** Periodically check all screws and bolts to ensure they remain tight. Retighten if necessary.
- **Motor System:** The motor system is designed for durability and quiet operation (less than 55 dB). If you notice unusual noises or performance issues, refer to the troubleshooting section.

Image: The desk operating quietly, indicated by a sleeping cat on the surface, demonstrating its low noise level during adjustment.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Desk does not move.	No power, loose cable connection, motor error.	• Check if the power cord is securely plugged into both the wall outlet and the desk. • Ensure all motor and control panel cables are firmly connected. • Unplug the desk for 10 seconds, then plug it back in to reset the system.
Desk stops moving unexpectedly.	Anti-collision system activated, overload, overheat protection.	• Check for any obstacles in the desk's path and remove them. • Reduce the weight on the desk if it exceeds 60 kg. • Allow the motor to cool down if it has been used continuously for an extended period.
Height presets are not working.	Presets not saved correctly, system error.	• Re-save your desired height presets by following the "Memory Presets" instructions. • Perform a system reset by unplugging and replugging the desk.
USB charging port not working.	Device compatibility, power issue.	• Ensure the desk is powered on. • Try a different USB cable or device to rule out compatibility issues.

PRODUCT SPECIFICATIONS

Feature	Detail
Brand	JUMMICO
Model Number	0183
Color	Beige
Desktop Dimensions (L x W)	140 cm x 60 cm
