## 2. SAFETY INFORMATION

---

Please read all safety warnings and instructions carefully before assembly and use. Keep this manual for future reference.

- **Fall Prevention:** The bed is designed with rails on both sides to help prevent occupants from falling out. Ensure these rails are properly installed and secured during assembly.
- **Weight Capacity:** Do not exceed the maximum recommended load of **250 pounds**. Overloading can compromise the bed's structural integrity and lead to injury.
- **Assembly:** Assemble the bed strictly according to the provided instructions. Ensure all screws and fasteners are tightened securely before use. Periodically check and re-tighten fasteners.
- **Material Safety:** Crafted from pine wood, MDF, and PU leather. Ensure proper ventilation during initial setup if any material odors are present.

- **Supervision:** Children should be supervised when using the bed, especially during initial use or if they are prone to active play around furniture.
- **Mattress Thickness:** Use a mattress with a recommended thickness of **8-10 inches** to ensure proper fit and safety within the bed frame.

### 3. PACKAGE CONTENTS

---

Before beginning assembly, please verify that all components listed below are present and undamaged. If any parts are missing or damaged, contact customer support immediately.

#### General Assembly Steps:

1. Unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Identify all hardware and components using the parts list in the PDF manual.
3. Attach the side panels to the headboard and footboard sections using the provided hardware.
4. Install the central support beam and attach the wooden slats across the bed frame. Ensure slats are evenly spaced

and securely fastened.

5. Verify all connections are tight and the bed frame is stable before placing a mattress.

## 5. OPERATING INSTRUCTIONS

The FridayParts Race Car Bed is designed as a platform bed for sleeping. Once assembled, it requires minimal "operation."

- Mattress Placement:** Place a twin-size mattress (recommended thickness 8-10 inches) directly onto the wooden slats. No box spring is required.
- Mobility:** The bed features decorative wheels. While these add to the race car aesthetic, the bed is primarily designed for stationary use. If moving the bed, lift it rather than dragging to prevent damage to the floor or bed frame.
- Usage:** This bed is intended for sleeping and resting. Avoid excessive jumping or rough play on the bed to maintain its structural integrity and ensure safety.

## 6. MAINTENANCE

---

Proper maintenance will extend the life and appearance of your bed.

- **Cleaning:** Wipe with a dry cloth. For stubborn spots on the PU leather, a slightly damp cloth with mild soap can be used, followed by immediate drying. Avoid harsh chemicals or abrasive cleaners.
- **Hardware Check:** Periodically inspect all screws, bolts, and connections to ensure they remain tight. Re-tighten as necessary to maintain stability and safety.
- **Environmental Conditions:** Avoid placing the bed in direct sunlight or near heat sources, which can cause material degradation or fading. Maintain a stable room temperature and humidity.

## 7. TROUBLESHOOTING

This section addresses common issues you might encounter. For problems not listed here, please contact customer support.

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose hardware.	Check and re-tighten all screws and bolts. Ensure all connections are secure.
Squeaking noises.	Loose connections or friction between parts.	Re-tighten all hardware. Apply a small amount of furniture wax or silicone spray to contact points if necessary (avoiding areas that bear weight).
Missing parts during unboxing.	Packaging error or transit damage.	Refer to the package contents list and contact FridayParts customer support with details of the missing items.
