Letaya 16"D x 32"W x 71"H

Letaya Metal Storage Cabinet User Manual

Model: 16"D x 32"W x 71"H

1. INTRODUCTION

Thank you for choosing the Letaya Metal Storage Cabinet. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your new storage cabinet. Please read these instructions carefully before beginning assembly and retain them for future reference.

This image shows the Letaya Metal Storage Cabinet with its left door open, displaying the interior with multiple adjustable shelves. The cabinet is black and features a key lock on the right door.

2. SAFETY INFORMATION

Always keep hands away from moving parts. Ensure cabinet is securely mounted to the wall or floor to prevent tipping. Use caution when adjusting shelves to avoid pinch points. Always unplug and turn off any attached equipment before performing maintenance.

3. PACKAGE CONTENTS

Before assembly, verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Cabinet Panels (Top, Bottom, Sides, Back, Doors)
- Adjustable Shelves (5 included)
- Locking Mechanism with Keys (2 keys)
- Assembly Hardware (screws, bolts, etc.)
- Adjustable Feet
- Assembly Instructions

4. SETUP AND ASSEMBLY

Assembly typically takes approximately 30 minutes with two people. A power tool can expedite the process, but use low torque settings to prevent stripping screws or damaging the metal.

1. **Unpack Components:** Carefully remove all parts from the packaging. Inspect for any damage.
2. **Assemble Frame:** Follow the included detailed instructions to connect the side, top, and bottom panels. Ensure all screws are tightened securely.
3. **Install Back Panels:** Attach the back panels to the assembled frame.
4. **Attach Doors:** Mount the doors to the cabinet frame. Ensure they swing freely and align correctly.
5. **Install Shelves:** Insert the adjustable shelves into the desired positions. Refer to the 'Operating Instructions' section for details on shelf adjustment.
6. **Attach Adjustable Feet:** Screw the adjustable feet into the base of the cabinet. Adjust them to ensure the cabinet is level and stable on uneven surfaces.
7. **Secure to Wall (Recommended):** For enhanced stability and safety, especially in areas with children or pets, utilize the pre-drilled holes on the back of the cabinet to mount it to a wall using appropriate hardware (not included).

PRODUCT DIMENSION

This diagram illustrates the key dimensions of the cabinet: 71 inches high, 31.5 inches wide, and 15.7 inches deep. It also highlights that each of the five adjustable shelves can support up to 120 pounds.

Loading Capacity

Shelves Hold 120 LBS

This image details several features of the cabinet: a magnetic mechanism for easy door closure, adjustable feet for stability on uneven surfaces, a key lock system for security, and a reminder that each shelf can hold up to 120 pounds.

5. OPERATING INSTRUCTIONS

5.1 Adjusting Shelves

The cabinet features five adjustable shelves, each capable of holding up to 120 lbs. To adjust a shelf:

1. Empty the shelf of all contents.
2. Carefully lift the shelf and disengage it from its current support clips.
3. Reposition the support clips to the desired height. Ensure they are securely seated in the cabinet's pre-drilled holes.
4. Place the shelf onto the new support clips, ensuring it is level and stable before placing items on it.

HEIGHT ADJUSTABLE STORAGE SHELVES

Adjust the cross bars according to different heights

This image demonstrates how the shelves within the cabinet can be adjusted to different heights to accommodate items of various sizes. It shows items being stored on shelves at different levels.

5.2 Locking Mechanism

The cabinet is equipped with a three-point locking system for enhanced security. Insert the key into the lock on the right door and turn to engage or disengage the locking rods. The doors also feature magnetic closures to keep them shut when unlocked.

6. MAINTENANCE

- **Cleaning:** Wipe the cabinet surfaces with a soft, damp cloth. Avoid abrasive cleaners or solvents that could damage the powder-coated finish.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if necessary.
- **Lubrication:** If the door hinges or locking mechanism become stiff, apply a small amount of silicone-based lubricant.
- **Stability:** Regularly check the cabinet's stability, especially if it is not wall-mounted. Adjust the feet as needed to maintain a level position.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Doors do not close or align properly	Cabinet is not level; hinges are loose; panels are misaligned during assembly.	Adjust the cabinet's feet to ensure it is level. Check and tighten hinge screws. Review assembly steps to ensure all panels are correctly installed.
Locking mechanism is stiff or not engaging	Lack of lubrication; misalignment of locking rods.	Apply a silicone-based lubricant to the lock and rods. Ensure doors are fully closed and aligned before attempting to lock.
Shelves sag or are unstable	Overloaded shelf; shelf clips not properly seated.	Reduce the weight on the shelf (maximum 120 lbs per shelf). Ensure shelf support clips are fully and correctly inserted into the cabinet holes.

8. SPECIFICATIONS

- **Brand:** Letaya
- **Model:** 16"D x 32"W x 71"H
- **Color:** Black
- **Material:** 0.8mm Steel
- **Finish:** Environmentally Powder Coated
- **Product Dimensions:** 16"D x 32"W x 71"H
- **Number of Shelves:** 5 (Adjustable)
- **Shelf Weight Capacity:** 120 lbs per shelf
- **Total Weight Limit:** 180 Pounds (Note: This appears to be a general product weight limit, not total shelf capacity. Adhere to individual shelf limits.)
- **Special Features:** Lockable Doors, Adjustable Shelves, Magnetic Door Closures, Adjustable Feet, Wall Mountable (pre-holes)
- **Assembly Required:** Yes
- **Item Weight:** 75 Pounds
