## Yaheetech VC615319

# Yaheetech Indoor Dog Cage VC615319 Instruction Manual

Model: VC615319

## INTRODUCTION

---

This manual provides essential information for the assembly, operation, maintenance, and troubleshooting of your Yaheetech Indoor Dog Cage (Model VC615319). Designed to offer a secure and comfortable environment for your pet, this cage also functions as a stylish piece of furniture. Please read these instructions carefully before use to ensure proper setup and safe operation.

## SETUP AND ASSEMBLY

---

The Yaheetech Indoor Dog Cage requires assembly. A detailed accessory kit and assembly instructions are included with your product. Please ensure all components are present and undamaged before beginning assembly. Follow the provided step-by-step guide for proper construction.

### Key Assembly Considerations:

- **Component Identification:** Lay out all parts and compare them against the parts list in your included assembly guide.
- **Door Orientation:** The side door can be assembled to open from either the left or right, depending on your room configuration. Decide the preferred direction before attaching the door panel.
- **Secure Fasteners:** Ensure all screws and fasteners are tightened securely to provide stability for the cage. Do not overtighten.
- **Adjustable Feet:** The cage is equipped with adjustable feet. These should be adjusted after assembly to ensure the cage is level and stable on uneven floors.

**Double Doors**

**Double Latches**

**Adjustable Feet**

**Anti-skid Plush Mat**

## OPERATING INSTRUCTIONS

---

Using your Yaheetech Indoor Dog Cage is straightforward. Follow these guidelines for safe and effective use:

- **Opening and Closing Doors:** The cage features two doors, one on the front and one on the side. To open, slide the latch mechanism upwards or sideways and pull the door open. To close, push the door shut and ensure the latches engage securely.
- **Securing Your Pet:** Always ensure both latches on the door are fully engaged when your pet is inside the cage to prevent accidental escapes.
- **Plush Mat Placement:** Position the anti-skid plush mat inside the cage for your pet's comfort. The mat helps prevent slipping and provides a soft resting surface.
- **Stability Check:** Periodically check the adjustable feet to ensure the cage remains level and stable. Adjust as needed by rotating the feet.

## MAINTENANCE

---

Regular cleaning and maintenance will prolong the life of your Yaheetech Indoor Dog Cage and ensure a hygienic

environment for your pet.

## Cleaning Guidelines:

- **Metal Mesh:** Wipe the metal bars with a damp cloth and mild, pet-safe detergent. Rinse with a clean, damp cloth and dry thoroughly to prevent rust.
- **MDF Surfaces:** The MDF board surfaces are designed to be scratch-resistant and waterproof. Clean with a soft, damp cloth and a mild cleaner. Avoid abrasive cleaners or harsh chemicals that could damage the finish. Dry immediately after cleaning.
- **Plush Mat:** The anti-skid plush mat can be removed for cleaning. Hand wash or machine wash on a gentle cycle with cold water and a mild detergent. Air dry completely before placing it back in the cage.
- **General Inspection:** Regularly inspect the cage for any loose parts, damage, or wear. Tighten any loose screws and address any damage promptly.

## Flexible Side Door Assembly

You can decide the direction of the side door

Image: Visual representation of the cage's durable construction, featuring rounded corners for safety, a scratch-resistant surface, and a waterproof finish for easy cleaning and longevity.

## TROUBLESHOOTING

If you encounter any issues with your Yaheetech Indoor Dog Cage, refer to the following common troubleshooting tips:

- **Cage is Unstable/Wobbly:**

*Solution:* Check that all assembly screws are securely tightened. Adjust the leveling feet on the bottom of the cage by rotating them until the cage sits firmly and level on the floor.

- **Doors Do Not Close or Latch Properly:**

*Solution:* Ensure the cage is assembled correctly and is not warped. Check that the door hinges are properly aligned and that the latch mechanisms are free from obstruction. If the cage is on an uneven surface, adjust the feet.

- **Pet Chews on Wood/Metal:**

*Solution:* This behavior may indicate boredom or anxiety. Provide appropriate chew toys for your pet. Consult with a veterinarian or animal behaviorist if the problem persists.
