Codi 4 FT Bean Bag Chair

Codi 4 FT Bean Bag Chair Instruction Manual

INTRODUCTION

Thank you for choosing the Codi 4 FT Bean Bag Chair. This manual provides essential information for the proper setup, use, and care of your new bean bag chair. Designed for comfort and versatility, this chair features high-quality shredded memory foam filler and a soft, machine-washable cover. Please read these instructions carefully to ensure optimal enjoyment and longevity of your product.

SETUP INSTRUCTIONS

Your Codi Bean Bag Chair is shipped in a compressed state to facilitate transport. Follow these steps for initial setup:

1. **Unpack the Chair:** Carefully remove the bean bag chair from its packaging. The inner foam portion will be vacuum-sealed.

2. **Position the Foam:** Place the vacuum-sealed foam portion inside the unzipped outer cover. This makes it easier to manage the expansion process.

3. **Allow for Expansion:** Once the foam is inside the cover, close the zipper. The shredded memory foam requires **24-48 hours** to fully expand to its intended size and firmness. During this time, periodically fluff and shake the bean bag to help distribute the foam and encourage expansion.

4. **Initial Fluffing:** After the initial expansion period, fluff the chair by gently tossing and rotating it to break up any compressed foam and achieve desired comfort.

Enjoy various activities like reading or watching TV in your Codi bean bag chair.

MAINTENANCE

Proper maintenance ensures the longevity and cleanliness of your Codi Bean Bag Chair.

- **Cover Care:** The outer cover is removable and machine washable. Unzip the cover using the seamless hidden zipper and remove it from the inner foam bag.

- **Washing Instructions:** Machine wash the cover in cold water on a gentle cycle. Tumble dry on low heat or air dry. Do not bleach.

- **Fluffing:** Over time, the shredded memory foam may compress. Periodically fluff the bean bag by shaking and rotating it to redistribute the foam and restore its shape and comfort.

- **Portability:** Use the ergonomic carry handle to easily move the bean bag chair between rooms.

TROUBLESHOOTING

- **Insufficient Expansion/Firmness:** If the bean bag does not feel full or firm enough after 24-48 hours, ensure it has been thoroughly fluffed. Continued fluffing and allowing more time (up to 72 hours) can help. If the issue persists, additional memory foam filler may be required (sold separately).

- **Zipper Difficulty:** The internal zipper for the foam bag is designed to be secure. If it is difficult to open, apply gentle, steady pressure. Avoid forcing the zipper to prevent damage.

- **Cover Stains:** For stubborn stains on the cover, pre-treat with a mild stain remover before machine washing. Always test the stain remover on an inconspicuous area first.
