

Fienhund ACF90W-DE

Fienhund 5G WiFi Automatic Pet Feeder (Model ACF90W-DE) Instruction Manual

Model: ACF90W-DE

1. INTRODUCTION

This manual provides detailed instructions for the setup, operation, and maintenance of your Fienhund 5G WiFi Automatic Pet Feeder. This device is designed to provide scheduled and controlled feeding for your pets, enhancing their health and your convenience.

2. PACKAGE CONTENTS

Verify that all components are present in the package before proceeding with setup:

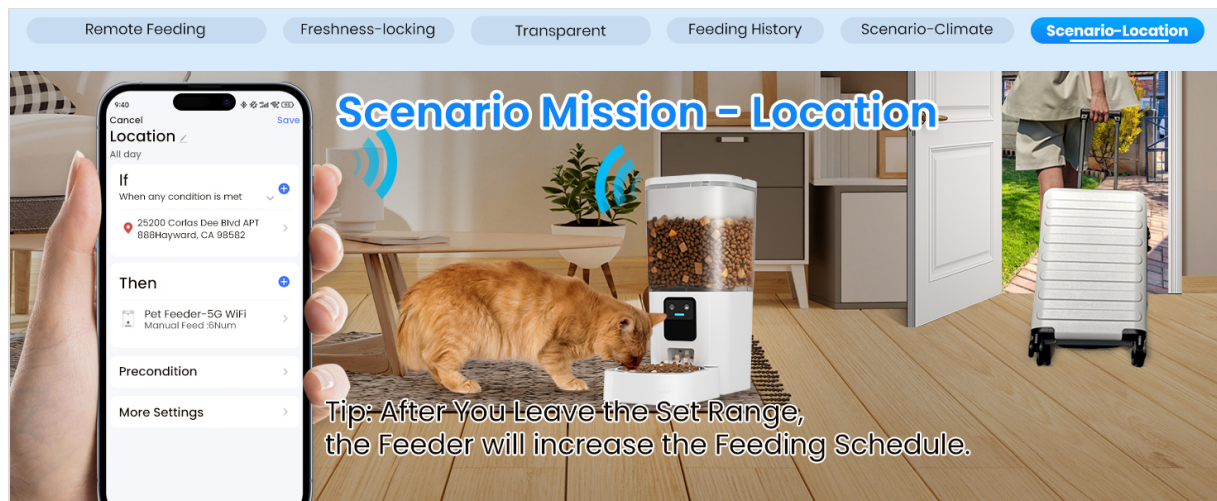

Image: A visual representation of all items included in the product package.

- Lid (x1)
- Meal Splitter (x1)
- Power Adapter (x1)
- Desiccant (x1)
- Stainless Steel Feeding Bowl (x1)
- Food Tank (x1)
- Feeder Base (x1)
- USB Cable (x1)
- Desiccant Compartment (x1)
- Bowl Tray (x1)
- ABS Wall Hook (x1)
- Screws (x4)
- Anchors (x4)
- User Manual (x1)

3. SETUP INSTRUCTIONS

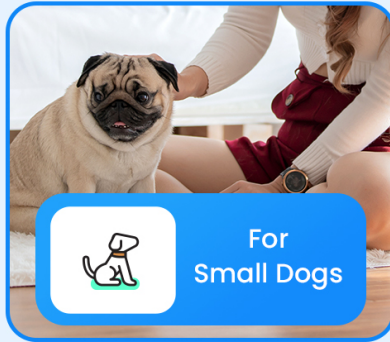

3.1 Assembly

1. Place the feeder base on a stable, flat surface.
2. Insert the food tank into the feeder base.
3. Place the desiccant bag into the desiccant compartment located under the lid to maintain food freshness.
4. Secure the lid onto the food tank.
5. Place the stainless steel feeding bowl into the bowl tray and attach it to the feeder base.

3.2 Power Connection

Connect the DC 5V power adapter to the feeder and a wall outlet. For continuous operation during power outages, install 3 D-cell batteries (not included) in the battery compartment at the bottom of the feeder. Dual power supply is recommended.

7L Large Capacity Suitable for All Types of Pets

Note: Large capacity food storage continuously provides your pets with fresh food for weeks.

Image: An illustration showing the 5V power adapter, D-cell battery slots, and chip memory for continuous operation.

3.3 App Download and Wi-Fi Connection

Download the 'Smart Life' app from your iOS or Android app store. Follow the in-app instructions to connect the feeder to your home Wi-Fi network. The feeder supports dual-band Wi-Fi (2.4GHz & 5GHz) for a stable connection without requiring router adjustments.

Two Main Upgrades

Easier to Connect	Large Capacity Storage
Support 2.4GHz & 5GHz Networking without changing router settings	7L No need to add food frequently
Only 2.4GHz Networking requires changing router settings	Less than 7L Frequent food additions are required

Image: A smartphone displaying the Smart Life app, highlighting the feeder's compatibility with both 2.4GHz and 5GHz Wi-Fi networks for stable connectivity.

4. OPERATING INSTRUCTIONS

4.1 App Control and Feeding Schedule

Use the 'Smart Life' app to program and monitor your pet's meals. You can set up to 30 meals per day, with 1-12 portions per meal. The app also allows for manual feeding and provides feeding data.

Image: The app's feeding schedule interface, demonstrating how to set meal times and portion sizes, with a cat waiting by the feeder.

4.2 Slow Feeding Mode

Activate the slow feeding mode to dispense one portion of food every minute. This feature helps prevent pets from eating too quickly, reducing the risk of vomiting, bloating, and obesity.

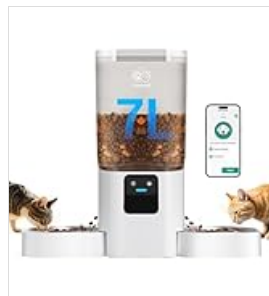

Image: A veterinarian examining a pug, with a cat nearby, emphasizing the importance of slow feeding for digestive health.

4.3 Alexa Integration

The feeder supports Amazon Alexa. You can use voice commands through your Amazon Echo device to dispense snacks to your pet hands-free.

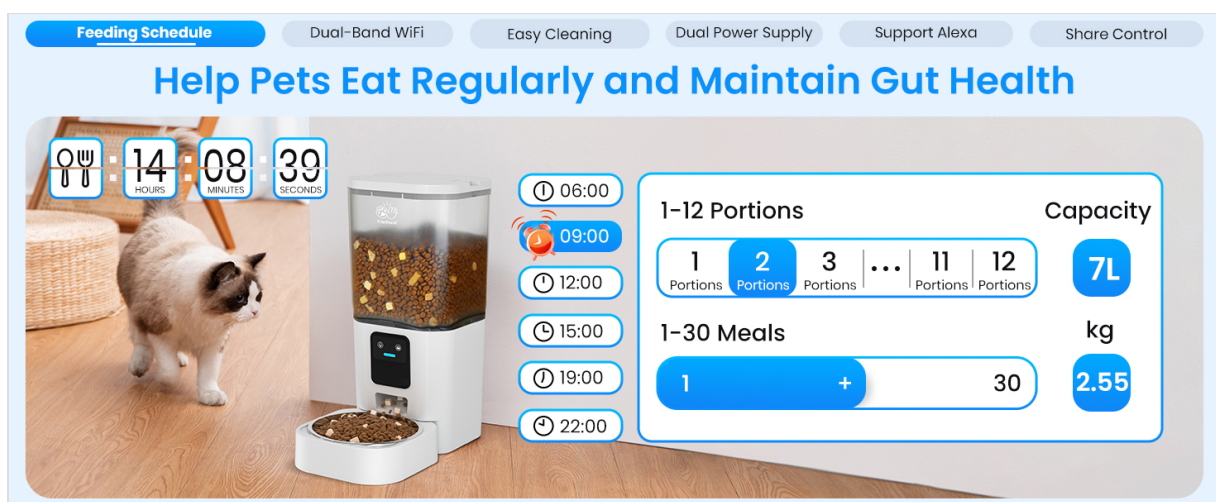

Image: A woman interacting with an Amazon Echo device to command the pet feeder, with a cat waiting for food.

4.4 Share Control

The app allows you to share control of the feeder with family members, enabling multiple users to manage the pet's feeding schedule.

Image: A smartphone displaying the 'Add Sharing' screen within the Smart Life app, illustrating how to share feeder control with family members.

4.5 Scenario Missions (Climate & Location)

Set up scenario missions in the app to adjust feeding based on environmental conditions or your location. For example, increase food portions during cold weather or when you leave a set range from home.

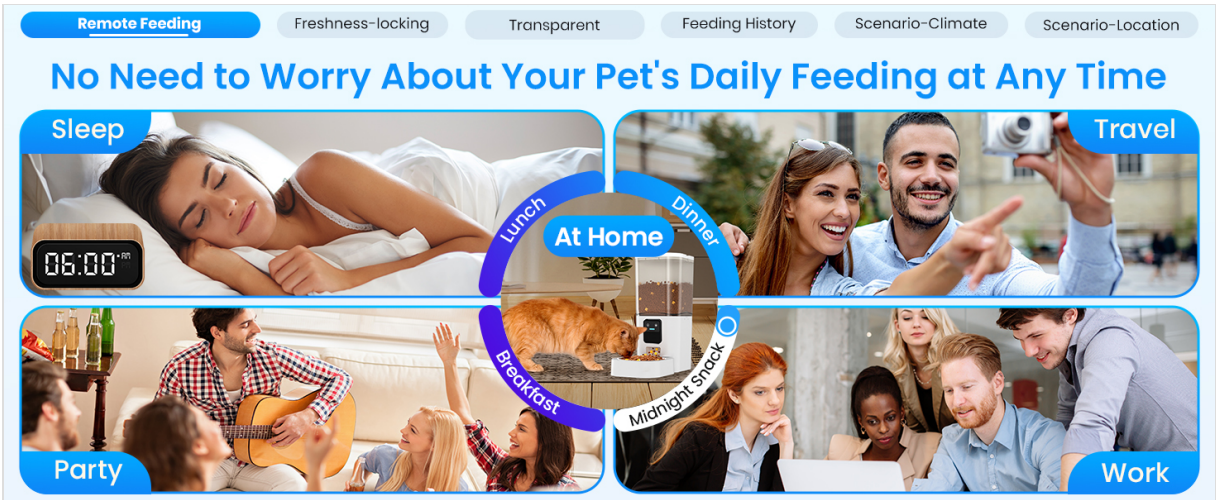

Image: The app's 'Scenario Mission - Climate' interface, showing how to set feeding adjustments based on temperature.

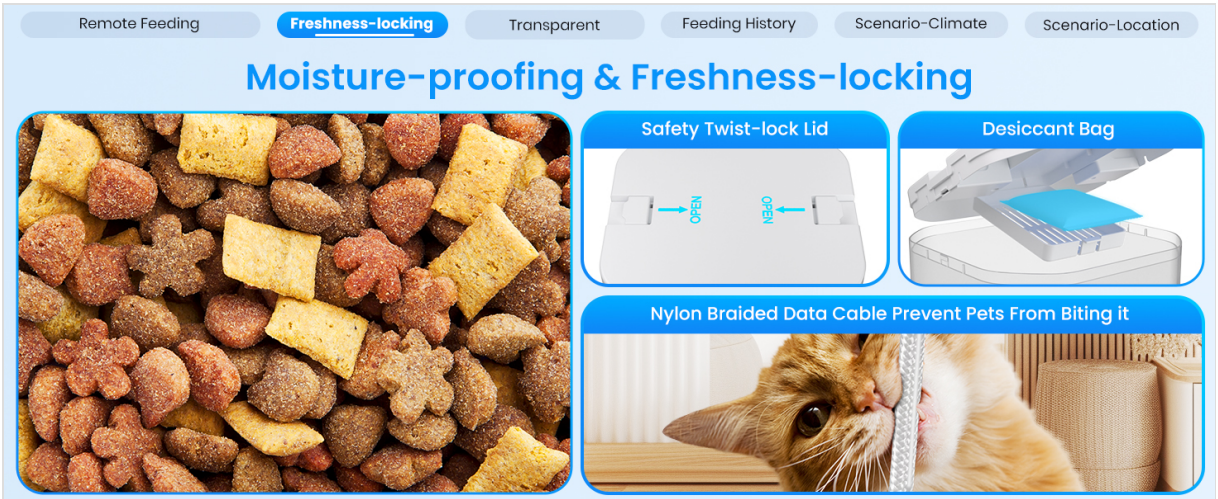

Image: The app's 'Scenario Mission - Location' interface, demonstrating how the feeder can adjust schedules when you

leave a defined area.

4.6 Feeding History

The app maintains a real-time log of all feeding events, allowing you to monitor your pet's consumption history.

Image: A smartphone displaying the feeding history log within the app, with a cat looking at the screen.

5. MAINTENANCE

5.1 Cleaning

The feeder features a detachable design for thorough cleaning. The food tank and stainless steel bowl can be removed for washing. The stainless steel bowl is dishwasher safe.

Image: A kitchen counter with the feeder's detachable parts being cleaned in a sink and a dishwasher, highlighting the ease of cleaning.

5.2 Food Freshness

Ensure the desiccant bag is replaced periodically to maintain food freshness. The feeder's twist-lock lid also helps in moisture-proofing.

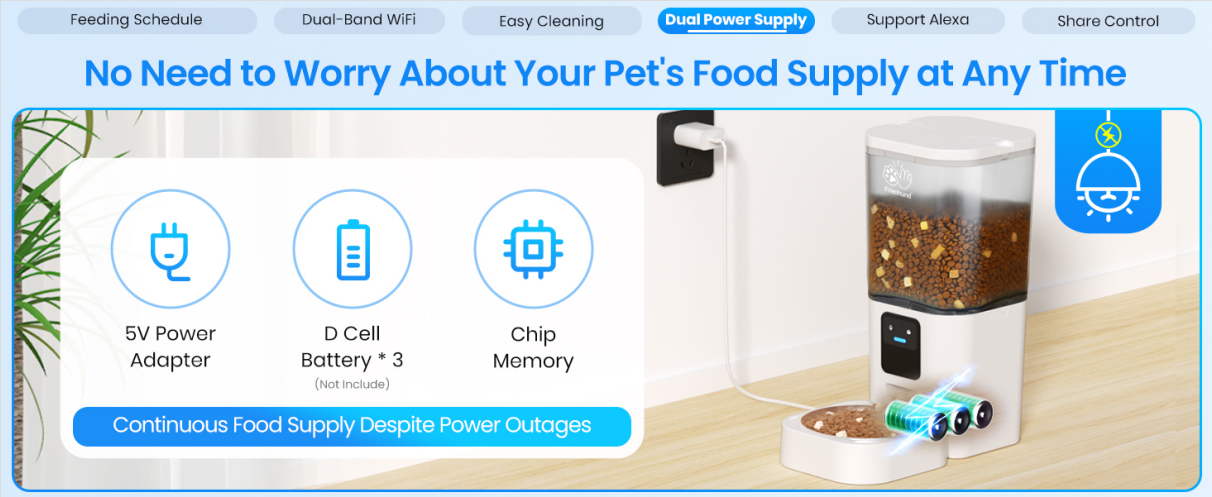

Image: Details of the safety twist-lock lid and desiccant bag for freshness, along with a nylon braided data cable to prevent pet chewing.

6. SPECIFICATIONS

Detailed specifications for the Frienhund Automatic Pet Feeder (Model ACF90W-DE):

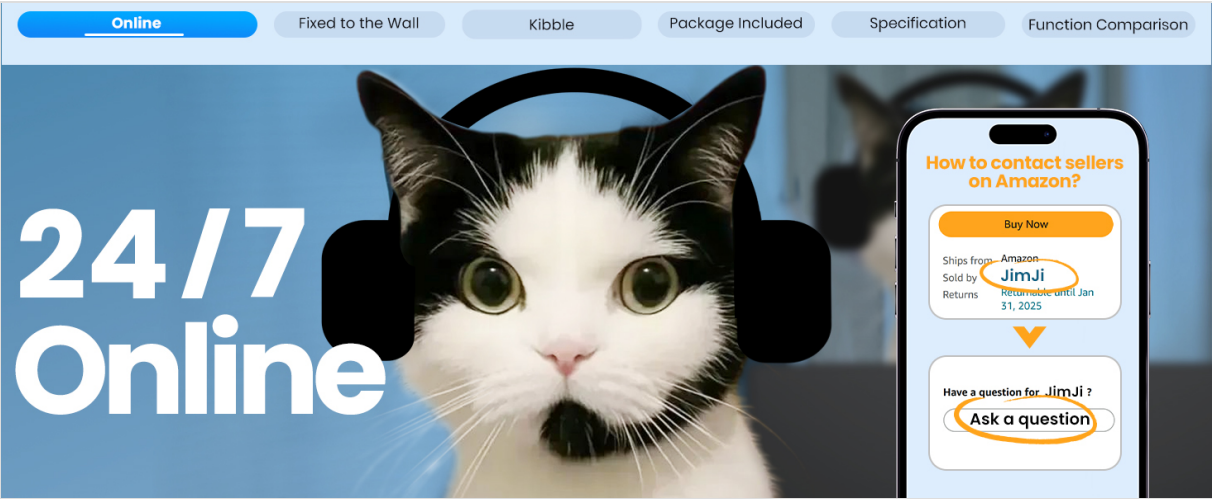

Image: A visual representation of the feeder's dimensions and key specifications.

- **Model Number:** ACF90W-DE
- **Capacity:** 7 Liters (approximately 2.55 kg of dry food)
- **Dimensions:** 47.5 x 18.03 x 40.13 cm (Product); 31.5 x 18.0 x 39.1 cm (Feeder)
- **Weight:** 1.6 kg
- **Material:** ABS (BPA-Free), Stainless Steel (Bowl)
- **Network Connection:** 2.4G / 5G WiFi
- **Power Source:** DC 5V Power Adapter, 3 x D-Cell Batteries (not included)
- **Power Cord Length:** 150 cm
- **Recommended Food Size:** 5-15mm (0.19-0.59in)
- **Supported Food Types:** Freeze Dried Food, Multi Pieced Food, Dry Food, Air Dried Food
- **Special Features:** Portable, Durable, Portion Control, Programmable, Smart App, Alexa Support, Dual Power, Detachable Design, Wall-mountable.

6.1 Wall Mounting

The feeder can be flexibly mounted to a wall using the included ABS wall hook, screws, and anchors to prevent it from being knocked over by pets.

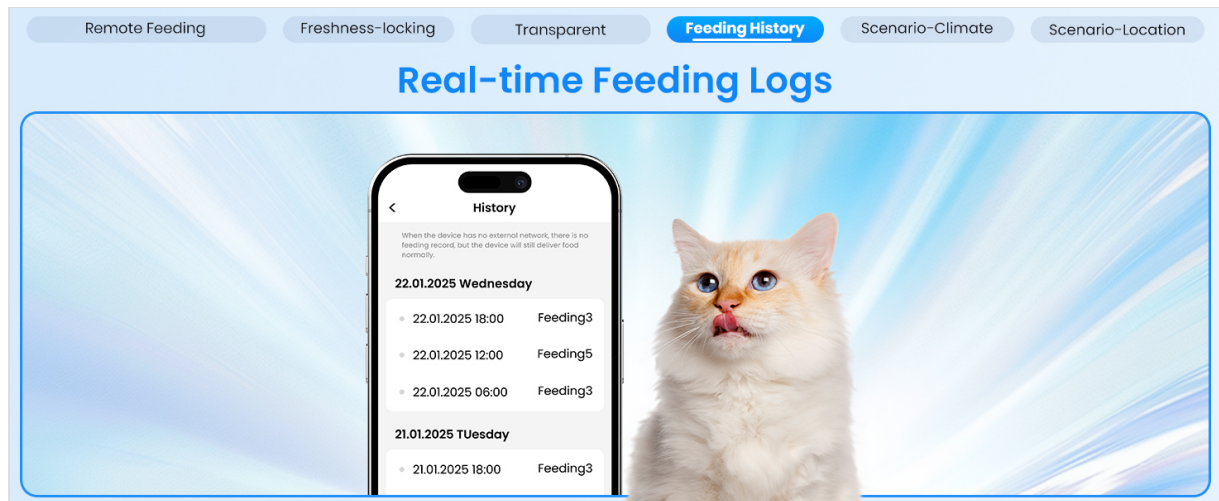

Image: An illustration demonstrating the feeder's wall-mounting capability, shown above an aquarium.

7. TROUBLESHOOTING

7.1 Connectivity Issues

- Ensure your Wi-Fi network is active and within range.
- Verify that the feeder is powered on and the indicator light is functioning correctly.
- Restart the feeder and your router if connection problems persist.
- Confirm that the 'Smart Life' app is updated to the latest version.

7.2 Food Dispensing Problems

- Check if the food tank is sufficiently filled.
- Ensure the kibble size is within the recommended range (5-15mm) to prevent blockages.
- Clean the food outlet and internal components to remove any obstructions.
- Verify that the feeding schedule is correctly set in the app.

7.3 Power Interruption

If the main power supply is interrupted, the feeder will automatically switch to battery power (if D-cell batteries are installed) to ensure continuous feeding. Check battery levels regularly.

8. WARRANTY AND SUPPORT

Friehund offers a one-year warranty for this automatic pet feeder. For any issues or inquiries, 24/7 online service is available. You can contact support via your order details, email, or phone.
