

Netatmo NOC Parent

Netatmo Smart Outdoor Security Camera (NOC Parent) Instruction Manual

Model: NOC Parent

1. INTRODUCTION

This manual provides essential information for the installation, operation, and maintenance of your Netatmo Smart Outdoor Security Camera with 105-dB Siren. This device is designed to enhance your home security by providing real-time monitoring, smart alerts, and an integrated deterrent system.

The Netatmo Smart Outdoor Security Camera offers advanced features such as person, vehicle, and animal detection, a powerful siren, and a smart floodlight, all accessible via your smartphone without any subscription fees.

2. WHAT'S IN THE BOX

Please ensure all components are present before beginning installation:

- Netatmo Smart Outdoor Security Camera with 105-dB Siren
- Mounting Bracket and Screws
- Encrypted microSD card (pre-installed)
- User Manual and Quick Start Guide

3. SETUP

3.1 Installation

The Netatmo Smart Outdoor Security Camera is designed for wall mounting and requires a corded electric power source. It is recommended to replace an existing outdoor light fixture for easier installation.

1. **Power Off:** Before starting, ensure the power to the installation area is turned off at the main circuit breaker.
2. **Mounting:** Securely attach the mounting bracket to the desired outdoor wall location. Ensure the camera has a clear view of the area you wish to monitor.

3. **Wiring:** Connect the camera's wiring to your home's electrical system. Follow local electrical codes and safety guidelines. The camera is designed to be hardwired.
4. **Attach Camera:** Mount the camera onto the bracket.
5. **Power On:** Restore power at the circuit breaker. The camera's floodlight should illuminate briefly.

For detailed wiring instructions, please consult a qualified electrician if you are unsure.

3.2 App Setup and Wi-Fi Connection

To operate your camera, you need to download the Netatmo Security app on your smartphone.

1. **Download App:** Search for 'Netatmo Security' in your device's app store (iOS or Android) and install it.
2. **Create Account:** Open the app and follow the on-screen instructions to create a Netatmo account or log in if you already have one.
3. **Add Camera:** Select 'Add a new product' and choose your Smart Outdoor Security Camera.
4. **Connect to Wi-Fi:** The app will guide you through connecting your camera to your home Wi-Fi network. Ensure your Wi-Fi signal is strong at the camera's location.
5. **Configuration:** Complete the initial setup, including naming your camera and setting basic preferences.

4. OPERATING THE CAMERA

4.1 Key Features Overview

 100°	100° Filed of view		Infrared Night vision
	105-dB Integrated siren		Smart detection
	Full HD 1080p		Floodlight
	Waterproof : HZO protection standard		No subscription fees

Image: An infographic detailing the camera's key features, including 100° field of view, 105-dB integrated siren, Full HD 1080p video, IP65 waterproof rating, infrared night vision, smart detection, floodlight, and no subscription fees.

- **100° Field of View:** Provides a wide surveillance area.
- **Full HD 1080p:** Records clear, high-definition video.
- **IP65 Waterproof:** Designed to withstand outdoor weather conditions.
- **Infrared Night Vision:** Ensures clear monitoring even in complete darkness.
- **Smart Detection:** Distinguishes between people, vehicles, and animals.
- **Integrated Floodlight:** Provides illumination and acts as a deterrent.
- **105-dB Integrated Siren:** A powerful audible alarm to deter intruders.
- **No Subscription Fees:** All features and storage are free to use.

4.2 Instant Notifications

The camera sends real-time alerts to your smartphone when an unknown person, vehicle, or animal is detected on your property. These notifications include a snapshot or video clip of the event, allowing you to quickly assess the situation.

Image: The Netatmo camera alongside a smartphone displaying the Netatmo Security app interface, showing a live view and a timeline of detected events, including person and dog detections.

4.3 105-dB Siren

Upon receiving an alert, you can remotely trigger the camera's built-in 105-dB siren directly from the Netatmo Security app. This loud alarm is designed to deter intruders instantly.

Your browser does not support the video tag.

Video: An official Netatmo video demonstrating the Smart Outdoor Camera with Siren. It illustrates how the camera detects an intruder, sends an alert to a smartphone, and how the user can trigger the 105-dB siren to deter the intruder.

4.4 Smart Floodlight

The camera features an integrated smart lighting system that can be configured to light up automatically upon detection of movement, or manually controlled via the app. This serves both as a welcoming light and a powerful deterrent.

4.5 Night Vision

Equipped with infrared night vision, the camera provides clear, high-definition images and video 24/7, even in complete darkness. This ensures continuous monitoring and security around the clock.

4.6 Alert Zones and Detection Types

Customize your monitoring by defining specific 'Alert Zones' within the camera's field of view. You can also specify the types of intrusions that should trigger an alert (human, vehicle, or animal) to reduce unwanted notifications.

Image: An overhead view of an outdoor property showing the Netatmo camera monitoring a driveway with a car, a person, and a dog, illustrating its ability to detect different subjects within a defined area.

4.7 Smart Home Integration

The Netatmo Smart Outdoor Security Camera is compatible with leading smart home platforms, including Amazon Alexa, Apple HomeKit (including Secure Video), and Google Assistant. This allows for voice control and integration into broader smart home automation scenarios.

5. MAINTENANCE

5.1 MicroSD Card

Your camera stores recorded videos locally on an encrypted microSD card, ensuring your data remains secure and private. The microSD card is pre-installed and generally does not require user intervention for normal operation. If replacement is needed, refer to the Netatmo support website for compatible cards and instructions.

5.2 Cleaning

Periodically clean the camera lens and floodlight cover with a soft, damp cloth to ensure optimal video quality and light output. Avoid using harsh chemicals or abrasive materials that could damage the device.

6. TROUBLESHOOTING

If you encounter issues with your Netatmo Smart Outdoor Security Camera, consider the following:

- **No Power:** Check the circuit breaker and ensure the camera is properly wired and receiving power.
- **Wi-Fi Connectivity:** Verify your home Wi-Fi network is active and the camera is within range. Try restarting your router.
- **App Issues:** Ensure your Netatmo Security app is updated to the latest version. Try force-closing and

reopening the app.

- **Poor Video Quality:** Clean the camera lens. Check your Wi-Fi signal strength.
- **False Alerts:** Adjust your Alert Zones and detection settings within the app to fine-tune sensitivity and object recognition.

For further assistance, please refer to the Netatmo support website or contact customer service.

7. SPECIFICATIONS

Feature	Detail
