Silonn Countertop Ice Maker Instruction Manual

Model: SLIM25B-US

1. INTRODUCTION

Thank you for choosing the Silonn Countertop Ice Maker. This portable and efficient appliance is designed to provide you with fresh ice quickly, producing 9 bullet-shaped ice cubes in just 6 minutes and up to 26 lbs of ice in 24 hours. Its compact design and self-cleaning function make it ideal for home use, parties, or even RVs. Please read this manual thoroughly before operation to ensure safe and optimal performance.

Key Features:

- Fast Ice Making:** Produces 9 bullet ice cubes in 6 minutes.
- High Capacity:** Up to 26 lbs of ice per 24 hours with a 1.2L water tank.
- Smart Operation:** Indicators for 'basket full' and 'add water'.
- Dual Ice Sizes:** Choose between small and large bullet ice.
- Compact & Portable:** Lightweight (13 lbs) with a flip-up handle for easy transport.
- Durable & Quiet:** Constructed from food-grade PP material, operating at less than 45 dB.
- Self-Cleaning Function:** Simplifies maintenance and ensures fresh-tasting ice.

2. SAFETY INFORMATION

Please read and follow all safety instructions to prevent injury or damage to the appliance.

- Always place the ice maker on a stable, level surface away from direct sunlight and heat sources.
- Ensure proper ventilation around the unit. Maintain at least 5 inches of clearance from walls or other objects.
- Do not immerse the appliance, power cord, or plug in water or other liquids.
- Unplug the ice maker before cleaning or when not in use for extended periods.
- Use only potable water in the water tank.
- Keep children and pets away from the appliance during operation.
- Do not operate the ice maker if the power cord or plug is damaged.
- Do not attempt to disassemble or repair the unit yourself. Contact qualified service personnel.

3. WHAT'S IN THE BOX

Upon unpacking, please ensure all items are present and in good condition:

- Silonn Countertop Ice Maker Unit
- Ice Basket
- Ice Scoop
- User Manual (this document)

4. SETUP

Follow these steps for initial setup:

1. **Unpack:** Carefully remove the ice maker from its packaging. Remove all packing materials, tape, and any protective film.
2. **Placement:** Place the unit on a flat, stable, and heat-resistant surface. Ensure there is adequate space around the unit for ventilation (at least 5 inches on all sides).
3. **Clean:** Before first use, clean the interior of the ice maker and the ice basket with a soft cloth and mild detergent. Rinse thoroughly with clean water.
4. **Add Water:** Open the top lid and remove the ice basket. Fill the water reservoir with potable water up to the MAX water level line. Do not overfill.
5. **Power On:** Plug the power cord into a grounded electrical outlet. The indicator lights on the control panel will illuminate.

Figure 2: The intuitive control panel of the Silonn Ice Maker, showing various indicator lights and buttons for easy operation.

5. OPERATING INSTRUCTIONS

Operating your Silonn Ice Maker is simple:

- Start Ice Making:** After adding water and plugging in the unit, press the **ON/OFF** button to start the ice making cycle. The 'Ice Making' indicator will light up.
- Select Ice Size:** Press the **SELECT** button to choose your desired ice cube size: **Small** or **Large**. The corresponding indicator light will illuminate.
- Ice Production:** The ice maker will begin producing ice. The first batch of 9 bullet ice cubes will be ready in approximately 6 minutes. Subsequent batches may be faster.
- Ice Full Indicator:** When the ice basket is full, the 'Ice Full' indicator light will turn on, and the ice making process will pause. Remove ice from the basket to resume production.
- Add Water Indicator:** If the water level in the reservoir is too low, the 'Fill Water' indicator light will turn on. Add more water to the reservoir to continue ice production.
- Stop Operation:** To stop the ice making process at any time, press the **ON/OFF** button.

FAST ICE MAKING

⌚ 6 MINS = 9 PCS ⚡ 26 LBS / DAY

2 ICE CUBE SIZES

Small

For juice/ coffee/ tea

Large

For whiskey/ food cooling/ ice pack

Figure 4: The two available ice cube sizes: Small (0.7" x 1.18") for juice/coffee/tea, and Large (0.86" x 1.27") for whiskey/food cooling/ice pack.

6. MAINTENANCE

Regular maintenance ensures the longevity and hygiene of your ice maker.

Self-Cleaning Function:

The Silonn Ice Maker features a convenient self-cleaning function:

- 1. Prepare:** Ensure the ice basket is empty. Fill the water reservoir with potable water up to the MAX line.
- 2. Activate:** In standby mode, press and hold the **SELECT** button for approximately 3 seconds until the 'Self-Cleaning' icon illuminates.
- 3. Start Cleaning:** Press the **ON/OFF** button to initiate the self-cleaning cycle. The unit will circulate water to clean its internal components.
- 4. Drain:** Once the cleaning cycle is complete, unplug the unit and drain the water from the reservoir. It is recommended to drain over a sink.
- 5. Rinse:** For thorough cleaning, especially after using cleaning solutions like vinegar (ensure to follow manufacturer's guidelines for cleaning solutions), run 1-2 cycles with fresh water and drain again before making ice for consumption.

Figure 5: The internal mechanism of the Silonn Ice Maker during its self-cleaning cycle, ensuring thorough sanitation.

General Cleaning:

- Wipe the exterior of the unit with a soft, damp cloth.
- Clean the ice basket and scoop regularly with warm, soapy water.
- Periodically check and clean the air vents on the side/back of the unit to ensure proper airflow and prevent overheating. Use a soft brush or vacuum cleaner to remove dust.

7. TROUBLESHOOTING

If you encounter issues with your Silonn Ice Maker, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Ice maker not producing ice.	No water in reservoir; 'Fill Water' indicator on.	Add potable water to the MAX line.
Ice basket is not completely full.	Ice accumulation blocking sensor/pusher.	Manually push ice towards the front of the basket to allow more space, or remove some ice.
Ice melts quickly.	Ice maker is not a freezer; ice will melt over time.	Transfer ice to a freezer for long-term storage, or allow melted ice to recycle into new ice.
Unit is noisy or fan not working.	Dust accumulation in fan/radiator.	Unplug and clean the air vents and radiator. If problem persists, contact support.
Mold or slime developing inside.	Exposure to room air; insufficient cleaning.	Utilize the self-cleaning function regularly. Consider using a mild vinegar solution for deep cleaning, followed by thorough rinsing.

If the problem persists after trying these solutions, please contact Silonn Customer Support.

8. SPECIFICATIONS

Feature	Detail
Model Number	SLIM25B-US
Product Dimensions (D x W x H)	11.93" x 11.1" x 9.8"
Weight	14.6 Pounds
Ice Production Capacity	26 lbs per 24 hours
Water Tank Capacity	1.2 Liters
Wattage	160 watts
Noise Level	Approximately 45 dB
Material (Interior)	Food-Grade PP
Material (Exterior)	High-quality ABS
