Keter Outdoor Storage Box Darwin User Manual

Model: 17211691 G

INTRODUCTION

The Keter Outdoor Storage Box Darwin is designed to provide a durable and elegant solution for outdoor storage. Constructed from innovative Evotech plastic, this storage box is weather-resistant and UV-protected, featuring a rustic wood-like texture. It is ideal for keeping outdoor spaces organized and clutter-free, protecting contents from sun and rain.

SAFETY INFORMATION

- Ensure the storage box is placed on a flat, stable surface to prevent tipping.
- Do not allow children to play inside the box to avoid entrapment.
- Do not exceed the maximum lid load capacity of 300 kg (661 lbs) when using the box as seating.
- Keep hands clear of the lid when closing to prevent pinching, especially with the hydraulic piston system.
- Store only appropriate items. Do not store hazardous materials or items that could be damaged by temperature fluctuations.

PACKAGE CONTENTS

Upon opening the package, verify that all components for the Keter Outdoor Storage Box Darwin are present and undamaged. The package should contain:

- Main body panels (sides, front, back, bottom)
- Lid assembly
- Hydraulic pistons (2)
- Assembly hardware (screws, connectors, etc.)
- Instruction manual (this document)

If any parts are missing or damaged, please contact Keter customer support before proceeding with assembly.

SETUP AND ASSEMBLY

The Keter Darwin storage box is designed for straightforward assembly. While some users find it easy, others may find the construction detailed. It is recommended to follow the included graphical assembly instructions carefully.

1. **Preparation:** Clear a spacious, flat area for assembly. Ensure all components are clean and free of debris.
2. **Panel Assembly:** Connect the side, front, and back panels to the base according to the visual guide in the separate assembly instructions. Ensure all connections are secure.
3. **Lid Attachment:** Carefully attach the lid to the main body.
4. **Piston Installation:** Install the hydraulic pistons as indicated in the instructions. These pistons facilitate smooth opening and closing of the lid.
5. **Final Checks:** Verify that all parts are securely fastened and the lid operates smoothly.

OPERATING INSTRUCTIONS

The Darwin storage box is designed for convenient and secure outdoor storage.

- **Opening the Lid:** Gently lift the lid. The hydraulic piston system will assist in smoothly opening and holding the lid in an open position.
- **Closing the Lid:** Gently pull the lid down. The hydraulic pistons will control the descent, ensuring a soft close. Ensure no objects or body parts are in the way of the closing lid.
- **Locking Mechanism:** The lid is designed to be lockable for enhanced security. A padlock (not included) can be inserted through the designated hole on the front of the box to secure the contents.
- **Storage Capacity:** The box offers a spacious 380-liter (100-gallon) capacity, suitable for storing outdoor cushions, garden tools, pool accessories, and other outdoor items.
- **Seating Functionality:** The robust lid can support a maximum load of 300 kg (661 lbs), allowing it to be used as additional outdoor seating.

MAINTENANCE

The Keter Outdoor Storage Box Darwin is designed to be largely maintenance-free due to its durable Evotech plastic construction, which is weather-resistant and UV-protected.

- **Cleaning:** To clean the box, simply wipe it down with a damp cloth and mild soap. Avoid using abrasive cleaners or harsh chemicals, as these can damage the material.
- **Inspection:** Periodically check the hydraulic pistons and all connections to ensure they remain secure and functional.
- **Winter Care:** While weather-resistant, clearing heavy snow or ice from the lid can prolong its lifespan and ensure smooth operation of the hydraulic pistons.

TROUBLESHOOTING

Most issues with the Keter Outdoor Storage Box Darwin can be resolved by reviewing the assembly instructions or performing simple checks.

- **Lid not closing properly:**
 - Ensure no items inside the box are obstructing the lid's path.
 - Check that the hydraulic pistons are correctly installed and not damaged.
 - Verify that the box is on a level surface.
- **Lid difficult to open/close:**

- Inspect the hydraulic pistons for any signs of wear or damage.
- Ensure all assembly screws are tightened appropriately, but not overtightened.

- **Water inside the box:**

- Confirm the lid is fully closed and sealed.
- Check for any cracks or damage to the box panels.
- Ensure the box is not placed in an area where water can pool around its base.

If issues persist, please refer to the contact information in the Support section.

SPECIFICATIONS

Brand	Keter
Model Number	17211691 G
Color	Grey
Material	Evotech Plastic (Polypropylene)
Capacity	380 Liters (approx. 100 Gallons)
