PetSnowy SNOW+

PetSnowy SNOW+ Self-Cleaning Automatic Cat Litter Box

User Instruction Manual

1. SETUP GUIDE

The PetSnowy SNOW+ automatic cat litter box comes pre-assembled for your convenience. Simply unbox the unit and place it in your desired location. Ensure it is placed on a flat, stable surface near a power outlet, avoiding soft or uneven surfaces. Leave at least 2 inches of space around the device for the safety sensor and avoid placing it against a wall. Do not place the device outdoors or in high heat or humid areas.

SNOW+ is suitable for cats older than 6 months and weighing above 3.3 lbs. For shy cats, leave the bonnet off and turn off SNOW+. You can also place the old, uncleaned litter box nearby, add used litter, sprinkle catnip in the walkway, and delay installing the fragrance box to help them adjust. It is recommended to place SNOW+ near the cat's original litter box to aid in the cat's adaptation.

The PetSnowy SNOW+ automatic cat litter box with included accessories and a cat using the entrance.

Modular Design, Effortless to Clean

Magnetic & Modular Design

The modular design of the PetSnowy SNOW+ allows for easy assembly and disassembly for cleaning.

Acclimation Tips for Cats

To help your cat adjust to the new litter box, consider these tips:

- Place the SNOW+ near your cat's current litter box.
- For shy cats, initially remove the top bonnet and keep the unit turned off.
- Add some used litter from their old box to the SNOW+ to make it smell familiar.
- Sprinkle catnip in the walkway to encourage exploration.
- Delay installing the fragrance box until your cat is comfortable.

2. OPERATING INSTRUCTIONS

The PetSnowy SNOW+ is designed for effortless operation, offering both automatic and manual control options.

Automatic Cleaning Cycle

The unit automatically initiates a cleaning cycle a few minutes after your cat exits the litter box. This ensures a consistently clean environment for your pet.

App Control

Download the PetSnowy app to control and monitor the litter box from your smartphone. The app provides features such as:

- **Remote Control:** Manage cleaning cycles and settings from anywhere.
- **Smart Settings:** Customize cleaning schedules and deodorizing options.
- **Toilet Record:** Track your cat's usage patterns for health monitoring.
- **Real-time Monitoring:** Receive notifications about your cat's activities.

The PetSnowy app allows for comprehensive control and monitoring of the litter box's functions.

Manual Controls

The unit also features physical buttons for quick actions:

- **Clean Button:** Initiates a manual cleaning cycle.
- **Empty Litter Button:** Activates a cycle to empty all litter into the waste drawer for full litter changes.
- **Reset Button:** Resets the litter weight sensor after adding new litter.

3. MAINTENANCE

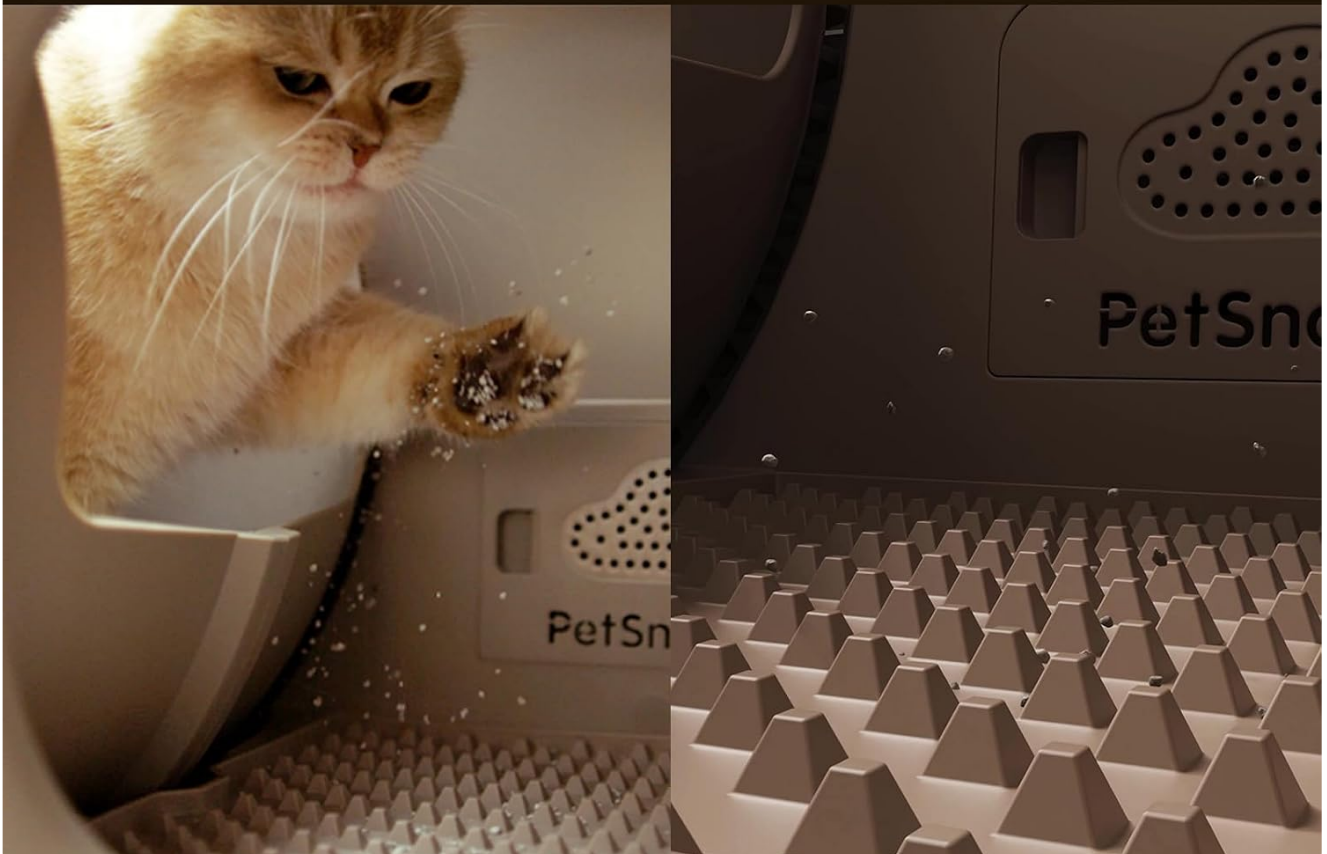

Regular maintenance ensures optimal performance and hygiene of your PetSnowy SNOW+ litter box.

Odor Control System

The integrated TiO₂ Photocatalyst system neutralizes unpleasant smells at the source. The Robertet Fragrance Box further enhances freshness. Ensure these components are clean and replaced as needed.

Keeps Your Floors **Spotless**

Built-In Litter-Control Walkway, No Add-Ons

The TiO₂ Photocatalyst system and Robertet Fragrance Box work together for superior odor control.

Waste Disposal

The automatic waste sealing feature collects and seals waste in disposable liners. Simply remove the sealed bag from the waste drawer when full and replace it with a new one. This minimizes direct contact with waste.

Auto-Sealing Waste Bag

Quick, clean, and effortless

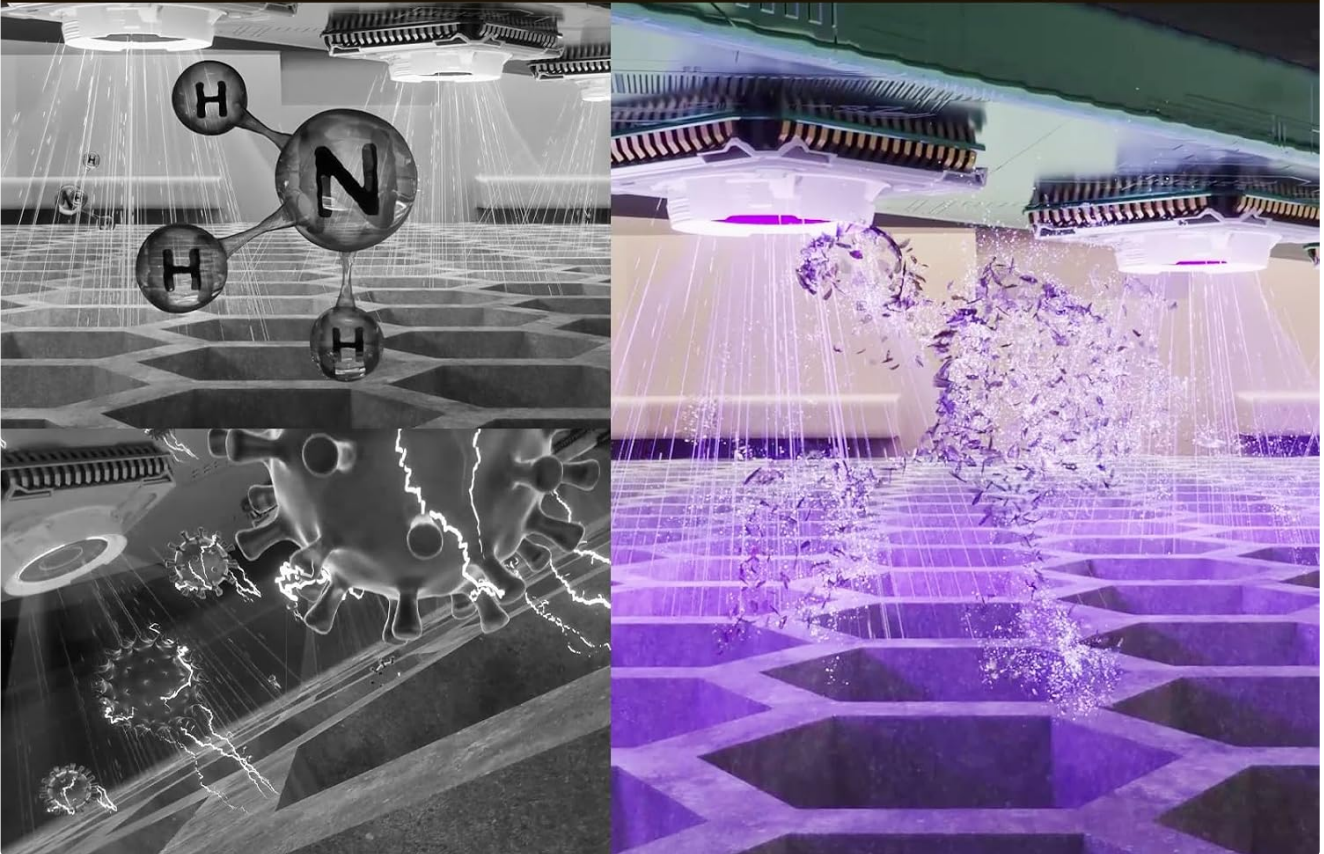

The auto-sealing waste bag system ensures quick, clean, and effortless disposal of cat waste.

Litter Tracking Reduction

The exclusive Litter-Control Walkway features a built-in mat that traps stray litter, preventing it from scattering around your home. Regularly clean the mat to maintain its effectiveness.

Eliminates Odors at the **Source**

TiO₂ Odor Control System

The built-in Litter-Control Walkway helps to reduce litter tracking outside the box.

Modular Design for Easy Cleaning

The modular design allows for quick disassembly of components for thorough cleaning. This simplifies routine maintenance and ensures a hygienic environment for your cat.

Modular Design, Effortless to Clean

Magnetic & Modular Design

The modular design allows for easy disassembly and cleaning of the litter box components.

4. TROUBLESHOOTING

This section addresses common issues you might encounter with your PetSnowy SNOW+ litter box.

Common Issues & Solutions

- **Unit not cleaning:** Ensure the top bonnet is securely in place and the unit is plugged in. Check for any obstructions in the globe or waste drawer. Clean the safety sensors regularly.
- **Odor persists:** Verify the TiO₂ Photocatalyst system is active and the Robertet Fragrance Box is installed correctly and not depleted. Ensure the waste drawer is sealed properly.
- **Excessive litter tracking:** Clean the Litter-Control Walkway mat frequently. Ensure the litter level is not overfilled.

- **Cat not using the box:** Refer to the acclimation tips in the Setup Guide. Ensure the box is placed in a quiet, accessible location.
- **Weight sensor issues:** If the unit incorrectly indicates a full waste drawer or improper litter level, clean the infrared sensors located underneath the drum in the waste compartment. Press the reset button after adding new litter.
