## SHOPBUY vivo Y35

# User Manual: Smart Fitness Watch

Model: vivo Y35

## INTRODUCTION

Image: The SHOPBUY Smart Fitness Watch (Model: vivo Y35) featuring a sleek black design and a vibrant display, depicted with water splashes to highlight its durability.

Thank you for choosing the SHOPBUY Smart Fitness Watch. This manual provides essential information for setting up, operating, and maintaining your device. Please read it carefully to ensure optimal performance and longevity of your watch.

This smartwatch is designed to be a daily companion, offering features such as activity tracking, heart rate monitoring, sleep analysis, and smartphone notifications. Its reflective always-on display ensures readability in various lighting conditions.

## SETUP GUIDE

## 1. Package Contents

Ensure all items are present in the package:

- 1 x Smart Watch (Model: vivo Y35)

## 2. Charging the Device

The ShopsYes watch features a direct USB charging port. No separate charging cable is required.

1. Locate the USB charging port on the watch. This is typically found by detaching one side of the wristband.
2. Carefully remove the wristband from the side with the USB connector.
3. Insert the exposed USB connector directly into a standard USB port on a mobile charger, laptop, or power bank.
4. The watch display will indicate charging status.

Image: USB direct plug for easy charging. The watch can be charged by plugging its integrated USB connector into a computer, mobile phone charger, or power bank.

Image: Step-by-step guide for charging the smartwatch. This shows detaching the strap, revealing the USB port, and plugging it into a power source.

### 3. App Installation and Pairing

To unlock full functionality and synchronize data, install the Fitpro application on your smartphone.

1. Download the **Fitpro** application from your device's app store (Google Play Store for Android, Apple App Store for iOS).
2. Ensure your smartphone's **Bluetooth** and **Location Services** are turned ON.
3. Open the Fitpro application.
4. Follow the on-screen instructions within the app to search for and connect to your Smart Fitness Watch. The watch's time will automatically synchronize once connected.

## OPERATING INSTRUCTIONS

### 1. Basic Navigation

The watch features a color touch screen for navigation. Swipe left/right or up/down (depending on watch face) to access different functions and menus. Tap to select options.

Image: Smartwatch being used in a typical office or home setting, demonstrating its integration into daily activities.

## 2. Activity Tracking

The watch automatically tracks your daily activity:

- **Steps:** Counts the number of steps taken throughout the day.
- **Distance:** Estimates the distance covered based on your steps.
- **Calories Burned:** Calculates calories expended during activity.
- **Active Minutes:** Records periods of moderate to vigorous activity.

You can view your daily activity summary directly on the watch's OLED display or access detailed statistics within the Fitpro application.

Image: All-Day Activity Tracking. The smartwatch monitors steps, calories burned, and distance, providing a comprehensive overview of daily physical activity.

### 3. Heart Rate and Sleep Monitoring

- **Heart Rate Sensor:** The watch includes a heart rate sensor to monitor your heart rate. Real-time data can be viewed on the watch and synchronized to the Fitpro app for historical tracking.
- **Sleep Monitor:** The watch tracks your sleep patterns, including duration, deep sleep, light sleep phases, and awake times. This data helps in understanding and improving sleep quality.

Image: Blood Pressure Monitoring. The bracelet displays real-time blood pressure data directly, which can also be synced to the phone application.

## 4. Notifications

Once paired with your smartphone, the watch can display various notifications directly on your wrist:

- Incoming Call Alerts (Receive/Reject)
- Calendar Alerts
- SMS Messages (full text readable)
- Social Media Notifications (Facebook, WhatsApp, LinkedIn, Instagram, Twitter, Snap, Slack, etc.)

This feature ensures you stay informed without needing to constantly check your phone.

## MAINTENANCE

---

### 1. Cleaning

To keep your watch clean and in good condition:

- Wipe the screen and strap regularly with a soft, damp cloth.
- Avoid using harsh chemicals or abrasive cleaners, as these can damage the watch's finish.
- Ensure the charging contacts are clean and dry before charging.

### 2. Water Resistance

The Smart Fitness Watch has an IP67 waterproof rating.

- **IP67 rating** means the device is protected from dust ingress and can withstand immersion in water up to 1 meter for up to 30 minutes.
- It is suitable for daily use, such as hand washing or light rain.
- **Avoid:** Hot water, saunas, diving, or prolonged immersion in water. Do not press buttons underwater.

Image: IP67 Waterproof Level. The smartwatch is shown in water, highlighting its resistance to dust and temporary immersion.

## TROUBLESHOOTING

---

## Common Issues and Solutions:

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to a USB power source for at least 30 minutes.
- **Cannot pair with phone:**
  - Make sure Bluetooth is enabled on your phone.
  - Ensure Location Services are enabled on your phone.
  - Restart both the watch and your phone.
  - Ensure the Fitpro app is installed and running.
  - Try unpairing and re-pairing the device through the Fitpro app.
- **Time is incorrect:** The watch time synchronizes with the Fitpro application. Ensure the watch is successfully paired and connected to the app.
- **Notifications not appearing:**
  - Check notification permissions for the Fitpro app in your phone's settings.
  - Ensure the watch is connected via Bluetooth.
  - Verify that notification alerts are enabled within the Fitpro app for specific applications (e.g., WhatsApp, SMS).
- **Activity tracking inaccurate:** Ensure the watch is worn snugly on your wrist. Calibrate steps/distance within the Fitpro app if available.
