Sharper Image® Powerboost® Pro+ Hot & Cold Deep Tissue Massage Gun

Instruction Manual

1. PRODUCT OVERVIEW

The Sharper Image® Powerboost® Pro+ Compact is a versatile deep tissue massage gun designed for muscle recovery and pain relief. It features dual-temperature therapy, a quiet motor, and multiple attachments for a personalized massage experience.

- **Dual-Temperature Therapy:** Seamlessly switch between 38°F cooling and 115°F heating.
- **Whisper-Quiet Motor:** Industrial-grade brushless motor for discreet use.
- **4 Custom Attachments:** Tailored relief for various muscle groups and needs.
- **Portable & Lightweight:** Compact design with a travel case for on-the-go use.
- **Long-Lasting Battery:** Up to 5 hours of performance on a single charge.

2. SAFETY INFORMATION

Please read all instructions and warnings prior to use. Keep this information for future reference.

- Do not submerge the device in water.
- Do not use detergents or soap when cleaning the device.
- Allow to dry fully before plugging back in.
- Do not use if causing pain or discomfort.

- Ensure use on firm surfaces.
- Keep out of reach of children.
- Statements regarding dietary supplements have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition.

3. SETUP

3.1 Unboxing and Initial Charge

Upon opening the package, ensure all components are present:

- Power Percussion Deep Tissue Massager
- Interchangeable massage nodes (x4)
- Carrying case
- Charging Base
- USB-C Charging Cable

4. OPERATING INSTRUCTIONS

4.1 Powering On/Off and Speed Adjustment

To power on the device, press and hold the power button located on the digital dial. The LED display will illuminate, showing the current speed setting. Rotate the digital dial to cycle through the 6 intensity levels. To power off, press and hold the power button again.

+ DIGITAL DIAL

INSTANT HEAT OR COLD

4.2 Dual-Temperature Therapy

The specialized Hot + Cold attachment allows for dual-temperature therapy. Attach this head to the massager. Rotate the digital dial to select either the cooling (38°F) or heating (115°F) function. The device will quickly reach the desired temperature.

CUTTING EDGE TEMPERATURE CONTROL

- + SEAMLESSLY ALTERNATE BETWEEN CALMING HEAT (115°F) & REJUVENATING COLD (38°F)
- + USER-FRIENDLY DIAL CONTROL & BRIGHT LED DISPLAY

4.3 Application Areas

Use the massage gun on various muscle groups to alleviate soreness and promote recovery. Start with a low intensity and gradually increase as comfortable. Avoid using on bones, joints, or sensitive areas. Refer to the specific attachments for targeted use:

- **Round Head:** General full-body massage, large muscle groups like arms, back, hips, thighs, calves.
- **Flat Head:** Suitable for all parts of the body, especially for relaxation and shaping.
- **Fork Head:** Ideal for the spine, neck, and Achilles tendon.
- **Hot + Cold Head:** For targeted temperature therapy on specific sore areas.

5. MAINTENANCE

5.1 Cleaning

To clean the massage gun and its attachments, wipe them with a damp cloth. Do not submerge the device in water or use harsh detergents or soaps, as this may damage the unit.

5.2 Storage

Store the massage gun and all its accessories in the provided carrying case when not in use. This protects the device from dust and damage, and keeps all components organized for easy access and travel.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not turn on.	Low battery.	Charge the device fully using the provided USB-C cable and charging base.
Device turns off automatically after a few seconds.	Dirty contacts on the hot/cold head or unit.	Inspect and clean the contacts between the hot/cold head and the main unit. Ensure they are free of dirt or debris.

Problem	Possible Cause	Solution
Attachments are difficult to install/remove.	Improper alignment or debris.	Ensure the attachment is aligned correctly. Clean any debris from the attachment base and the massager's opening.
Temperature therapy not working effectively.	Incorrect attachment or setting.	Ensure the specific Hot + Cold attachment is used and the digital dial is set to the desired temperature mode (hot or cold).
