## MAINTENANCE

---

To ensure the longevity and appearance of your SUPERJARE desk, follow these simple maintenance guidelines:

- **Cleaning the Surface:** Wipe the desktop surface with a damp cloth to remove dust and spills. Avoid using harsh chemicals or abrasive cleaners, as these may damage the finish.
- **Fabric Drawers:** For the fabric drawers, spot clean with a mild detergent and a damp cloth if necessary. Allow to air dry completely. Do not machine wash.
- **Frame Care:** Periodically check and tighten any loose screws on the steel frame to maintain structural integrity.
- **Adjusting Feet:** Re-adjust the leveling feet as needed to ensure the desk remains stable and level.

## TROUBLESHOOTING

---

- **Wobbly Desk:** If the desk feels unstable, ensure all screws are tightened. Adjust the leveling feet on each leg until the desk is firm and level on the floor.
- **Visible Holes on Desktop:** In the long desk configuration, there may be visible holes on the desktop surface that are used for the L-shaped setup. These holes are typically covered when the desk is used in the L-shape or when items like printers or monitors are placed over them. If not covered, these are part of the design for versatility.
- **Power Outlets Not Working:** Check if the desk's main power cord is securely plugged into a functional wall outlet. Ensure no circuit breakers have tripped.
- **Drawers Not Sliding Smoothly:** Ensure the fabric drawers are correctly seated on their angle iron supports. Check for any obstructions within the drawer slots.
