## 1. Product Overview

The URBN 10000 mAh Nano Power Bank (Model UPR108) is a compact and portable charging solution designed to provide power to your mobile devices on the go. Featuring a 10000 mAh Lithium-ion battery, 20W fast charging capabilities, and dual output ports, this power bank ensures your devices remain powered throughout the day. Its small size makes it convenient for travel and daily use.

**Video Description:** This video demonstrates the compact design of the URBN 10000 mAh Nano Power Bank, highlighting its 20W fast charging, dual output ports, and USB-C compatibility. It shows the power bank being used to charge a smartphone, emphasizing its portability and ability to charge multiple devices simultaneously.

## 2. Package Contents

Please check the box for the following items:

- 1 x URBN 10000 mAh Nano Power Bank (Main Unit)
- 1 x USB Type-C Cable
- 1 x User Manual
- 1 x Warranty Card

## 3. Key Features

- **10000 mAh Capacity:** Provides multiple charges for smartphones and other devices.
- **20W Fast Charging:** Supports fast charging for compatible devices, reducing charging time.
- **Dual Output:** Charge two devices simultaneously using the available output ports.
- **Type-C PD (Input & Output):** Versatile Type-C port for both charging the power bank and charging

devices with Power Delivery.

- **Micro USB Input:** Alternative input port for charging the power bank.
- **Compact & Portable:** Smallest power bank design for easy carrying in pockets or bags.
- **12-Layer Circuit Protection:** Advanced safety features including overvoltage, overcurrent, short circuit, and temperature protection.
- **Smart Adaptive IC:** Ensures optimal charging for various devices.

The advertisement features a black background with white and blue text and graphics. At the top left, '10,000mAh' is written in large blue font, with 'NANO SIZE' in white below it. To the right, 'BLACK EDITION' is written vertically in white. In the center, a white line-art illustration of the power bank shows two internal cylindrical cells with blue lightning bolts. The 'urbn' logo is at the bottom of the power bank. To the left, a white line-art illustration of an electric vehicle chassis with a battery pack is shown, with an arrow pointing from the battery pack to the power bank. Below the chassis is a 'MADE IN INDIA' logo with the Indian flag colors. At the bottom right, a blue banner contains a white lightning bolt icon and the text '20 WATT QC+PD'.

**Image Description:** An illustration highlighting the 10,000mAh capacity, nano size, and premium high-density Lithium-ion cells used in the URBN power bank, along with 20 Watt QC+PD charging capabilities.

**Image Description:** A visual comparison showing the URBN power bank offers 250% faster speed, 400% longer battery lifespan, and is 50% more compact than standard power banks, emphasizing its high power and nano size.

#### 4. Setup and Charging the Power Bank

Before using your URBN Nano Power Bank for the first time, it is recommended to fully charge it.

- 1. Connect to Power Source:** Use the provided USB Type-C cable or a Micro USB cable to connect the power bank's input port (Type-C or Micro USB) to a compatible wall adapter (20W adapter recommended for fastest charging) or a computer's USB port.
- 2. Charging Indication:** The LED indicators on the power bank will illuminate to show the charging status. They will typically blink while charging and become solid when fully charged.
- 3. Full Charge:** Allow approximately 2.5 hours for a full charge using a 20W adapter, or 5+ hours with a standard charger.

**Note:** For optimal performance, ensure your charging device, cable, and adapter are 20W compatible for fast charging.

**CHARGE**

Standard: 20% → 50%  
**2.5x**  
 urbn: 20% → 50%

**RECHARGE**

**50% Faster Two Way Fast Charging**

\*Charging Device, Cable And Adapter Need To Be 20W Compatible

**Image Description:** This image illustrates the charging and recharging capabilities of the URBN power bank, showing it can charge a device 2.5 times faster than standard and can be recharged in 2.5 hours with URBN charging (5+ hours standard), highlighting 50% faster two-way fast charging.

## 5. Using the Power Bank to Charge Devices

The URBN Nano Power Bank features dual output ports (USB Type-A and USB Type-C PD) to charge your devices.

- 1. Connect Your Device:** Use a compatible charging cable (such as the included Type-C cable) to connect your device to either the USB Type-A output port or the USB Type-C PD output port on the power bank.
- 2. Initiate Charging:** The power bank will automatically begin charging your device. The LED indicators will show the remaining battery level of the power bank.
- 3. Dual Charging:** You can charge two devices simultaneously by connecting one to the USB Type-A port and another to the USB Type-C PD port.
- 4. Fast Charging (PD):** The Type-C PD port supports Power Delivery, allowing compatible devices to charge from 0% to 50% in approximately 30 minutes.

**Note:** Ensure your device and cable support fast charging protocols (QC 3.0, PD 3.0, PPS) for optimal charging speeds.

One Plus

## Universal Compatibility

**Image Description:** This image details the universal compatibility of the URBN power bank, listing various fast charging protocols (PD 3.0/PPS, AFC, QC 3.0, Super Charge, Super Fast, PD 3.0 18W Max) and compatible device brands like Apple, Pixel, Samsung, Nokia, HTC, MI, Oppo, Realme, Reno, Vivo, Huawei, and One Plus.

## 6. Safety Information and Precautions

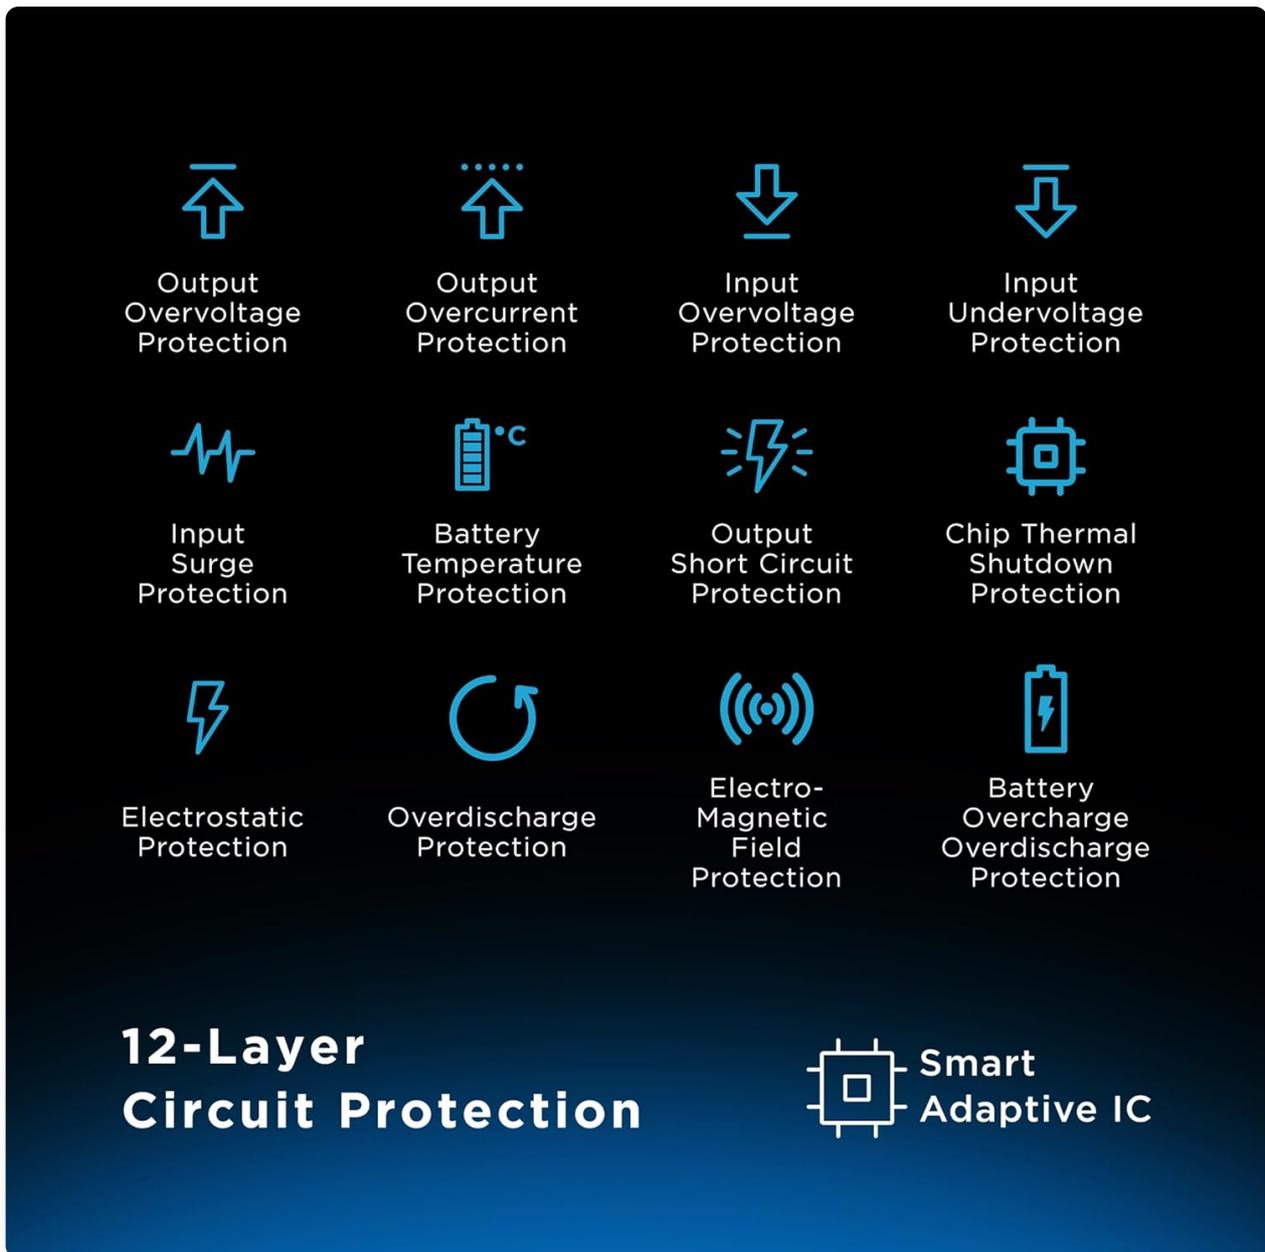

To ensure safe operation and prolong the life of your power bank, please observe the following:

- Do not expose the power bank to extreme temperatures (hot or cold), direct sunlight, or high humidity.
- Avoid dropping, disassembling, or attempting to repair the power bank yourself.
- Keep away from water and flammable materials.
- Do not use if the power bank is damaged or swollen.
- Keep out of reach of children.
- Dispose of the power bank responsibly according to local regulations.

The URBN Nano Power Bank is equipped with **12-Layer Circuit Protection** for enhanced safety:

- Output Overvoltage Protection
- Output Overcurrent Protection
- Input Overvoltage Protection

- Input Undervoltage Protection
- Input Surge Protection
- Battery Temperature Protection
- Output Short Circuit Protection
- Chip Thermal Shutdown Protection
- Electrostatic Protection
- Overdischarge Protection
- Electro-Magnetic Field Protection
- Battery Overcharge Overdischarge Protection

**Image Description:** An infographic detailing the 12-layer circuit protection system of the URBN power bank, including various protections like overvoltage, overcurrent, temperature, and short circuit, along with a Smart Adaptive IC.

## 7. Troubleshooting

If you encounter issues with your URBN Nano Power Bank, refer to the following common solutions:

- **Power Bank Not Charging:**

- Ensure the charging cable is securely connected to both the power bank and the power adapter.
- Try a different charging cable or adapter.
- Verify the power adapter is functioning correctly.

- **Device Not Charging from Power Bank:**

- Check if the power bank has sufficient charge.
- Ensure the charging cable connecting your device to the power bank is functional and securely connected.
- Try a different output port on the power bank.
- Confirm your device's charging port is clean and undamaged.

- **Slow Charging:**

- Ensure both your device and the charging cable support fast charging protocols (e.g., PD, QC).
- If charging the power bank, use a 20W compatible wall adapter.

- **LED Indicators Not Working:**

- The power bank might be completely discharged. Charge it for a while to see if the indicators light up.
- If the issue persists, contact customer support.

## 8. Product Specifications

Feature	Detail
Model Number	UPR108
Battery Capacity	10000 mAh (Lithium Ion)
Input (Micro USB)	Supported
Input (Type-C PD)	Supported (up to 20W)
Output (USB Type-A)	Supported (up to 22.5W)
Output (Type-C PD)	Supported (up to 20W)
Product Dimensions (LxWxH)	10.9 x 15.9 x 3.8 cm
Item Weight	223 g
Special Features	Fast Charging, Lightweight, Over Charging Protection, Pocket Size, Slim
Manufacturer	ACETRON TECH VENTURES PVT LTD
Country of Origin	India

<b>2 TIMES</b>	<b>1.5 TIMES</b>	<b>1.3 TIMES</b>	<b>1.5 TIMES</b>
iPhone 13 Pro	Samsung S20 FE	One Plus 10R	iPad Mini

**Charge Capacity**

**Image Description:** This image displays the physical dimensions of the URBN power bank (8.7cm height, 5.3cm width, 3.0cm depth) and provides examples of its charge capacity for various devices, such as 2 times for iPhone 13 Pro, 1.5 times for Samsung S20 FE, 1.3 times for One Plus 10R, and 1.5 times for iPad Mini.

### 9. Warranty and Support

The URBN 10000 mAh Nano Power Bank comes with a **1-Year Replacement Warranty** from the date of purchase. Please retain your purchase receipt and the warranty card for any warranty claims. For technical support, warranty claims, or any other inquiries, please contact URBN customer service through the details provided on your warranty card or the official URBN website.

We've got you covered!

# 1 YEAR REPLACEMENT WARRANTY
