UPBRIGHT UpBright 9V AC/DC Adapter

UpBright 9V AC/DC Adapter User Manual

Model: UpBright 9V AC/DC Adapter

1. PRODUCT OVERVIEW

The UpBright 9V AC/DC Adapter is a global power supply designed to provide reliable and stable power to compatible electronic devices, particularly various TopTech Audio multimedia speakers. It features a wide input voltage range (100-240VAC) for worldwide use and incorporates essential safety protections.

- **Global Compatibility:** Supports 100-240VAC 50/60Hz input for international use.
- **Safety Protections:** Equipped with OVP (Over Voltage Output Protection), OCP (Over Current Output Protection), and SCP (Short Circuit Output Protection) to ensure device safety.
- **Reliable Performance:** Tested units are in great working condition, providing consistent 9V DC output.

2. PRODUCT CONTENTS

The package includes the following item:

- 1 x UpBright 9V AC/DC Adapter

3. COMPATIBILITY

This UpBright 9V AC/DC Adapter is compatible with a range of TopTech Audio multimedia speakers and similar devices requiring a 9V DC power supply. Specific compatible models include:

- TopTech Audio Model: BLADE-12 (BLADE12) Fully Amplified Multimedia Rechargeable Speaker (4000 Watts Peak Power, 12 Inch Woofer)
- TopTech Audio Model: ROCK-10 (ROCK10) Fully Amplified Portable Speaker (2000 Watts Peak Power, 10 Inch Speaker)
- TopTech Audio Model: FLASH-115 (FLASH115) Fully Amplified Multimedia Rechargeable Speaker (5000 Watts Peak Power, 15 Inch Woofer)

4. SETUP AND CONNECTION

Follow these simple steps to connect your UpBright AC/DC Adapter to your compatible device:

1. **Verify Compatibility:** Ensure your device requires a 9V DC input and has a compatible barrel connector. Refer to your device's manual for power requirements.
2. **Connect to Device:** Insert the barrel connector of the UpBright adapter firmly into the DC input port of your TopTech Audio speaker or other compatible device.
3. **Plug into Power Outlet:** Plug the AC prongs of the adapter into a standard wall power outlet (100-240VAC, 50/60Hz).
4. **Power On Device:** Once connected, you can power on your device. The adapter will supply the necessary power or charge the internal battery if applicable.

5. OPERATING INSTRUCTIONS

The UpBright 9V AC/DC Adapter operates automatically once connected. It converts the AC wall power to the required 9V DC for your device. No user interaction is required for its operation beyond proper connection.

- Ensure the adapter is securely plugged into both the wall outlet and your device.
- The adapter is designed for continuous use within its specified voltage and current limits.

6. MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your UpBright AC/DC Adapter, follow these maintenance guidelines:

- **Keep Dry:** Avoid exposing the adapter to water or excessive moisture.
- **Clean Gently:** Use a dry, soft cloth to clean the adapter. Do not use liquid cleaners or aerosols.
- **Avoid Physical Damage:** Do not drop, bend, or crush the adapter or its cable. Avoid placing heavy objects on the cable.
- **Proper Storage:** When not in use, store the adapter in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Unplug When Not in Use:** For extended periods of non-use, it is advisable to unplug the adapter from both the wall outlet and the device.

7. TROUBLESHOOTING

If you encounter issues with your UpBright AC/DC Adapter, consider the following:

- **No Power to Device:**
 - Ensure the adapter is securely plugged into both the wall outlet and the device.
 - Try plugging the adapter into a different wall outlet to rule out a faulty outlet.
 - Check the adapter cable for any visible damage (frays, cuts). If damaged, discontinue use.
- **Device Not Charging (for rechargeable devices):**
 - **Important Note on Batteries:** Rechargeable batteries have a limited lifespan, typically 1 to 3 years. An old or dead battery will not accept a charge, even with a functional charger. This is not an issue with the charger itself.
 - If you suspect the battery is the issue, a voltmeter can be used to test if the charger is outputting the correct voltage (9V DC).
 - Ensure the device's charging port is clean and free of debris.
- **Adapter Overheating:**
 - A slight warmth is normal during operation. However, if the adapter becomes excessively hot, unplug it immediately.
 - Ensure the adapter is used in a well-ventilated area and not covered.
 - Verify that the connected device's power requirements do not exceed the adapter's specifications.

8. SPECIFICATIONS

Feature	Specification
Brand	UPBRIGHT
Input Voltage	100-240VAC, 50/60Hz
Output Voltage	9V DC
Connectivity Technology	DC Barrel
Special Feature	Short Circuit Protection (SCP), Over Current Protection (OCP), Over Voltage Protection (OVP)
Product Dimensions	4 x 3 x 2 inches (approximate)
Item Weight	3 ounces (approximate)
Manufacturer	UpBright

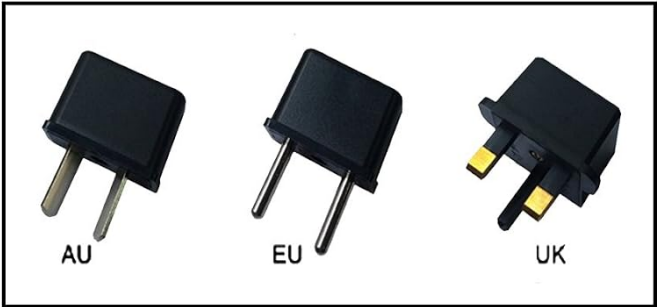

9. WARRANTY AND SUPPORT

UpBright products are designed for reliability and come with a comprehensive warranty:

- **Refund Policy:** UpBright offers a 30-day refund period from the date of purchase.
- **Exchange Policy:** The product is covered by a 24-month exchange warranty.

For warranty claims, technical support, or any inquiries, please refer to the contact information provided with your purchase or visit the official UpBright website. Ensure you retain your proof of purchase for warranty validation.
