

Wipro FMG206

Wipro Elato FMG206 1000 Watt Mixer Grinder User Manual

Model: FMG206 | Brand: Wipro

INTRODUCTION

Thank you for choosing the Wipro Elato FMG206 1000 Watt Mixer Grinder. This appliance is designed for efficient and versatile kitchen tasks, including grinding, blending, and juicing. With its robust 1000W copper motor and multiple stainless steel jars, it provides powerful performance for various culinary needs. Please read this manual thoroughly before first use to ensure safe and optimal operation, and retain it for future reference.

IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of fire, electric shock, or injury, always follow these basic safety precautions:

- Read all instructions carefully before operating the appliance.
- Ensure the power supply voltage matches the rating indicated on the appliance.
- Do not immerse the motor unit in water or any other liquid. Clean with a damp cloth only.
- Always unplug the appliance from the power outlet when not in use, before assembling or disassembling parts, and before cleaning.
- Keep hands and utensils away from moving blades during operation to prevent injury.
- Never operate the mixer grinder with wet hands.
- Ensure the jar lid is securely locked in place before starting the motor.

- Do not overload the jars. Follow recommended capacities to prevent motor strain and spillage.
- This appliance is for household use only. Do not use outdoors.
- Keep out of reach of children. Supervise children to ensure they do not play with the appliance.
- Do not use attachments not recommended or sold by the manufacturer.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons to avoid a hazard.

Components List:

1. Main Unit
2. Base Plate
3. Speed / Pulse Knob
4. Rubber Feet
5. Liquidizing Jar (1500ml)
6. Liquidizing Jar Lid
7. Jar Handle
8. Dry / Wet Grinding Jar (1200ml)
9. Dry / Wet Grinding Jar Lid
10. Jar Base
11. Chutney Jar (500ml)
12. Chutney Jar Lid
13. Blending Jar (Juicer Jar) (1.2L)
14. Blending Jar Lid
15. Cap for Blending Jar Lid
16. Fruit Filter (Sieve)
17. Liquidizing Blade
18. Dry / Wet Grinding Blade
19. Chutney Blade
20. Blending Blade

SETUP AND ASSEMBLY

Before first use, clean all removable parts as described in the "Maintenance and Cleaning" section. Ensure the appliance is placed on a stable, flat, and dry surface.

1. **Unpack:** Carefully remove all components from the packaging.
2. **Inspect:** Check for any damage. Do not use if any part is damaged.
3. **Place the Main Unit:** Position the motor unit on a clean, dry, and stable countertop. Ensure the rubber feet are firmly gripping the surface.
4. **Attach Jar:** Select the appropriate jar for your task. Place the jar onto the main unit, aligning the grooves on the jar base with the locking mechanism on the motor unit. Turn the jar clockwise until it locks securely into place. You should hear a click.
5. **Secure Lid:** Place the lid firmly onto the jar. Ensure it is properly seated and locked if applicable (some lids have a locking mechanism).
6. **Connect Power:** Plug the power cord into a grounded electrical outlet.

OPERATING INSTRUCTIONS

Follow these steps for effective and safe operation of your mixer grinder:

Image: A step-by-step visual guide on operating the Wipro Elato Mixer Grinder, from assembly to enjoying the blended output.

1. **Prepare Ingredients:** Cut ingredients into small pieces to facilitate grinding and blending. Do not overfill the jar; ensure ingredients are below the maximum fill line.
2. **Select Jar:**
 - **Liquidizing Jar (1500ml):** Ideal for milkshakes, smoothies, purees, and wet grinding tasks like idli/dosa batter.
 - **Dry / Wet Grinding Jar (1200ml):** Suitable for grinding dry spices, coffee beans, rice, and also for small quantities of wet grinding. Features stone pounding blades for masala.
 - **Chutney Jar (500ml):** Designed for grinding small quantities of chutneys, pastes, and spices.

- **Juicer Jar (1.2L) with Fruit Filter:** For extracting fresh fruit and vegetable juices, separating pulp and seeds.

3. **Load Ingredients:** Place your prepared ingredients into the chosen jar. For wet grinding, add sufficient liquid.

4. **Secure Jar and Lid:** Attach the jar to the motor unit and secure the lid firmly.

5. **Operate:** Turn the speed/pulse knob to the desired setting.

- **Pulse:** For short bursts of power, useful for coarse grinding or mixing.

- **Speed Settings (1-3):** Gradually increase speed for finer grinding or blending. Start with lower speeds and increase as needed.

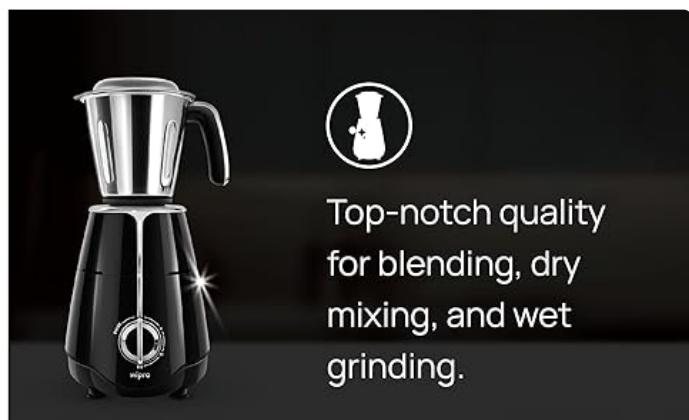

Do not operate continuously for more than 3-5 minutes. Allow a cooling period of 2-3 minutes between cycles to prevent motor overheating.

6. **Monitor:** Observe the consistency of the ingredients. If needed, stop the appliance, open the lid, stir the contents with a spatula (ensure blades have stopped completely), and resume.

7. **Finish:** Once the desired consistency is achieved, turn the knob to 'OFF' and unplug the appliance. Carefully remove the jar and pour out the contents.

Effortless cleaning with a smooth design.

Top-notch quality for blending, dry mixing, and wet grinding.

Stay worry-free with overload protection and spacious jar for your mixer grinder.

Easy-to-use controls for your utmost convenience.

MAINTENANCE AND CLEANING

Regular cleaning and maintenance will prolong the life of your appliance and ensure hygienic operation.

1. **Unplug:** Always ensure the mixer grinder is unplugged from the power outlet before cleaning.

2. **Clean Jars and Lids:**

- Wash jars, lids, and blades immediately after use to prevent food from drying and sticking.
- Use warm soapy water and a soft brush or sponge. Be cautious when cleaning blades as they are sharp.
- Rinse thoroughly under running water.

- Dry all parts completely before storing to prevent rust and odor.
- *Note: Jars and lids are NOT dishwasher safe.*

3. Clean Main Unit:

- Wipe the motor unit with a damp cloth. Do not use abrasive cleaners or immerse it in water.
- Ensure no liquid enters the motor housing.
- Wipe dry with a soft, clean cloth.

4. **Storage:** Store the mixer grinder and its accessories in a clean, dry place, away from direct sunlight and heat.

5. **Motor Maintenance:** The motor is designed for long-term performance. Periodic lubrication is not required by the user. If you notice unusual noises or performance issues, refer to the troubleshooting section or contact customer support.

TROUBLESHOOTING

If you encounter any issues with your Wipro Elato FMG206 Mixer Grinder, refer to the table below for common problems and their solutions.

Problem	Possible Cause	Solution
Appliance does not start.	Not plugged in; Jar not properly locked; Overload protector tripped.	Ensure plug is securely in outlet; Re-seat jar and turn clockwise until locked; Unplug, remove some ingredients, wait 2-3 minutes for motor to cool, then restart.
Burning smell from motor.	New motor smell (initial uses); Overloading; Continuous operation for too long.	This is normal for first few uses. If persistent, reduce load, operate in short bursts, and allow cooling. If smell persists or is strong, contact customer care.
Loud noise during operation.	Jar not seated correctly; Hard ingredients; Worn out coupler.	Ensure jar is locked properly; Cut hard ingredients into smaller pieces; Contact customer care for coupler replacement if necessary.
Leakage from jar.	Lid not properly closed; Overfilling; Worn out gasket.	Ensure lid is tightly closed; Do not exceed max fill line; Check and replace gasket if damaged.
Ineffective grinding/blending.	Insufficient liquid (for wet grinding); Overfilling; Dull blades.	Add more liquid; Reduce quantity of ingredients; Contact customer care for blade inspection/replacement.

If the problem persists after trying these solutions, please contact Wipro customer support.
