Pininfarina PMH01A-02

Pininfarina Senso Hybrid Smartwatch User Manual

Model: PMH01A-02

PRODUCT OVERVIEW

The Pininfarina Senso Hybrid Smartwatch seamlessly blends classic analog watch design with advanced smart technology. It offers sophisticated health monitoring and activity tracking features while maintaining an elegant aesthetic.

Key Features:

- **Hybrid Revolution:** Combines classic analog mechanics with cutting-edge technology.
- **Premium Design:** Inspired by Pininfarina, featuring sapphire glass, 316L stainless steel case and bezel, and interchangeable Italian leather straps.
- **Durability:** Sapphire glass with anti-fingerprint coating, scratch-resistant and erosion-free stainless steel, 5 ATM water and dust resistance.
- **Comprehensive Health Monitoring:** Detailed sleep data, heart rate, and ECG measurements. Powered by an optimized lithium battery.
- **Smart Connectivity:** Connects to a dedicated app (Android and iOS) to record and analyze health and activity data, helping you improve your well-being.

SETUP GUIDE

1. Unboxing and Initial Charge

Upon opening the box, ensure all components are present: the Pininfarina Senso Hybrid Smartwatch, charging cable, and user manual. Before first use, fully charge your smartwatch. The optimized lithium battery provides up to 30 days of autonomy on a single 60-minute charge.

2. App Installation and Pairing

To unlock the full potential of your Pininfarina Senso, download the companion application on your smartphone. The app is available for both Android and iOS devices.

1. Search for the "Pininfarina Hybrid Watch" app on the Google Play Store (for Android) or Apple App Store (for iOS).
2. Install the application on your smartphone.
3. Ensure Bluetooth is enabled on your smartphone.
4. Open the Pininfarina app and follow the on-screen instructions to pair your smartwatch. You may need to select your model and initiate a connection.

L'EXPÉRIENCE

Fournit des informations avancées pour surveiller votre état de santé général et optimiser l'utilisation des capteurs de votre montre.

Note: Some users have reported initial pairing difficulties. If you encounter issues, try restarting both your watch and phone, and re-installing the app if necessary.

3. Time Synchronization

Once paired with the app, the watch's analog and digital displays will automatically synchronize with your smartphone's time. Manual adjustment of analog hands is possible through the watch's menu, but it is recommended to rely on app synchronization for accuracy.

OPERATING YOUR SMARTWATCH

Basic Navigation and Display

The Pininfarina Senso features a classic analog watch face with a small, integrated digital display. The watch crown and side buttons are used for navigation and accessing various functions. The analog hands intelligently move out of the way to provide a clear view of the digital screen when needed.

Health Monitoring Features

- **Heart Rate Monitoring:** The watch continuously monitors your heart rate. Detailed graphs and cardiograms are available in the app.
- **ECG (Electrocardiogram):** Perform on-demand ECG measurements directly from your watch. Results are synchronized and viewable in the app.
- **SpO2 (Blood Oxygen Saturation):** Measure your blood oxygen levels manually. This feature is not automatically monitored during sleep.
- **Sleep Tracking:** The watch provides detailed sleep data, including sleep stages and duration, to help you understand and improve your sleep patterns.

SURVEILLANCE CARDIAQUE

Surveillez votre cœur de près avec notre moniteur cardiaque. Il suit la fréquence cardiaque avec des graphiques détaillés, lit le rythme avec des cardiogrammes et surveille les battements pour réduire le stress avec le suivi HRV.

Activity Tracking

The smartwatch tracks various activities, including steps, calories burned, and distance. It supports a range of sports and activities, providing detailed insights into your physical performance.

- **GPS Tracking:** Utilizes your smartphone's GPS for accurate route tracking during outdoor activities.
- **Supported Activities:** Box, Free Training, Yoga, Hiking, Running, Basketball, Walking, Outdoor Cycling, Elliptical.

PERFORMANCES

Sélectionnez vos sports préférés et repoussez vos limites. Notre tracker sportif suit de près vos activités physiques, pour une compréhension approfondie de vos performances.

Notifications and Compass

- **Notifications:** Receive notifications from your smartphone directly on the watch's digital display. Note that the display area for notifications is small, and messages may be truncated.
- **Compass:** The watch features a compass function, where the analog hands form an arrow pointing North.

MAINTENANCE

Cleaning Your Smartwatch

To maintain the appearance and functionality of your Pininfarina Senso, regularly clean the watch case, sapphire glass, and straps. Use a soft, lint-free cloth. For the leather strap, avoid excessive moisture and harsh chemicals.

Water and Dust Resistance

The smartwatch is designed with 5 ATM water and dust resistance. This means it can withstand splashes, rain, and brief immersion in shallow water, such as during swimming. However, it is not suitable for diving or high-pressure water activities.

Durability and Materials

The Pininfarina Senso is built with high-quality materials for long-lasting durability:

- **Sapphire Glass:** Five times more durable than standard glass, with an anti-fingerprint coating for enhanced resilience and clarity.
- **316L Stainless Steel:** The case and bezel are crafted from revolutionary scratch-resistant and erosion-free 316L stainless steel, commonly used in aerospace and chemical industries.
- **Interchangeable Straps:** The watch comes with an elegant range of interchangeable genuine Italian leather straps.

VERRE SAPHIR

Offre une clarté exceptionnelle, cinq fois plus durable que le verre standard et est doté d'un revêtement anti-empreintes digitales pour une résilience accrue.

TROUBLESHOOTING

If you encounter issues with your Pininfarina Senso Hybrid Smartwatch, please refer to the following common solutions:

Problem	Possible Cause / Solution
---------	---------------------------

Problem	Possible Cause / Solution
Watch not connecting to app / Bluetooth issues	Ensure Bluetooth is enabled on your smartphone. Restart both your smartwatch and smartphone. Try unpairing and re-pairing the device in your phone's Bluetooth settings and within the Pininfarina app. Ensure the app is updated to the latest version. Reinstall the app if necessary.
Inaccurate or non-functional compass	Calibrate the compass according to the instructions in the app or watch settings. Ensure you are away from strong magnetic fields that could interfere with the compass.
Notifications not displaying or truncated	Check notification permissions for the Pininfarina app on your smartphone. Ensure the watch is properly connected via Bluetooth. Due to the small digital display, some longer messages may be truncated. This is expected behavior.
Battery draining quickly	Ensure the watch is fully charged. Frequent use of power-intensive features (e.g., continuous heart rate monitoring, GPS via phone) can reduce battery life. Check for background app activity on your phone that might be keeping the watch constantly active.

SPECIFICATIONS

Feature	Detail
Model Name	Pininfarina Senso Hybrid Smartwatch
Model Number	PMH01A-02
Brand	Pininfarina
Display Type	Analog-Digital
Screen Size	1.3 Centimeters
