AVUMDA G102-C

AVUMDA G102-C Magnetic Charger for G102 Smartwatches (2 Pins)

Instruction Manual

INTRODUCTION

This manual provides essential instructions for the safe and efficient use of your AVUMDA G102-C Magnetic Charger. This 2-pin magnetic charging cable is specifically designed for G102 smartwatches, ensuring a secure and reliable power connection. Please read this manual thoroughly before using the product.

PRODUCT OVERVIEW

Image 1: The AVUMDA G102-C Magnetic Charger. This image displays the charging cable with its USB-A connector on one end and the 2-pin magnetic charging head on the other. The magnetic head is designed to securely attach to compatible G102 smartwatches for charging.

The AVUMDA G102-C is a replacement or spare charging cable for G102 smartwatches. It features a magnetic 2-pin connector that aligns automatically with the charging contacts on your smartwatch, providing a stable charging experience. The cable connects to any standard USB-A power source.

SETUP

- 1. Unpack the Charger:** Carefully remove the AVUMDA G102-C magnetic charging cable from its packaging.
- 2. Inspect for Damage:** Before first use, visually inspect the cable and magnetic connector for any signs of damage. Do not use if damaged.
- 3. Connect to Power Source:** Insert the USB-A end of the charging cable into a compatible USB power adapter (e.g., a wall charger, computer USB port, or power bank). Ensure the power source provides a stable 5V output.

OPERATING INSTRUCTIONS

- 1. Prepare Smartwatch:** Ensure your G102 smartwatch is clean and dry, especially around the charging contacts.

2. **Attach Charger:** Bring the magnetic 2-pin charging head close to the charging contacts on the back of your G102 smartwatch. The magnets will automatically align and snap into place, creating a secure connection.
3. **Verify Charging:** Once connected, your smartwatch display should indicate that it is charging. If it does not, adjust the magnetic connector to ensure proper alignment.
4. **Charging Time:** Charging time may vary depending on the smartwatch's battery level and the power source used. Refer to your smartwatch's manual for typical charging durations.
5. **Disconnect:** Once charging is complete, gently pull the magnetic connector away from your smartwatch. Disconnect the USB-A end from the power source when not in use.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the charging cable and magnetic contacts regularly. Avoid using liquids or abrasive cleaners.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and extreme temperatures. Avoid bending or kinking the cable excessively.
- **Handling:** Do not pull the cable forcefully to disconnect it from the smartwatch or power source. Always grasp the connector ends.

TROUBLESHOOTING

- **Smartwatch not charging:**
 - Ensure the magnetic connector is properly aligned with the smartwatch's charging pins.
 - Check if the USB-A end is securely plugged into a working power source.
 - Try a different USB power adapter or USB port.
 - Clean the charging contacts on both the cable and the smartwatch.
- **Slow charging:**
 - Ensure the power source provides sufficient current (e.g., a wall adapter is generally better than a computer USB port for faster charging).
 - Avoid using the smartwatch while it is charging.
- **Cable appears damaged:**
 - Discontinue use immediately. Contact customer support for a replacement if under warranty.

SPECIFICATIONS

Feature	Detail
Brand	AVUMDA
Model Number	G102-C
Connector Type	USB-A to 2-Pin Magnetic
Compatible Devices	G102 Smartwatches
Package Dimensions	11 x 7 x 0.7 cm
Item Weight	12.5 grams
Number of USB Ports	1 (for connection to power source)

Feature	Detail
Portable	Yes
