### 1. Starting the Chainsaw

The chainsaw is capable of cutting through various types of wood, including bushes, limbs, hardwoods, and trees. It offers fast cutting speeds of up to 32 FT/S. For optimal performance and safety:

- Apply steady, even pressure.

- For larger branches, consider making multiple shallow cuts or using the compatible IMOUMLIVE rotated pole (ASIN: B0BN38XB5R) for extended reach up to 16.5ft.
