

WiMiUS P63

WiMiUS P63 Smart Projector User Manual

Model: P63

Thank you for choosing the WiMiUS P63 Smart Projector. This manual provides essential information for safe and efficient operation of your device. Please read it thoroughly before use and retain it for future reference.

PRODUCT OVERVIEW

The WiMiUS P63 is a high-performance smart projector designed for versatile home entertainment and professional presentations. It features a native 1080P resolution with 4K support, an integrated Android operating system, and advanced connectivity options.

Key Features:

- **Upgraded Electric-Focus & Android System:** Enjoy one-click remote focus for instant clarity and a built-in Android OS for direct app downloads, including popular streaming services like Netflix, YouTube, Hulu, and Prime Video.
- **Native 1080P + 30000 Lumen + Projector Stand:** Experience stunning Full HD 1080P resolution with 30000 Lumen brightness and 4K video support. A superior 20,000:1 contrast ratio and HDR10 algorithms maximize color detail.
- **WiFi 6 + Bluetooth 5.2:** Benefit from fast and stable wireless transmission with WiFi 6, reducing delay by 80%. Seamlessly mirror content from iOS/Android devices and connect wirelessly to Bluetooth headsets and speakers.
- **4P/Auto Vertical Keystone & 100%-50% Zoom:** Unique AI Auto Vertical Keystone and upgraded 4-point correction provide flexible image adjustment. The 100%-50% zoom adapts to different screen sizes without distortion.
- **Long Lamp Life:** The P63 uses a low-consumption LED lamp with a life expectancy of up to 100,000 hours, ensuring long-term reliability.

The WiMiUS P63 Smart Projector, shown here with its included mini tripod, is a compact and powerful device designed for various projection needs.

WHAT'S IN THE BOX

Verify that all items listed below are included in your package:

- Projector x 1
- AV Cable x 1
- Remote x 1
- HDMI Cable x 1
- Lens Cover x 1

Bluetooth 5.2 Connection

Enjoy ultimate 3D surround sound

Contents of the WiMiUS P63 package, including the projector, remote control, and essential cables.

SETUP GUIDE

1. Initial Placement

Place the projector on a stable, flat surface or mount it using a compatible ceiling/tripod mount. Ensure there is adequate ventilation around the device.

2. Power Connection

Connect the power cable to the projector's power input and then plug it into a suitable electrical outlet. Press the power button on the projector or remote control to turn it on.

3. Focusing the Image (Electric Focus)

The P63 features electric focus for quick and precise image clarity. Use the 'F+' and 'F-' buttons on the remote control to adjust the focus until the image appears sharp and clear on your screen or wall.

One-Touch Electric Focus

Get a clear picture within 3 seconds via remote control

Adjusting the projector's focus using the remote control for a clear image.

4. Keystone Correction

The projector supports automatic vertical keystone correction and 4-point manual correction to ensure a perfectly rectangular image, even if the projector is not perfectly aligned with the screen.

Auto Vertical Keystone: The projector will automatically correct vertical distortion. If further adjustment is needed, navigate to the settings menu.

4-Point Correction: For precise adjustments, access the 4-point correction setting in the menu to manually adjust each corner of the projected image.

Auto Vertical Keystone Correction

Demonstration of the projector's auto vertical keystone correction feature, ensuring a perfectly rectangular image.

5. Screen Size Adjustment (Zoom)

Adjust the screen size from 50% to 100% using the zoom function in the projector's settings. This allows you to fit the image to your screen without moving the projector.

The WiMiUS P63 projector supports adjustable screen sizes from 50 to 300 inches, allowing flexibility in projection distance and display area.

OPERATING INSTRUCTIONS

1. Android System Navigation

The P63 features a built-in Android operating system. Use the remote control to navigate the interface. You can access pre-installed apps or download new ones from the integrated app store, including popular streaming services like Netflix, YouTube, Hulu, and Prime Video.

Android TV & 7000+ Apps

Enjoy massive streaming videos without a Fire Stick

The Android TV interface of the WiMiUS P63 projector, providing access to a wide range of streaming applications.

2. Connecting External Devices

The projector offers multiple connectivity options:

- **HDMI:** Connect Blu-ray players, gaming consoles (PS5), laptops, or TV sticks using the HDMI ports. The projector has 2 HDMI ports.
- **USB:** Play media files directly from a USB drive. Supports Excel, Word, and PPT playback.
- **AV:** Use the included AV cable for older devices.

3. Wireless Connectivity (WiFi 6 & Bluetooth 5.2)

WiFi 6: Connect the projector to your wireless network for internet access and online streaming. WiFi 6 ensures fast and stable transmission.

Ultra-Fast WiFi6 Technology

The projector's Ultra-Fast WiFi 6 technology enables seamless streaming and connectivity with various devices.

Bluetooth 5.2: Pair with Bluetooth headphones or external speakers for an enhanced audio experience. This allows for immersive sound without cables.

Bluetooth 5.2 Connection

Enjoy ultimate 3D surround sound

Connecting to external audio devices via Bluetooth 5.2 for improved sound quality.

4. Screen Mirroring

Mirror the display content from your iOS or Android devices directly to the projector screen via Screen Mirroring. Ensure both devices are connected to the same Wi-Fi network.

MAINTENANCE

1. Cleaning the Projector

Regular cleaning helps maintain optimal performance and extends the projector's lifespan.

- **Lens:** Gently wipe the projector lens with a soft, lint-free cloth specifically designed for optical surfaces. Do not use abrasive cleaners.
- **Casing:** Use a soft, dry cloth to clean the exterior casing. For stubborn marks, a slightly damp cloth can be used, followed by a dry wipe.
- **Ventilation Ports:** Ensure the ventilation ports are clear of dust and debris to prevent overheating. Use a soft brush or compressed air to clean them periodically.

2. Lamp Life and Care

The WiMiUS P63 uses a low-consumption LED lamp designed for a long lifespan of up to 100,000 hours. No regular lamp replacement is typically required under normal usage conditions.

To maximize lamp life, avoid frequent power cycles and ensure proper ventilation during operation.

TROUBLESHOOTING

If you encounter issues with your WiMiUS P63 projector, refer to the following common problems and solutions:

No Image / No Signal

- Ensure the projector is powered on and the power indicator light is active.
- Check all cable connections (HDMI, USB, AV) to ensure they are securely plugged into both the projector and the source device.
- Verify that the correct input source is selected on the projector (e.g., HDMI1, HDMI2, USB).
- If using screen mirroring, ensure both devices are on the same Wi-Fi network and the mirroring function is activated on your mobile device.

Blurred Image

- Adjust the focus using the 'F+' and 'F-' buttons on the remote control.
- Ensure the projection surface is flat and smooth.
- Perform keystone correction (auto or 4-point manual) to correct any trapezoidal distortion.

No Sound / Low Sound

- Increase the volume on both the projector and the connected source device.
- If using external speakers via Bluetooth, ensure they are properly paired and connected.
- Check audio output settings on your source device to ensure sound is routed correctly.
- Note: The built-in speaker has decent quality but may not be very loud for large rooms; external speakers are recommended for an immersive experience.

Android System Lag / Slow Performance

- Close unnecessary background applications.
- Ensure a stable and strong Wi-Fi connection.
- Clear cache for frequently used applications in the Android settings.
- Consider connecting an external streaming device (e.g., Fire Stick) for potentially smoother performance if the built-in Android system feels too slow for your needs.

Remote Control Not Working

- Check and replace the batteries in the remote control.
- Ensure there are no obstructions between the remote and the projector's IR receiver.

SPECIFICATIONS

Detailed technical specifications for the WiMiUS P63 Smart Projector:

Feature	Specification
Brand	WiMiUS
Model Number	WiMiUS P63 Full HD 1080P Projector
Product Dimensions	24.9 x 20.4 x 11.15 cm
