## PRODUCT OVERVIEW

The Rupital Auto Face Tracking Tripod is designed to enhance your video recording and photography experience by providing intelligent, hands-free tracking. Key features include:

- **360° Face Tracking & Advanced AI:** Utilizes advanced AI technology and optical lenses for rapid and precise detection of facial or body movements, tracking motions in a full 360° rotation. The recognition angle is customizable for various postures.
- **No App Required:** Operates independently without the need for a dedicated application or Bluetooth connection, offering broad compatibility with various smartphone sizes.
- **Intelligent Gesture Control:** Features an excellent gesture recognition algorithm. An 'OK' gesture initiates tracking, while an open palm gesture pauses it. Compatible with all video applications.
- **Standard 1/4 Inch Tripod Connector:** The base is removable and compatible with standard 1/4-inch screw interfaces, allowing use with external tripods for varied heights and angles.
- **Wireless Camera Remote:** Includes a remote for effortless capture of photos and videos, eliminating phone shake and the need for external assistance.

## PACKAGE CONTENTS

---

Verify that all items are present in your package:

- Rupital Auto Face Tracking Tripod (Model Q5)
- Wireless Camera Remote
- USB Charging Cable (Type-C)
- User Manual

## SETUP

---

1. **Initial Charge:** Before first use, fully charge the device using the provided USB charging cable.
2. **Attach Phone:** Extend the phone clamp by turning the knob to the left. Securely place your smartphone in the clamp and turn the knob to the right to tighten.
3. **Positioning:** Place the tripod on a stable, flat surface. For elevated shots, attach the tripod to a compatible external tripod using the standard 1/4-inch screw interface at the base.

# Two-color optional classic atmosphere.

Black and white classic two-color fashion goes with everything

*The Rupital Auto Face Tracking Tripod is available in white and black.*

## OPERATING INSTRUCTIONS

### Power On/Off

- Press and hold the power button to turn the device on or off.

### Face Tracking

- Once powered on, the device automatically enters tracking mode. The indicator light will turn green.
- The device will detect and follow your face or body movements within its 360° rotation range.

### Gesture Control

Use the following hand gestures to control tracking:

- **'OK' Gesture:** To initiate or resume face tracking.

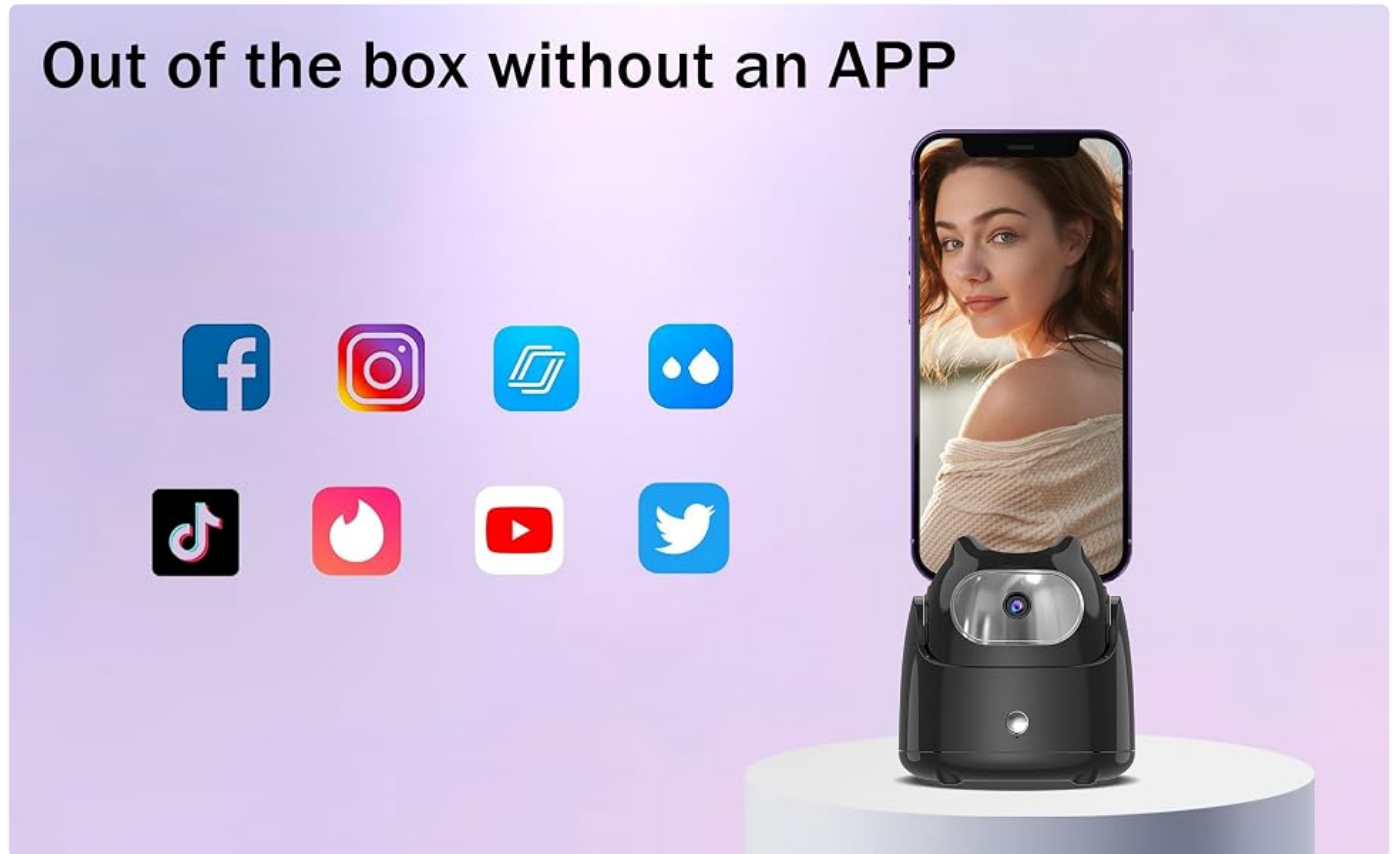

- **Open Palm Gesture:** To pause face tracking.

## Remote Control

The included wireless remote allows you to start and stop video recording or take photos remotely.

## Adjusting Camera Angle

- The camera lens can be manually adjusted upwards or downwards to accommodate sitting or standing positions.

## MAINTENANCE

- Keep the device clean and free from dust. Use a soft, dry cloth for cleaning.
- Avoid exposing the device to extreme temperatures or moisture.
- Store in a cool, dry place when not in use.

## TROUBLESHOOTING

If you encounter issues with your Rupital Auto Face Tracking Tripod, refer to the following common solutions:

- **Device not powering on:** Ensure the device is fully charged.
- **Tracking issues:** Ensure the environment has adequate lighting and that your face/body is clearly visible to the device's sensor. Avoid rapid, jerky movements.
- **Phone not clamping securely:** Ensure the knob is turned fully to the right after placing the phone.
- **Remote not working:** Ensure the remote's battery is functional and it is within operating range.
