RAVPower RP-PC172

RAVPower RP-PC172 65W 3-Port Wall Charger User Manual

Model: RP-PC172

Brand: RAVPower

INTRODUCTION

The RAVPower RP-PC172 65 Watt 3-Port Wall Charger is designed to provide rapid and safe charging for your electronic devices. With a powerful 65W output and three charging ports (one USB-A and two USB-C), it simplifies your charging needs, allowing you to power up multiple devices simultaneously. Its compact design makes it an ideal travel companion, ensuring you have a reliable charging solution wherever you go. This charger incorporates advanced safety features and premium fireproof materials to protect your devices against excessive current, overheating, overvoltage, and short-circuit issues.

Key Features:

- Dual USB-C and single USB-A charging ports with a combined 65W output.
- Compact and portable design for easy travel.
- Capable of charging up to 3 devices simultaneously.
- Integrated over-charge and short-circuit protection for device safety.
- Delivers up to 3x faster charging speed compared to standard chargers of similar size.

SETUP INSTRUCTIONS

Follow these steps to set up your RAVPower RP-PC172 Wall Charger:

1. **Unpack the Charger:** Carefully remove the RAVPower RP-PC172 wall charger from its packaging.
2. **Inspect for Damage:** Before use, visually inspect the charger for any signs of physical damage. Do not use if damaged.
3. **Connect to Power Outlet:** Plug the charger into a standard wall power outlet (220 Volts input). Ensure the connection is secure.
4. **Prepare Devices:** Obtain the appropriate charging cables for your devices (USB-C to USB-C, USB-A to

USB-C/Lightning/Micro USB, etc.).

5. **Connect Devices:** Plug one end of your charging cable into an available port on the RAVPower charger (USB-A or USB-C) and the other end into your device.

OPERATING INSTRUCTIONS

The RAVPower RP-PC172 charger is designed for simple and efficient operation. Here's how to use it effectively:

1. **Single Device Charging:** For optimal fast charging, connect your device to one of the USB-C ports. The charger will automatically detect your device and deliver the maximum safe charging speed up to 65W.
2. **Multiple Device Charging:** You can charge up to three devices simultaneously using the two USB-C ports and one USB-A port. The charger intelligently distributes power to ensure efficient charging for all connected devices.
3. **Fast Charging:** This charger supports various fast charging protocols. Ensure your device and charging cable also support fast charging for the quickest results.

Safety Assured

3 Devices Charging

No more waiting in line for charging all your devices

Image: The RAVPower RP-PC172 charger providing power to three devices concurrently: a Nintendo Switch, a smartphone, and a tablet. This illustrates the convenience of charging multiple gadgets without waiting.

Device Compatibility:

The charger offers wide compatibility with various devices:

- **USB-C Port:** Compatible with MacBook Pro/Air, iPad Pro/Mini/Air, iPhone 13/13 Pro/13 Pro Max, Dell XPS 13/16/17, Nintendo Switch, and other USB-C powered mobile devices.
- **USB-A Port:** Compatible with Samsung Galaxy S22/S22+/S10/S10+/Note 20/20+, and other USB-A powered smartphones and tablets.

Fast Charging at Once

Fully charge your phone and tablet faster than before

MAINTENANCE

Proper maintenance ensures the longevity and safe operation of your RAVPower RP-PC172 Wall Charger:

- **Cleaning:** Disconnect the charger from the power outlet before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners, aerosols, or solvents.
- **Storage:** When not in use, store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Avoid Moisture:** Do not expose the charger to water or high humidity.
- **Handle with Care:** Avoid dropping or subjecting the charger to strong impacts.
- **Cable Management:** Do not bend or crimp charging cables excessively, as this can damage them and affect charging performance.

Safety Precautions:

- Do not disassemble or modify the charger.

- Keep out of reach of children.
- Do not operate the charger if it has been damaged in any way.
- Ensure adequate ventilation around the charger during use.

TROUBLESHOOTING

If you encounter issues with your RAVPower RP-PC172 Wall Charger, refer to the following common problems and solutions:

- **Device Not Charging:**
 - Ensure the charger is securely plugged into a working wall outlet.
 - Check if the charging cable is properly connected to both the charger and your device.
 - Try using a different charging cable to rule out a faulty cable.
 - Test the charger with a different device to confirm if the issue is with the charger or the device.

- Try a different wall outlet.
- **Slow Charging:**
 - Ensure your device and cable support fast charging protocols compatible with the charger.
 - If charging multiple devices, the total power output is shared. Disconnect other devices to see if charging speed improves for a single device.
 - Avoid using your device intensively while charging, as this can slow down the charging process.

- **Charger Overheating:**

- It is normal for the charger to feel warm during operation, especially during fast charging or when charging multiple devices.
- If the charger becomes excessively hot, disconnect it immediately from the power outlet and all devices. Allow it to cool down.
- Ensure the charger is in a well-ventilated area and not covered.

If the problem persists after trying these solutions, please contact RAVPower customer support for further assistance.

SPECIFICATIONS

Feature	Detail
Model Number	RP-PC172 (6974740775150)
Manufacturer	RAVPower
Total Power Output	65W (Max)
Total USB Ports	3 (2x USB-C, 1x USB-A)
Input Voltage	220 Volts
