## BOIFUN BABY 6T

# BOIFUN 2K Baby Monitor WiFi - Model BABY 6T Instruction Manual

BRAND: BOIFUN | MODEL: BABY 6T

## Introduction

The BOIFUN 2K Baby Monitor WiFi (Model BABY 6T) provides comprehensive monitoring solutions for your child's safety and your peace of mind. This advanced system features a 360° rotatable camera with 2K FHD night vision, a 5-inch 3MP display, and dual control options via an LCD monitor or a mobile application. Equipped with AI motion and sound detection, a smart night light, lullabies, and two-way audio, it ensures you stay connected with your baby at all times. The monitor supports split-screen viewing for multiple cameras, offering a versatile and secure monitoring experience.

## Operating Instructions

### Dual Cameras and Split Screen

The BOIFUN baby monitor supports up to two cameras and offers a split-screen function on its 5-inch display. This allows you to view live feeds from both cameras simultaneously, ideal for monitoring two children or different areas of a room.

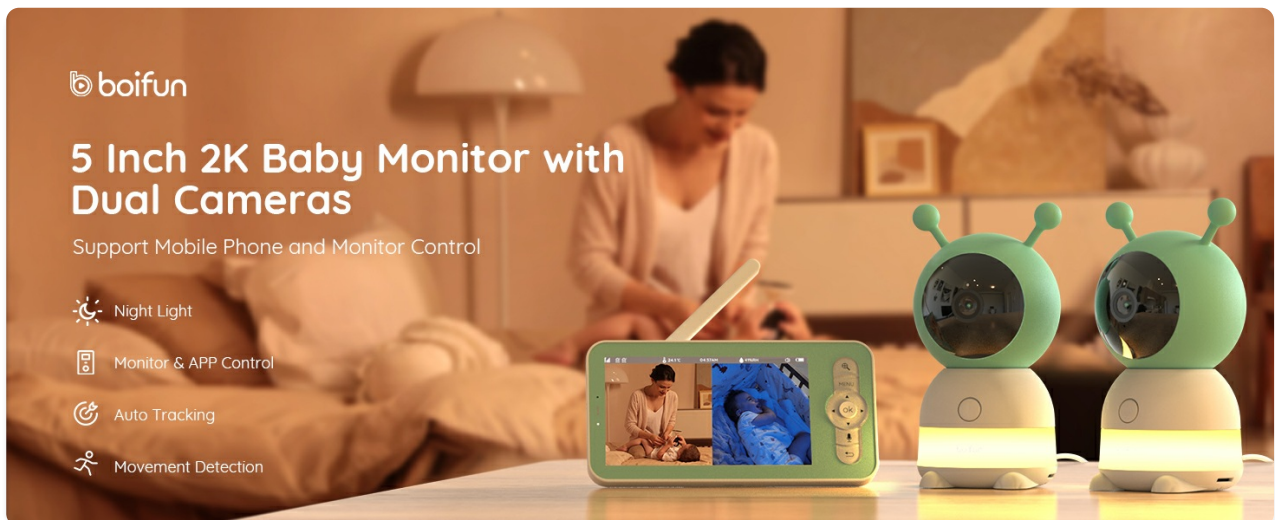

Image: The 5-inch monitor displaying a split-screen view from two cameras, showing two different babies.

### Mobile App Monitoring and Control

In addition to the LCD monitor, you can connect the baby monitor to your mobile phone via a 2.4GHz Wi-Fi connection. This allows you to monitor and control the camera from anywhere, providing flexibility whether you are at home or away.

## Share With Multiple People

Your family can also witness your baby's growth

## 2K FHD Night Vision & 4x Zoom & Automatic Tracking

The camera provides stunning 2K HD resolution and 4x digital zoom, allowing you to see every detail. It features 940nm invisible infrared night vision, ensuring clear images in low-light conditions without disturbing your baby. The camera also supports 355° horizontal and 90° vertical rotation with automatic tracking, following your baby's movements.

## 940nm Invisible Night Vision

No red light spots, ensuring your baby sleeps soundly and sweetly

2K FHD + 4x Zoom

## 100% Privacy Protection

Even if your family members are connected to the camera, it ensures 100% privacy for you

-  Turn off the WiFi network channel
-  Turn off the camera

355° Pan + 90° Tilt; Auto Tracking

## Eco-Conscious Battery

Mercury-free & recyclable design – safe for baby, gentle on earth

Image: Comparison showing BOIFUN's 940nm invisible night vision versus a standard camera with visible red lights.

## Smart Care: Motion, Crying, and Noise Detection

The monitor features intelligent detection capabilities, including motion, crying, and noise detection. When activated, the system sends notifications to your phone and the monitor, alerting you to your baby's activity.

## Customized Alarm Zones

Once your baby leaves the safe zone, you will receive an immediate notification

## Powerful 3000mAh Battery & 3 Screen Notification Mode

Enjoy up to 4 days of uninterrupted monitoring with the 3000mAh battery  
Choose from 3 usage modes and customize your screen notification mode.

Always-On Mode: Up to **10 hours**  
Screen always on, real-time video and sound

Audio-On Mode: Up to **24 hours**  
Screen lights up only for alerts and plays a sound

Audio-Off Mode: Up to **4 days**  
Screen lights up for alerts without playing sound

Image: The baby monitor camera positioned near a crib, playing gentle lullabies to help a baby sleep.

### Two-Way Audio

Engage in two-way communication with your baby through the monitor or mobile app. This feature allows you to speak to your child and hear their responses, providing comfort and reassurance.

### Customized Alert Areas

Set specific alert zones within the camera's view. If your baby moves outside these designated safe zones, you will receive an immediate notification.

## Thoughtful Baby Shower Gifts

The cherished gift: safety, sleep & peace of mind for new parents

### Storage Options

The monitor supports both memory card (up to 128GB, not included) and secure cloud storage (optional). This allows you to capture and review important moments and milestones.

## Stable Connection Throughout Your Home

FCC-certified low-emission RF for safe use around your baby — yet strong enough to cover up to 6 walls

Image: The baby monitor camera and a smartphone displaying options for memory card and cloud storage for video recording.

### Multi-User Sharing

Share access to the baby monitor feed with multiple family members, allowing everyone to witness your baby's growth and ensure their well-being.

# What's Included

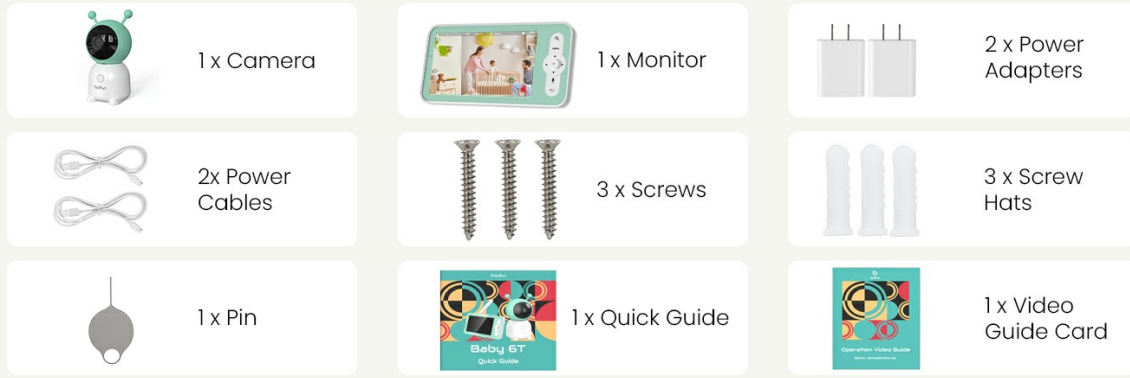

Image: A couple viewing the baby monitor feed on a smartphone, with thought bubbles indicating other family members can also share the view.

## 100% Privacy Protection

The system incorporates AES128 encryption technology to ensure 100% privacy protection. You can also turn off the Wi-Fi channel or the camera directly for added security.

## Maintenance

To ensure optimal performance and longevity of your BOIFUN Baby Monitor, follow these maintenance guidelines:

- **Cleaning:** Gently wipe the camera lens and monitor screen with a soft, dry cloth. Avoid using harsh

chemicals or abrasive materials.

- **Placement:** Ensure the camera and monitor are placed in well-ventilated areas, away from direct sunlight, heat sources, and moisture.
- **Battery Care:** For the monitor's rechargeable battery, avoid complete discharge for extended periods. Charge regularly to maintain battery health.
- **Software Updates:** Periodically check the mobile app for any available software or firmware updates to ensure you have the latest features and security enhancements.

## Troubleshooting

If you encounter any issues with your BOIFUN Baby Monitor, please refer to the following common troubleshooting tips:

- **No Signal/Poor Connection:** Ensure both the camera and monitor are within range and powered on. Try repositioning them closer to each other or away from potential interference sources (e.g., other wireless devices, thick walls).
- **No Picture/Sound:** Check if both units are properly charged or connected to power. Verify that the camera lens is not obstructed and that volume settings are adjusted correctly.
- **App Connectivity Issues:** Confirm your mobile device is connected to a 2.4GHz Wi-Fi network. Restart the app and the camera. Ensure the app is updated to the latest version.
- **Motion/Sound Detection Not Working:** Check the sensitivity settings in the monitor or app. Ensure the camera's view is clear and not obstructed.
- **Battery Draining Quickly:** Reduce screen brightness, use Audio-Off mode, or ensure the monitor is fully charged before use.

For further assistance, please contact customer support as detailed in the Warranty and Support section.
