2. SETUP & INSTALLATION

Attaching the Clamp Lamp

The AmazLit Desk Lamp comes with a sturdy metal clamp designed to securely attach to various desktop thicknesses, saving valuable desk space. The clamp supports desktops up to 2.7 inches (6.8 cm) thick.

1. Choose a suitable location on your desk where you want to attach the desk lamp.
2. Unfold the metal clamp and position it on the edge of your desk.
3. Tighten the clamp screw until the lamp is firmly secured to the desktop. Ensure it is stable and does not wobble.
4. Connect the UL Power Adapter to the lamp and plug it into a power outlet.

3. OPERATING INSTRUCTIONS

Powering On/Off and Basic Adjustments

The lamp can be controlled via its integrated touch buttons on the arm or through the convenient wireless remote control. It also supports ON/OFF control via wall switches and smart plugs, returning to your last setting (memory function) when turned on.

Adjusting Brightness and Color Temperature

The lamp offers 5 brightness levels and adjustable color temperature from 3000K (warm) to 5500K (cool), allowing you to customize your lighting for any task or mood.

Adjustable Brightness

Easily adjusted to meet your requirements

Preset Modes

The lamp includes 4 common lighting modes tailored for different activities:

- **Reading Mode:** 4000K & 100% Brightness
- **Relaxing Mode:** 3000K & 100% Brightness
- **Working Mode:** 5500K & 100% Brightness
- **Nightlight Mode:** 3000K & 10% Brightness

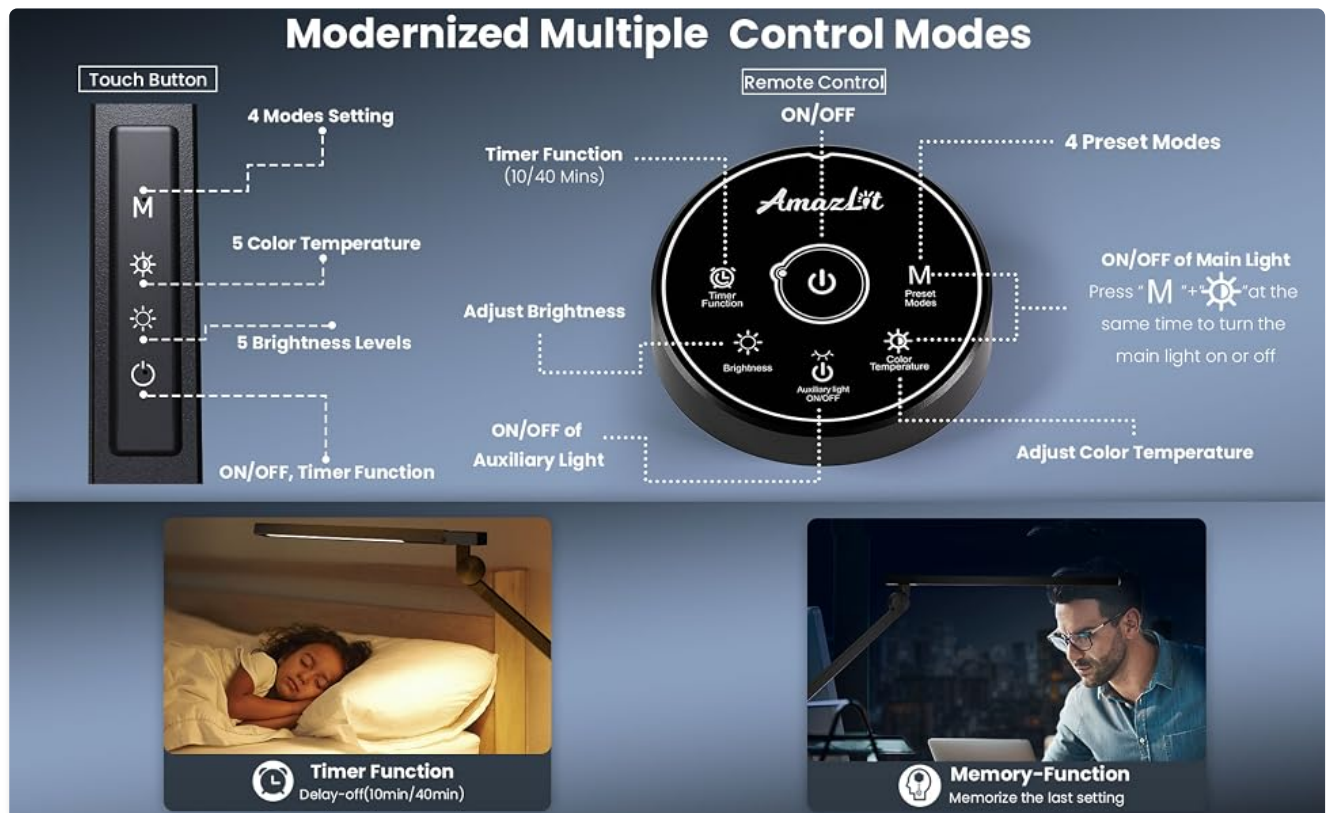

Figure 3.4: The four common preset lighting modes.

Timer Function

Set the automatic delay-off function to 10 or 40 minutes, ideal for use before sleeping, ensuring the lamp turns off automatically without needing to get out of bed.

Memory Function

The lamp will automatically return to your last used brightness and color temperature settings when turned on again, providing consistent lighting without re-adjustment.

5. MAINTENANCE

Cleaning and Care

- Ensure the lamp is unplugged before cleaning.
- Wipe the lamp body and shade with a soft, dry cloth.
- Avoid using abrasive cleaners or solvents that may damage the finish.
- Keep the lamp away from excessive moisture.

6. TROUBLESHOOTING

Common Issues

- **Lamp does not turn on:** Check if the power adapter is securely plugged into both the lamp and the wall outlet. Ensure the wall outlet is functional.
- **Remote control not working:** Replace the batteries in the remote control (requires 2 AAA batteries). Ensure there are no obstructions between the remote and the lamp.
- **Light flickers:** Ensure the power connection is stable. If flickering persists, contact customer support.
- **Lamp is unstable:** Re-tighten the clamp screw to ensure it is securely fastened to the desktop.
