

ORYMUSE HXYC200-D

User Manual for ORYMUSE 30" Dual Zone Wine & Beverage Refrigerator

Model: HXYC200-D

1. INTRODUCTION

Thank you for choosing the ORYMUSE 30" Dual Zone Wine & Beverage Refrigerator. This manual provides essential information for the safe and efficient operation of your appliance. Please read it thoroughly before installation and use, and keep it for future reference.

2. SAFETY INFORMATION

General Safety Precautions

- Ensure the refrigerator is placed on a stable, level surface.
- Do not block ventilation openings.
- Do not store explosive substances such as aerosol cans with a flammable propellant in this appliance.
- Keep the appliance away from direct sunlight and heat sources.
- Unplug the appliance before cleaning or performing maintenance.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

Important Notice Before Use

To ensure optimal performance and avoid any potential issues, please allow the refrigerator to stand upright for at least 24 hours after delivery before plugging it in. If you notice any damage upon receipt, please contact customer service immediately.

3. PRODUCT OVERVIEW

Key Features

- **Independent Dual Zone Cooling:** Two distinct temperature zones (Left: 35-50°F, Right: 41-64°F) for optimal storage of wine and beverages.
- **Quiet & Efficient Cooling:** Powerful compressor system with minimal vibration and noise (under 40 dB).
- **Intuitive Touch Screen Controls:** User-friendly interface for easy temperature and lighting adjustments.
- **Seamless Design & Convenience:** Stainless steel frame, clear glass French door, soft-closing doors with magnetic seals, and modern finish.
- **Large Capacity:** Accommodates 30 bottles and 110 cans.
- **Built-in/Freestanding Installation:** Versatile design for various placement options.

Components

- 1 × Wine & Beverage Fridge
- 1 × User Manual (this document)
- 2 × Door Handles
- 2 × Spare Adjustable Feet
- Wire + Beechwood Shelves (Beer Zone: 4 shelves, Wine Zone: 7 shelves)

2-IN-1 GLASS DOOR + STAINLESS STEEL DOOR

Stainless steel foam door for quick cooling of beverages, good thermal insulation, and energy saving

Double-layer tempered glass prevents UV damage

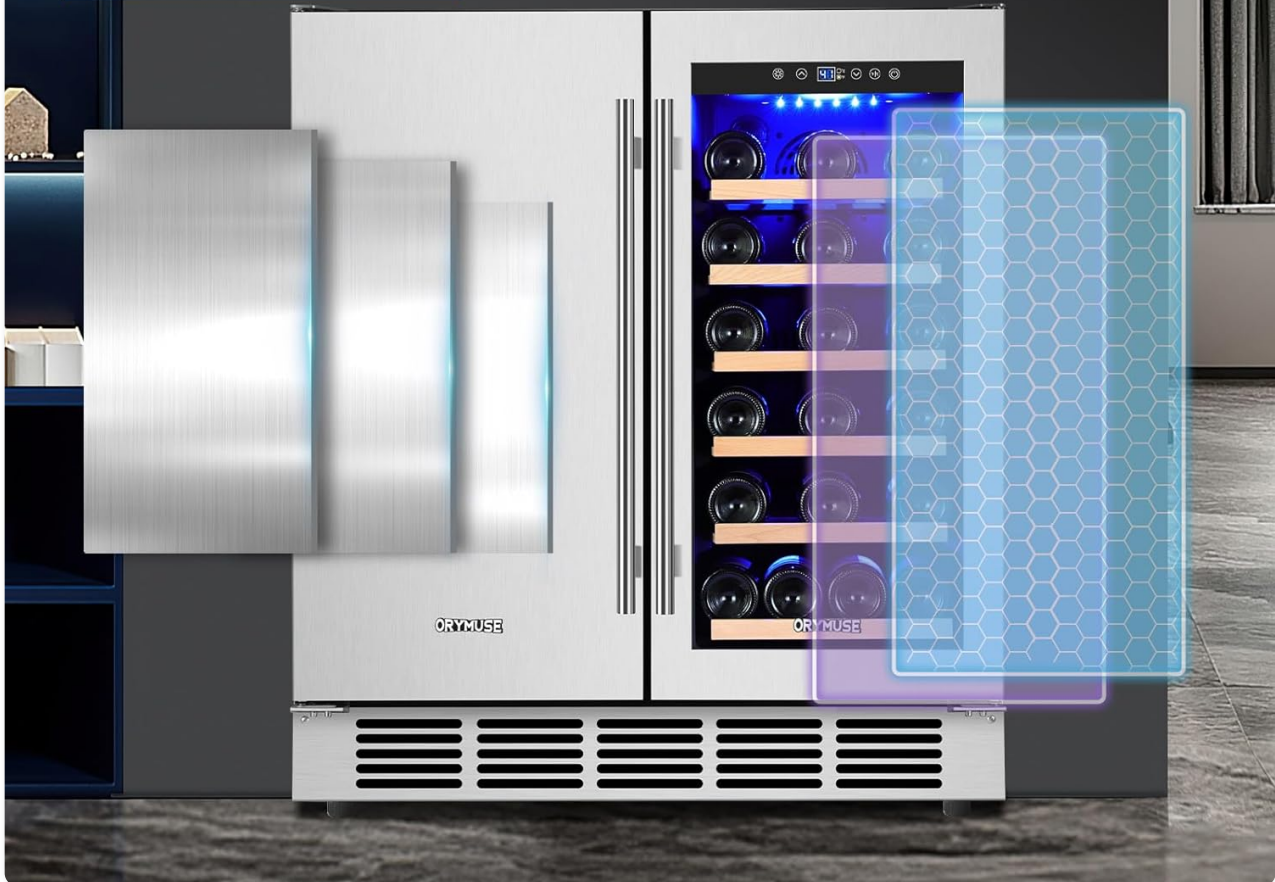

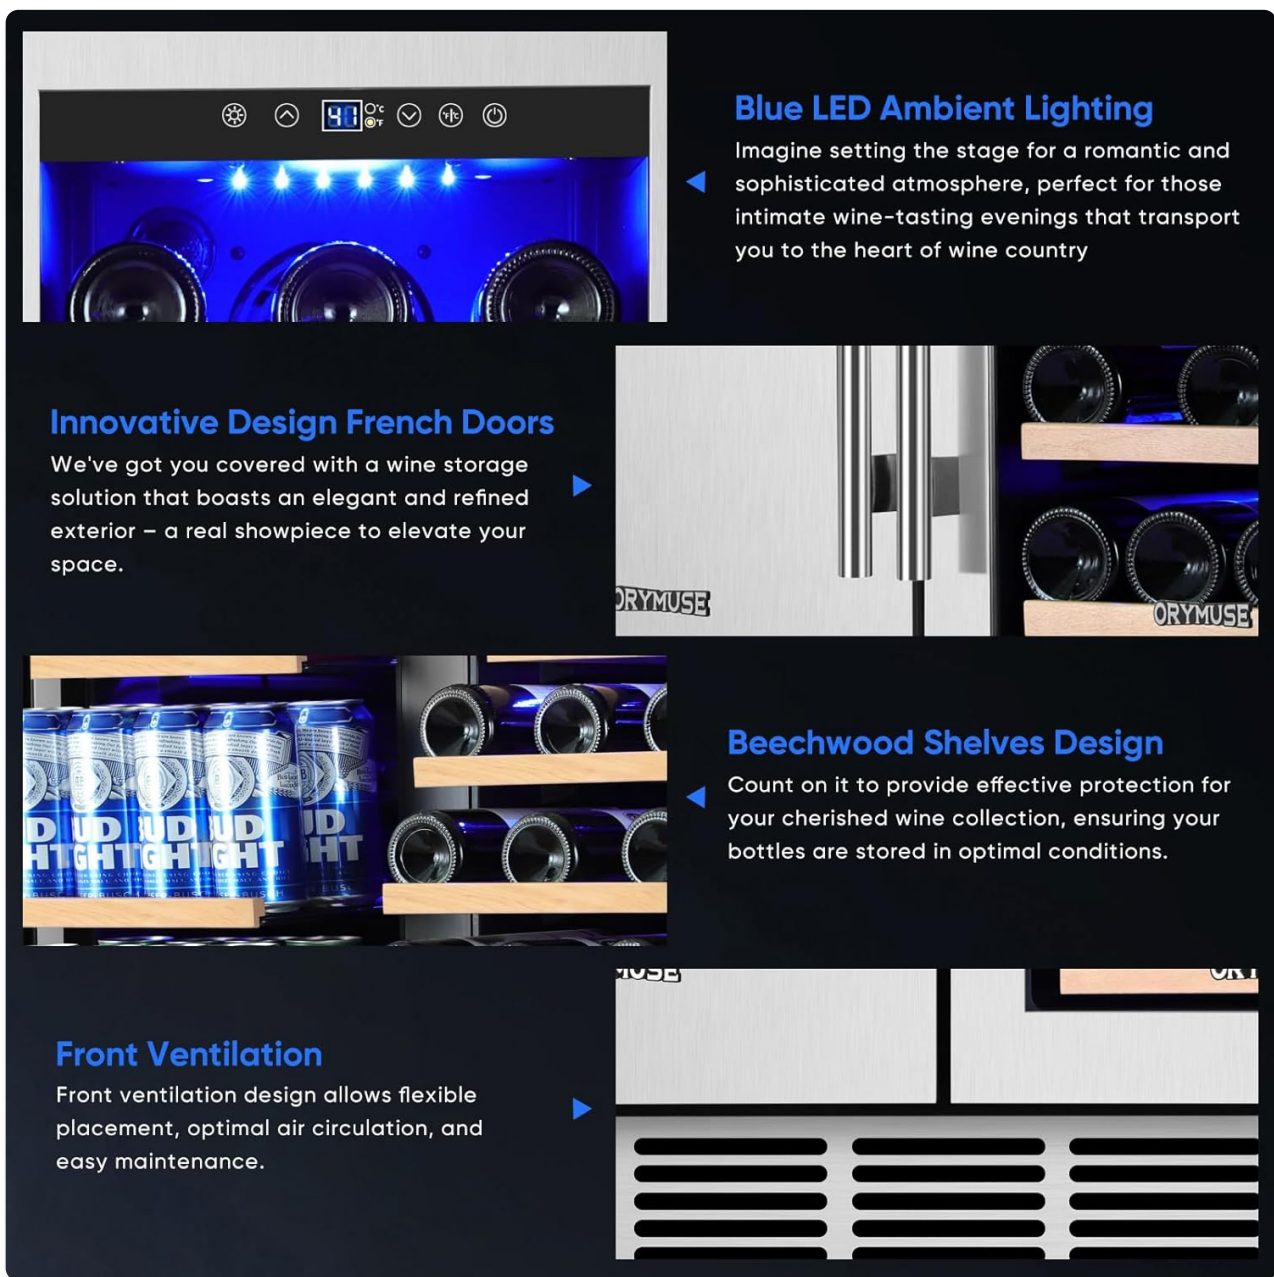

Figure 3.2: Illustration of the 2-in-1 glass door and stainless steel door design, highlighting insulation and UV protection.

Blue LED Ambient Lighting

Imagine setting the stage for a romantic and sophisticated atmosphere, perfect for those intimate wine-tasting evenings that transport you to the heart of wine country

Innovative Design French Doors

We've got you covered with a wine storage solution that boasts an elegant and refined exterior – a real showpiece to elevate your space.

Beechwood Shelves Design

Count on it to provide effective protection for your cherished wine collection, ensuring your bottles are stored in optimal conditions.

Front Ventilation

Front ventilation design allows flexible placement, optimal air circulation, and easy maintenance.

Figure 3.3: Detailed view of key design elements: blue LED ambient lighting, innovative French doors, beechwood shelves, and front ventilation for optimal air circulation.

4. SETUP

4.1 Unpacking

1. Carefully remove all packaging materials, including foam and adhesive tape.
2. Inspect the refrigerator for any shipping damage. Report any damage to the carrier and seller immediately.
3. Clean the interior and exterior of the refrigerator with a soft cloth and mild detergent before use.
4. As per the important notice, allow the unit to stand upright for at least 24 hours before plugging it into a power outlet. This allows the refrigerant to settle.

4.2 Placement

The ORYMUSE 30" Dual Zone Wine & Beverage Refrigerator is designed for both built-in and freestanding

installation.

- **Built-in Installation:** Ensure adequate ventilation space around the unit, especially at the front where the ventilation grille is located.
- **Freestanding Installation:** Allow at least 2-3 inches of space at the back and sides for proper air circulation.
- Avoid placing the unit near heat sources (e.g., oven, radiator, direct sunlight) or in areas with extreme temperature fluctuations.
- Ensure the floor is strong enough to support the unit when fully loaded.

Figure 4.1: Visual guide for built-in and freestanding installation, demonstrating proper clearance.

4.3 Leveling and Handle Installation

1. Use the adjustable feet at the bottom of the unit to level the refrigerator. A level unit ensures proper door sealing and efficient operation.
2. Attach the door handles using the provided screws. Ensure they are securely fastened.

5. OPERATING INSTRUCTIONS

5.1 Control Panel

The refrigerator features an intuitive touch screen control panel located above the doors. It allows you to adjust temperatures, control lighting, and power the unit on/off.

30" Dual Zone Wine & Beverage Cooler

User-Friendly Touchscreen Interface

Figure 5.1: Detailed view of the touchscreen control panel for both the beverage and wine zones.

5.2 Temperature Control

This unit features two independent cooling zones, each with its own temperature control.

- **Left Zone (Beverage Zone):** Temperature range 35-50°F (1.7-10°C). Ideal for sodas, beer, water, and other beverages.
- **Right Zone (Wine Zone):** Temperature range 41-64°F (5-17.8°C). Suitable for storing red, dry sparkling, white, and rosé wines.
- Use the up/down arrows on the respective zone's control panel to set the desired temperature. The display will show the current temperature.
- Press the light bulb icon to turn the blue LED interior lighting on or off.

Figure 5.2: Overview of the dual-zone capacity, showing the beverage zone (left) and wine zone (right) with their respective temperature ranges and capacities.

5.3 Loading the Refrigerator

The refrigerator is designed to hold up to 110 standard 12oz cans in the beverage zone and 30 standard 750ml wine bottles in the wine zone. The beechwood shelves are removable to accommodate larger bottles or cans if needed.

UPGRADE LARGE CAPACITY

118 Cans 12oz Drinks / 29 Bottles 750ml Wine

Figure 5.3: Illustration of the refrigerator's upgraded large capacity, showcasing removable shelves for flexible storage of cans and wine bottles.

6. MAINTENANCE

6.1 Cleaning

- Always unplug the refrigerator before cleaning.
- Clean the interior with a soft cloth and a solution of baking soda and water (2 tablespoons of baking soda to 1 quart of water).
- Wash the shelves with a mild detergent solution, rinse, and dry thoroughly.
- Clean the exterior with a soft cloth and mild soap. For stainless steel surfaces, use a stainless steel cleaner.
- Regularly clean the front ventilation grille to ensure proper airflow.

6.2 Defrosting

This refrigerator features an automatic defrost system, eliminating the need for manual defrosting. Frost will melt and evaporate automatically.

6.3 Power Outage

In case of a power outage, minimize opening the doors to maintain the internal temperature for as long as possible. The unit will resume normal operation once power is restored.

7. TROUBLESHOOTING

Before contacting customer service, please refer to the following table for common issues and their solutions.

Problem	Possible Cause	Solution
Refrigerator does not operate.	No power; circuit breaker tripped; power cord not fully plugged in.	Check power supply; reset circuit breaker; ensure cord is securely plugged in.
Temperature is not cold enough.	Door not closed properly; excessive door openings; warm items added; unit in direct sunlight; ventilation blocked.	Ensure door is sealed; reduce door openings; allow new items to cool; relocate unit; clear ventilation.
Excessive noise.	Unit not level; fan obstruction; normal compressor operation.	Level the unit using adjustable feet; check for obstructions; note that some compressor noise is normal.
Interior light not working.	Light switch off; LED malfunction.	Press the light button on the control panel; contact customer service if issue persists.
Water on floor.	Drain tube clogged or displaced.	Check and clear the drain tube at the back of the unit.
