Yofidra 100 ft Stainless Steel Garden Hose Instruction Manual

Model: B0CG646LC2

1. INTRODUCTION

Thank you for choosing the Yofidra 100 ft Stainless Steel Garden Hose. This manual provides essential information for the safe and effective use, maintenance, and storage of your new garden hose. Please read these instructions carefully before first use and retain them for future reference.

2. SAFETY INSTRUCTIONS

- Always turn off the water supply at the faucet and release pressure from the hose before disconnecting or changing attachments.
- Do not drink water from the garden hose. It is not intended for potable water use.
- Do not leave the hose under pressure when not in use. This can prolong the life of the hose and prevent accidental leaks.
- Keep the hose away from sharp objects or extreme heat sources to prevent damage to the inner PVC tube.
- Ensure all connections are tight to prevent leaks. Use thread seal tape if necessary.
- Supervise children and pets when the hose is in use.

3. SETUP

1. **Unpack the Hose:** Carefully remove the Yofidra Stainless Steel Garden Hose and included spray nozzle from its packaging.
2. **Connect to Water Source:** Attach the 3/4" top grade connector of the hose to your outdoor water faucet. Hand-tighten until secure. Ensure the internal washer is properly seated to prevent leaks.
3. **Attach Spray Nozzle:** Connect the multi-pattern spray nozzle to the other end of the garden hose. Hand-tighten until secure.

Upgrade Pressure-resistant Connector

Enlarged diameter of outlet to allow larger water flow

Figure 3.1: The pressure-resistant connector features a 3/4" top grade connector, a stainless steel protective outer pipe, and a thickened PVC inner tube for durability and smooth water flow. An ON/OFF switch is integrated for convenience.

IT CAN ENSURE SMOOTH WATER FLOW

The water flows smoothly due to the steel outer pipe and the thickened PVC inner pipe. It has smooth water flow even with twists and also ensures sufficient water pressure

Figure 3.2: The hose features a thickened inner tube to ensure adequate flow and water pressure, protected by a 304 sturdy stainless steel outer pipe for flexibility and anti-rust properties.

Video 3.1: This video demonstrates the unboxing and initial setup of the Yofidra Stainless Steel Garden Hose, including connecting it to a water source and attaching the spray nozzle.

4. OPERATING INSTRUCTIONS

1. **Turn on Water:** Slowly turn on the water supply at the faucet.
2. **Adjust Spray Pattern:** Rotate the bezel on the spray nozzle to select your desired spray pattern (e.g., Soaker, Full, Angle, Cone, Mist, Shower, 1/2 Vert, Flat, Center, Jet).
3. **Control Water Flow:** Use the switch on the nozzle handle to control the water flow (ON/OFF) and adjust pressure.
4. **Begin Watering/Cleaning:** Direct the water flow as needed for gardening, cleaning, or pet bathing.
5. **Turn off Water:** When finished, turn off the water supply at the faucet first, then release any remaining pressure from the hose by squeezing the nozzle trigger until water stops flowing.

Figure 4.1: The included spray nozzle offers 10 distinct spray patterns, easily selected by rotating the head. It also features a switch to control water flow and an extended grip for comfortable use.

Figure 4.2: The Yofidra garden hose is suitable for various tasks including house cleaning, pet bathing, car washing, and garden watering.

5. MAINTENANCE

- **Draining:** After each use, ensure all water is drained from the hose. This is especially important in colder climates to prevent freezing and damage.
- **Storage:** The flexible stainless steel design allows for easy coiling and storage. Store the hose in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cleaning:** Wipe down the exterior of the hose with a damp cloth as needed to remove dirt and debris.
- **Inspecting Connections:** Periodically check the hose connections for wear or damage. Replace washers if they appear worn to maintain a watertight seal.

KINK FREE & Flexibility

Figure 5.1: The Yofidra hose is designed to be kink-free and flexible, making it easy to untangle and roll up for tidy storage.

METAL GARDEN HOSE

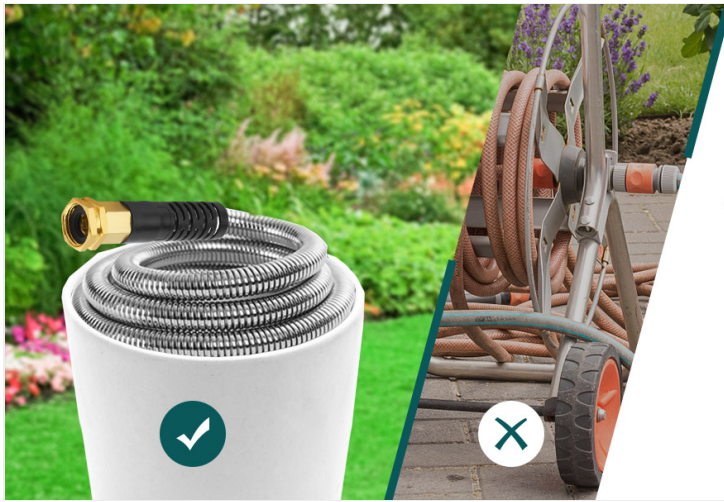

Figure 5.2: The hose's flexibility allows for easy organization and storage, such as coiling it into a small basket, avoiding the mess of traditional hoses.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Water leaks from connections	Loose connection, worn washer, damaged threads.	Tighten connections. Inspect and replace rubber washers if worn. Use thread seal tape on faucet threads if needed.
Low water pressure	Partially closed faucet, kink in hose (unlikely with this design), debris in nozzle.	Ensure faucet is fully open. Check nozzle for blockages and clean if necessary.
Hose appears damaged (e.g., inner tube puncture)	Extreme force, sharp objects, manufacturing defect.	While the stainless steel outer layer provides significant protection against thorns and crushing, severe damage can still occur. If the inner tube is punctured, the hose may need replacement.

Figure 6.1: The Yofidra hose is designed for crush resistance, wear resistance, to be pet proof, and thorn proof, enhancing its durability in various garden environments.

EASY TO STORE AND ORGANIZE DUE TO FLEXIBILITY

Stainless steel hose is much easy to
roll up into a small basket
No more twists and tangles

Figure 6.2: The strong steel and thickened inner tube are designed to prevent thorns from piercing the water pipe, reducing the likelihood of leaks.

7. SPECIFICATIONS

- **Brand:** Yofidra
- **Model:** B0CG646LC2
- **Material:** Polyvinyl Chloride (PVC), Stainless Steel
- **Color:** Silver
- **Product Dimensions:** 1200"L x 0.63"W (100 ft length, 0.63 inches outside diameter)
- **Item Weight:** 9 Pounds
- **Maximum Pressure:** 150 Pound per Square Inch

8. WARRANTY AND SUPPORT

For warranty information or technical support, please refer to the product packaging or contact Yofidra customer service through the retailer where the product was purchased. Please have your model number (B0CG646LC2) and purchase date available when contacting support.
