Maintenance

- **Slime Storage:** Always store unused slime in the crystal shaker or another airtight container to prevent it from drying out. Ensure all slime is removed from accessories before storing them separately.
- **Cleaning Doll:** Wipe the doll with a damp cloth if it gets dirty. Avoid harsh chemicals.
- **Cleaning Accessories:** Clean accessories with a damp cloth. If slime residue remains, gently wash with warm water and mild soap.

Troubleshooting

- **Slime is too sticky/runny:** Ensure correct water-to-powder ratio as per specific instructions. If too sticky, try adding a tiny pinch of baking soda. If too runny, let it sit longer or add a very small amount of additional slime powder.
- **Glitter residue:** The shimmer powder may leave some glitter residue. This is normal. Clean hands and surfaces with soap and water. Consider using less shimmer powder if excessive glitter is a concern.
- **Slime leaking from accessories:** Ensure accessories are closed tightly after filling with slime. Remove all slime from accessories when not actively playing to prevent accidental leaks or drying.
