

IREDOON MC-05

IREDOON MC-05 Dog Nail Grinder User Manual

Professional 3-Speed Electric Pet Nail Trimmer

Model: MC-05 | Brand: IREDOON

1. INTRODUCTION

Thank you for choosing the IREDOON MC-05 Dog Nail Grinder. This electric pet nail trimmer is designed to provide a safe, quiet, and efficient grooming experience for your beloved pets. Featuring multiple speed settings, various grinding ports, and integrated LED lights, it ensures precise and comfortable nail care for dogs of all sizes.

2. PRODUCT FEATURES

- **LED Display Screen:** Monitors battery level and speed settings for convenience.
- **4 LED Lights:** Illuminates the nail to clearly show the quick, preventing accidental injury.
- **3 Speed Switch & Grinding Ports:** Adjustable speeds (6000, 8000, 10000 RPM/Min) and three grinding ports accommodate various pet sizes and nail hardness.
- **Low Noise & Vibration:** Operates at a whisper-quiet 40dB, reducing pet anxiety during trimming.
- **Durable Diamond Grinding Head:** Long-lasting and replaceable, designed for efficient and safe grinding.
- **USB-C Rechargeable:** Cordless operation with a 3-hour charge time providing up to 12 hours of working time.

2,000,000+ HAPPY PETS LOVES.

The LED display screen provides real-time information on battery level and selected speed.

Four integrated LED lights ensure clear visibility of the pet's nail quick for safe trimming.

3. SETUP

3.1 Charging the Device

Before first use, fully charge the nail grinder. Connect the provided USB-C cable to the charging port on the device and to a compatible USB power adapter (not included). The LED display will indicate charging status. A full charge takes approximately 3 hours and provides up to 12 hours of continuous use.

The device features convenient USB-C charging and an LED display for battery monitoring.

3.2 Selecting the Correct Grinding Port

The IREDOON MC-05 features three grinding ports suitable for different nail sizes:

- **Port A (Small):** For small animals with thin nails.
- **Port B (Medium):** For medium-sized nails.
- **Port C (Large/No Guard):** For wide and thick nails, or for faster grinding.

Rotate the protective cap to align the desired port with the grinding wheel. For very large or thick nails, the cap can be removed entirely.

EFFECTIVELY COLLECTS NAILGRINDING DUST

- 🐾 Unique dustproof cover design, able to catch most of the nail dust.
- 🐾 Transparent dust cover for easy cleaning of nail dust after polishing.

Choose from three grinding ports to match your pet's nail size and hardness.

4. OPERATING INSTRUCTIONS

4.1 Power On/Off and Speed Adjustment

1. Press the power button to turn the device on. The LED lights will automatically activate.
2. Press the speed button to cycle through the three speed settings: Low (6000 RPM/Min), Medium (8000 RPM/Min), and High (10000 RPM/Min). Select the appropriate speed based on your pet's comfort and nail hardness.
3. To turn off the device, press the power button again.

4.2 Grinding Technique

For best results and to ensure your pet's comfort, follow these steps:

- **Acclimatization:** Allow your pet to get used to the sound and vibration of the grinder before starting. Offer treats and praise.
- **Positioning:** Gently hold your pet's paw and separate the toes to expose the nail.

- **Grinding:** Place the nail gently into the chosen grinding port. Apply light pressure and grind for no more than 5 seconds at a time per nail to prevent heat buildup and discomfort.
- **Using LED Lights:** Utilize the 4 LED lights to clearly see the quick (the pink part of the nail containing blood vessels and nerves) and avoid grinding too far, which can cause pain and bleeding.
- **Smoothing:** After shortening the nail, use the grinder to smooth any rough edges.

WHISPER QUIET TRIMMING & ULTRA-LIGHT VIBRATION

QUALITY GRINDER

+VET+ RECOMMENDED

Other Grinders	Quiet Office	Iredoon grinder	Fallen Leaves
80db	60db	30-40db	10db

The low noise and vibration design helps keep pets calm during grooming.

5. MAINTENANCE

5.1 Cleaning the Grinding Head

Regular cleaning ensures optimal performance and hygiene:

1. Turn off the device.
2. Gently twist and remove the protective cap.
3. Use a soft cloth or small brush to remove any nail dust or debris from the grinding head and inside the cap.
4. Reattach the protective cap securely.

The unique dustproof cover design helps collect nail dust for easy cleaning.

5.2 Replacing the Grinding Head

The diamond grinding head is designed for durability, lasting up to 1 year with regular use. Replacement grinding wheels are available. To replace:

1. Ensure the device is off and unplugged.
2. Remove the protective cap.
3. Carefully pull the old grinding head straight off the shaft.
4. Align the new grinding head with the shaft and push it firmly into place.
5. Reattach the protective cap.

POWERFUL MOTOR

With Low Noise and Vibration

The durable diamond grinding head is designed for long-lasting performance.

6. TROUBLESHOOTING

- **Device not turning on:** Ensure the device is fully charged. If the issue persists, contact customer support.
- **Grinding is slow or ineffective:** Check if the grinding head is clogged with nail dust and clean it. Ensure the device is fully charged. The grinding head might need replacement if it's worn out.
- **Pet shows discomfort:** Start with the lowest speed setting. Ensure you are not grinding for too long in one spot (max 5 seconds). Use the LED lights to avoid the quick. Gradually introduce your pet to the device with positive reinforcement.
