6. OPERATION

Drawers:

- The two large drawers feature a soft-close system. Gently push the drawers to close them, and they will retract smoothly and quietly.
- The top drawer has a U-shaped cutout to accommodate the sink's plumbing, maximizing usable storage space.

Faucet and Drain:

- The matte black faucet operates with a single lever for controlling water temperature and flow.
- The included drain is a push-down type. Press once to close the drain and retain water in the

sink, press again to open and allow water to drain.

- An overflow hole is integrated into the sink to prevent accidental spills if the drain is closed and the faucet is left running.

7. MAINTENANCE

Regular cleaning and proper care will ensure the longevity and appearance of your vanity.

- **Cleaning Surfaces:** The MDF board with its plastic-type finish is easy to clean. Use a soft, damp cloth and mild soap. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Sink Care:** Clean the ceramic sink regularly with non-abrasive cleaners to maintain its smooth, bright surface.
- **Faucet Care:** The matte black finish is designed to resist fingerprints. Clean with a soft cloth and mild soap. Avoid harsh chemicals to preserve the finish.
- **Water Exposure:** While designed for humid environments, wipe away standing water from surfaces promptly to prevent potential damage.
- **Drawer Slides:** Periodically check the soft-close drawer slides for smooth operation. If needed, clean any debris and apply a silicone-based lubricant.

8. TROUBLESHOOTING

If you encounter any issues with your eclife vanity, please refer to the following common solutions:

- **Leaking Faucet/Drain:** Check all plumbing connections for tightness. Ensure Teflon tape or plumber's putty was used correctly during installation.
- **Drawers Not Closing Smoothly:** Verify that the drawer slides are properly aligned and free of obstructions. Ensure the soft-close mechanism is not damaged.
- **Water Pressure Issues:** Check the water supply lines and faucet aerator for any blockages.
- **Vanity Not Level:** Ensure the wall mounting brackets are installed correctly and the vanity is level. Adjust as necessary.
