3. PACKAGE CONTENTS

Verify that all items are present in the package:

- 2 x EnjoyNest Rechargeable Hand Warmer Units
- 1 x USB Charging Cable (with dual Type-C outputs for simultaneous charging)
- 1 x User Manual

4. SETUP

4.1 Initial Charging

Before first use, fully charge both hand warmer units. The charging time is approximately 5 hours.

1. Locate the Type-C charging port on each hand warmer unit. This port is typically covered by a protective cap.
2. Connect the provided USB charging cable to a power source (e.g., USB wall adapter, power bank, laptop, car charger).
3. Connect the two Type-C ends of the cable to the charging ports on each hand warmer unit.
4. The digital display on each unit will show the charging progress. Once 100% is displayed, the units are fully charged.
5. Disconnect the charging cable and securely close the protective caps over the charging ports.

5. OPERATING INSTRUCTIONS

Image 5.1: Overview of the control buttons and indicators for power, temperature, and flashlight functions.

5.1 Hand Warmer Operation

- Turn On/Off:** Long press the power button for approximately 3 seconds to activate or deactivate the hand warming function. The digital display will show the current temperature setting.
- Change Temperature:** Once the hand warming function is active, single-click the power button to cycle through the three temperature levels: 113°F (Low), 122°F (Medium), and 131°F (High). The indicator lights will change accordingly (e.g., one light for low, three for high).

5.2 Power Bank Operation

Each hand warmer unit can function as a power bank to charge other devices.

- Locate the USB-A discharge port on the unit (under the protective cap).
- Connect your device's charging cable to the USB-A port on the hand warmer.
- The hand warmer will automatically begin charging your device. The digital display will show the remaining battery percentage.

6. MAINTENANCE

- **Cleaning:** Wipe the device with a soft, dry cloth. Do not use abrasive cleaners or immerse the device in water.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures. If storing for an extended period, charge the units to approximately 50% every 3 months to maintain battery health.
- **Avoid Drops:** While durable, avoid dropping the device, especially on hard surfaces, to prevent internal damage.

7. TROUBLESHOOTING

- **Device Not Turning On:** Ensure the device is sufficiently charged. Connect it to a power source and allow it to charge for at least 30 minutes before attempting to power it on again.
- **Hand Warmer Not Heating:** Check the battery level. If low, recharge the device. Ensure the hand warming function is activated by long-pressing the power button.

- **Flashlight Not Working:** Double-click the power button to activate the flashlight. If it still doesn't work, ensure the device has sufficient charge.
- **Device Not Charging Other Devices:** Ensure the hand warmer has enough charge. Verify that the charging cable is securely connected to both the hand warmer's USB-A port and your external device.
- **Overheating:** The AI Smart Safety Chip is designed to prevent overheating. If the device feels excessively hot, turn it off immediately and allow it to cool down before further use.
