TROUBLESHOOTING

If you encounter issues with your cabinet, consider the following common solutions:

- **Cabinet Instability:** If the cabinet feels wobbly, ensure it is properly anchored to the wall as described in the Safety Information and Setup sections. Check that all assembly screws are tightened. Ensure the floor surface is level; use furniture glides or shims if needed.
- **Door Not Closing/Opening Smoothly:** Check the "Push-to-Open" mechanism for any obstructions. Ensure the door hinges are correctly aligned and tightened. Minor adjustments to hinges can often resolve alignment issues.
