Bracketron BT1-958-2

Bracketron TripGrip Series Cell Phone Mount and Cup Holder Expander

Model: BT1-958-2

INTRODUCTION

This manual provides instructions for the proper setup, operation, and maintenance of your Bracketron TripGrip Series Cell Phone Mount and Cup Holder Expander. Please read these instructions carefully before use to ensure safe and effective functionality.

WHAT'S INCLUDED

Verify that all components are present in the package:

- TripGrip Mount (phone holder)
- Flexible Mount Arm
- Expandable Cup Holder Base
- Instruction Manual

What's Included

Figure 1: Package Contents. The image displays the TripGrip Mount, Flexible Mount Arm, Expandable Cup Holder Base, and the instruction manual, indicating all items included in the product packaging.

SETUP INSTRUCTIONS

1. **Assemble the Mount:** Attach the flexible mount arm to the expandable cup holder base. Ensure it is securely fastened. Then, attach the TripGrip phone holder to the top of the flexible arm.
2. **Install in Cup Holder:** Place the expandable cup holder base into your vehicle's cup holder. Rotate the base to expand the silicone-padded support legs, ensuring a snug and stable fit. The base is designed to fit most standard cup holders up to 3.75 inches in diameter.

Figure 2: Expandable Base Installation. This image demonstrates how the cup holder base expands to fit various car cup holder sizes, showing both the compact and expanded states for secure placement.

OPERATING INSTRUCTIONS

- 1. Insert Your Device:** Press the one-button release on the TripGrip mount to open the arms. Place your smartphone or GPS unit into the holder and release the button to secure it. The mount accommodates devices from 4 to 7 inches, with or without cases, and features an extra deep grip up to 1 inch thick.
- 2. Adjust Viewing Angle:** The flexible arm allows for precise positioning. The phone holder features 360-degree rotation, enabling you to switch between portrait and landscape orientations for optimal viewing.
- 3. Utilize Cup Holder Expander:** The integrated cup holder expander can securely hold beverages while your phone is mounted, ensuring no compromise on space.

Figure 3: Adjustable Design. This illustration highlights the mount's flexibility, demonstrating how the long neck, phone holder, and base can be rotated 360 degrees for customized viewing angles.

Figure 4: Wide Adjustable Arms. The image details the phone holder's adjustable arms, capable of securing devices up to 3.7 inches in width, and points out the flip-out foot for enhanced stability.

EXTRA DEEP GRIP
UP TO 1" THICK

4" - 7"

Works with all phones and cases

MAINTENANCE

- **Cleaning:** Wipe the mount with a soft, damp cloth as needed. Avoid using harsh chemicals or abrasive cleaners.
- **Check Security:** Periodically check that the cup holder base is securely tightened in your vehicle's cup holder to prevent loosening during driving.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Mount wobbles or feels unstable.	Cup holder base not fully expanded or secured.	Rotate the cup holder base to expand the support legs until it fits snugly in your vehicle's cup holder. Ensure the silicone padding makes firm contact.
Phone is not held securely.	Phone holder arms not fully closed or device is too large/small.	Ensure the one-button release mechanism is fully engaged after inserting the phone. Verify your device size is within the 4-7 inch compatibility range.
Arm does not hold position.	Flexible arm or ball joint not tightened.	Tighten any adjustable knobs or collars on the flexible arm and ball joint to secure the desired position.
