ELITUN EP-001

ELITUN EP-001 Star Projector Instruction Manual

Model: EP-001

1. Introduction

Thank you for purchasing the ELITUN EP-001 Star Projector. This device is designed to transform your space with captivating celestial projections, offering a relaxing ambiance with its integrated Bluetooth speaker and white noise functions. Please read this manual carefully to ensure proper setup and operation.

2. Safety Information

- Do not look directly into the projection lens to avoid eye strain.
- Keep the device away from water or other liquids to prevent electric shock.
- Do not disassemble or attempt to repair the device yourself. Contact customer support for assistance.
- Ensure the device is placed on a stable, flat surface.
- Use only the provided power adapter.

3. Package Contents

- ELITUN EP-001 Star Projector
- Remote Control
- USB Power Cable
- 10 Projection Films
- Instruction Manual (this document)

4. Setup

4.1 Inserting Projection Films

1. Pull out the slide slot located on the side of the projector.
2. Place your desired projection film into the slot with the flat side facing up.
3. Push the slide slot back into the projector until it clicks into place.

This image illustrates the four steps for inserting a projection film: pulling out the slot, placing the film flat side up, pushing the slot back in, and rotating the focus knob.

4.2 Powering On

Connect the USB power cable to the DC 5V port on the projector and plug the other end into a compatible USB power adapter (not included) or a USB port. Press the power button to turn on the projector.

4.3 Adjusting Focus

To achieve a clear projection, rotate the focusing head on the top of the projector slowly until the projected image is sharp and clear on your desired surface (ceiling, wall, or floor).

This image demonstrates the process of adjusting the focus knob to sharpen the projected image, showing a 'Before Focus' blurry image and an 'After Focus' clear image.

4.4 Product Operation Video

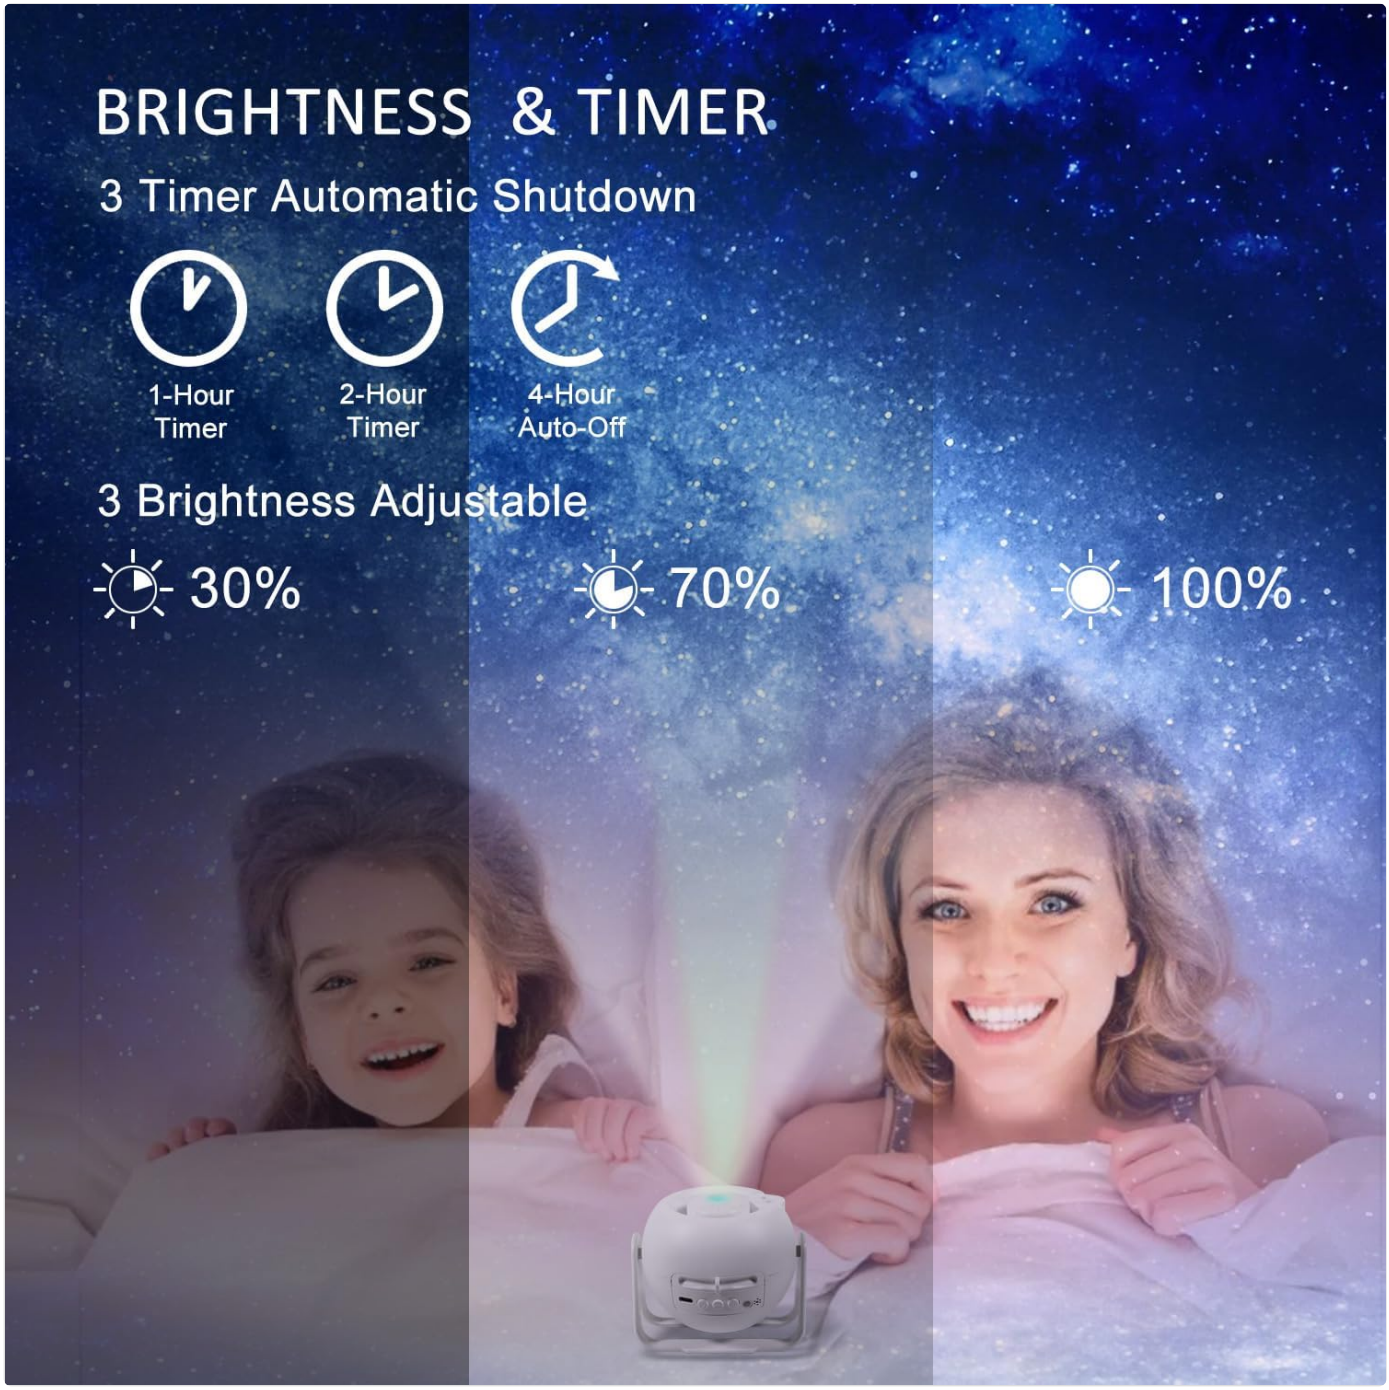

Your browser does not support the video tag.

This video provides a visual guide on how to use the ELITUN Star Projector, demonstrating various functions and settings.

5. Operating Instructions

5.1 Projection Patterns

The projector comes with 10 switchable films, offering various scenarios such as Celestial Planet, Milky Way, Starry Sky, Blackbody Vortex, Moon, Earth, Flower World, and Sea World. Change films as described in Section 4.1.

This image showcases the variety of 10 switchable films included with the projector, each depicting a unique celestial or natural scene.

5.2 Adjusting Brightness

Press the brightness button (often indicated by a sun icon) on the projector or remote control to cycle through 3 brightness levels: 30%, 70%, and 100%.

This image visually explains the three adjustable brightness levels (30%, 70%, 100%) and the automatic shutdown timer options (1-hour, 2-hour, 4-hour auto-off).

5.3 Controlling Rotation

After inserting a slide and turning on the projector, press the power button once to start the rotation of the projected pattern. Press it again to stop the rotation. Press and hold the power button for one second to turn off the power.

5.4 Bluetooth Speaker Function

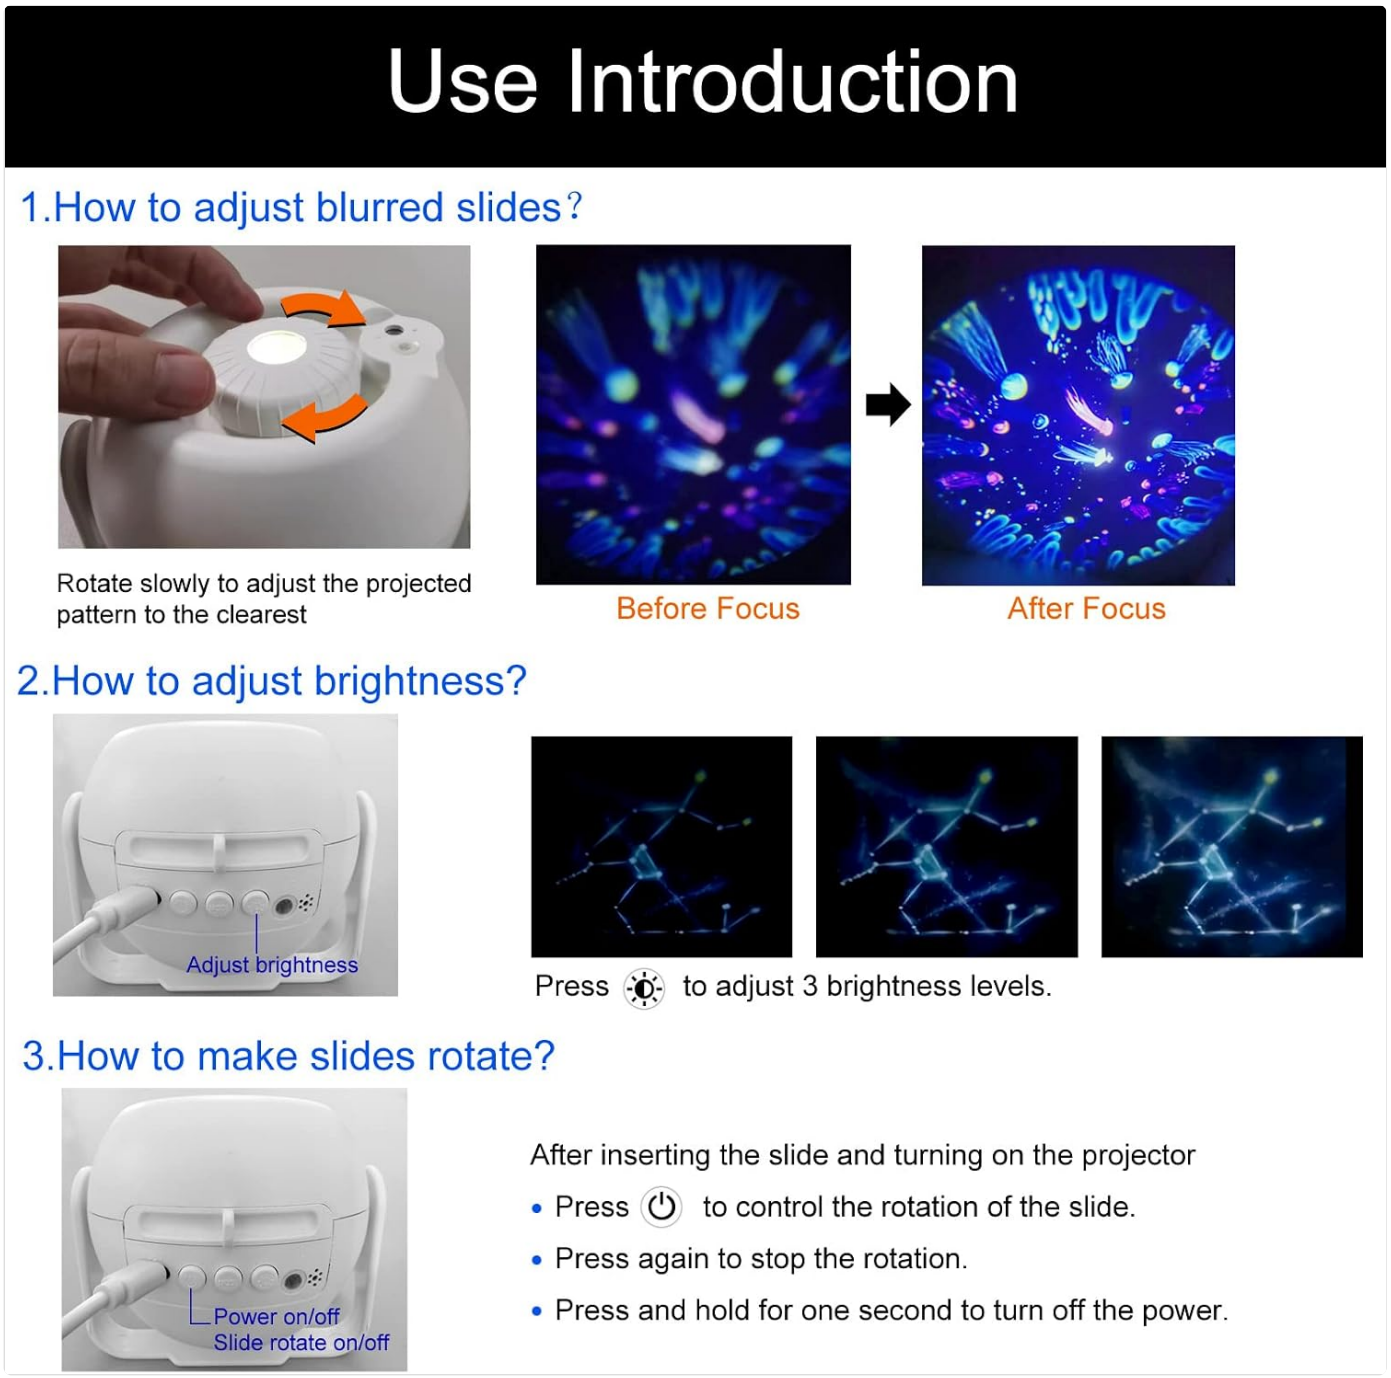

The projector features a built-in Bluetooth 5.0 speaker. To connect, enable Bluetooth on your device and search for "CT12". Once connected, you can play music through the projector's speaker and control volume and track selection via your device or the remote control.

This image highlights the Bluetooth 5.0 speaker feature, showing the projector playing music from a connected smartphone.

5.5 White Noise Function

The projector includes 3 soothing white noise sounds: Rain, Running Water, and Ocean Wave Seagull. These can be selected to enhance relaxation or aid sleep.

This image illustrates the sleeping music feature, combining white noise sounds with the Bluetooth speaker for a comfortable and relaxing experience.

5.6 Auto-Off Timer

Utilize the auto-off timer function to set the projector to automatically turn off after 1 hour, 2 hours, or 4 hours (default setting). This feature is convenient for use during sleep.

This image highlights the timed shutdown feature, offering 1-hour, 2-hour, and 4-hour (default) automatic turn-off options, powered by a USB plug.

5.7 Remote Control

The included remote control allows for convenient operation of all functions, including power on/off, changing scenes, adjusting brightness, controlling rotation, and managing music playback.

This image features the remote control, indicating its use for convenient operation of the projector's various functions.

5.8 Focusing Star Projector Video

Your browser does not support the video tag.

This video demonstrates the focusing capabilities and various projection patterns of the ELITUN Star Projector.

6. Maintenance

- Clean the projector lens and exterior with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- Store the projector in a cool, dry place when not in use.
- Handle projection films carefully to avoid scratches or damage.

7. Troubleshooting

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Projector does not turn on.	No power connection.	Ensure the USB cable is securely connected and the power adapter is working.
Projected image is blurry.	Focus not adjusted.	Rotate the focusing head on top of the projector until the image is clear.
Projection pattern is not rotating.	Rotation function is off.	Press the power button once to activate rotation.
Bluetooth not connecting.	Device not in pairing mode or incorrect name.	Ensure Bluetooth is enabled on your device and search for "CT12".
