

SMALLRIG 3646

SMALLRIG Teleprompter 3646 User Manual for iPad/Tablet (up to 11-inch)

Model: 3646 | Brand: SMALLRIG

[Setup](#) [Operation](#) [Maintenance](#) [Troubleshooting](#) [Specifications](#) [Support](#)

INTRODUCTION

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your SMALLRIG Teleprompter Model 3646. This device is designed to assist with video recording and live broadcasting by displaying text for the presenter, ensuring direct eye contact with the camera. It is compatible with iPads and tablets up to 11 inches and requires a 15mm LWS baseplate for proper setup.

SETUP AND INSTALLATION

Follow these steps to correctly assemble and install your teleprompter. A 15mm LWS rod support system is required for stable mounting and to protect your camera's lens mount.

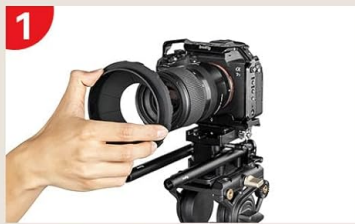

Required Components:

- SMALLRIG Teleprompter 3646
- 15mm LWS Rod Support System (e.g., SMALLRIG ID: 2092B / 3067, sold separately)
- Compatible iPad or tablet (up to 11 inches)
- Camera (DSLR, Mirrorless, or Camcorder)

Installation Steps:

1. **Install the Silicone Cover:** Attach the appropriate silicone cover to your camera lens. This cover supports lenses with diameters between 49mm and 95mm.

Installation Introduction

1
Install the silicone cover to the lens

2
Install the iPad stand and 15mm LWS support

3
Install the clamp-on back 95mm

4
Lock clamp-on back 95mm via the knob

5
Adjust the height with a knob

6
Hold down the button to extend the iPad stand further

7
Align the clamp-on back 95mm and mount the Matte Box

8
Adjust the angle of the top flag via the knob

9
Mount the iPad to the iPad stand

2. **Assemble iPad Stand and 15mm LWS Support:** Connect the iPad stand to the 15mm LWS support system.

Presenting Captions in High Definition

Adjustable top flag and filter frame (no filter included)
to prevent outdoor glares

* Equipped with a top flag
and a slot for the filter.

Image: Components of the iPad stand and 15mm LWS support being connected.

3. **Install the Clamp-on Back 95mm:** Secure the clamp-on back (95mm) to the assembly.

Shot What You Want

No vignetting for focal lengths $\geq 22\text{mm}$; readable distance exceeds 5m when using an 10.9" iPad

Image: A hand installing the 95mm clamp-on back onto the teleprompter frame.

4. **Lock Clamp-on Back:** Use the knob to firmly lock the 95mm clamp-on back in place.

Adjustable Silicone Cover to Fit Different Size Lenses

Compatible with lenses with an O.D. of $\leq 95\text{mm}$

Image: A hand tightening a knob to secure the clamp-on back.

5. **Adjust Height:** Adjust the height of the teleprompter assembly using the designated knob to align with your camera lens.

Elevate Lens Mount Safety

Used with 15mm rod support system to protect the lens mount

* Effortlessly adjust your lens centering via the knob. Secure the 15mm rod via another knob .

Recommended Baseplate

ID: 3067

ID: 2092B

6. **Extend iPad Stand:** Press and hold the button to extend the iPad stand to its desired length.

Instructions for Remote Control Buttons

SmallGoGo APP supports PDF / TXT / Word format file and image

Steps:

Setings → Accessbilty → Touch
→ Assistivefouch → Tum on

Image: A hand pressing a button to extend the iPad stand horizontally.

7. **Align and Mount Matte Box:** Align the clamp-on back (95mm) and mount the matte box onto the teleprompter.

Save More Time with the Updated APP

SmallGoGo APP offers a fast and precise text extraction feature, compatible with PDF, TXT, Word format files, and images, efficiently retrieve text content

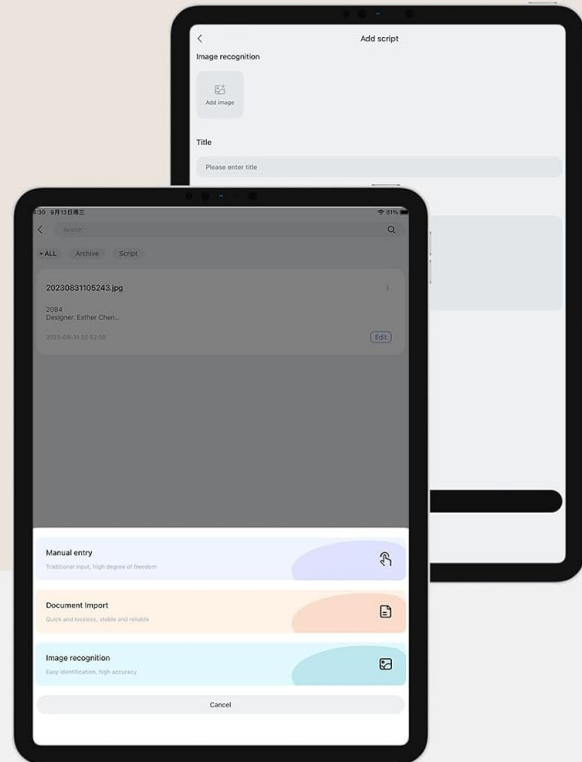

Image: A hand aligning the matte box with the teleprompter unit.

8. **Adjust Top Flag Angle:** Adjust the angle of the top flag using its dedicated knob to prevent glare.

Adapter Ring for the Lens

It is recommended to use it with an adapter ring.

! Please Note

The teleprompter must be used with dual rod system, which protects the lens and prevents accidental falling of the device.

Image: A hand adjusting the top flag on the teleprompter.

9. **Mount iPad:** Securely mount your iPad or tablet onto the extended iPad stand.

Image: An iPad being placed into the teleprompter's tablet holder.

Lens Compatibility and Protection:

The teleprompter includes a silicone cover for direct lens mounting, compatible with lenses having an outer diameter between 49mm and 95mm. For optimal stability and lens mount protection, it is mandatory to use this teleprompter with a 15mm LWS rod support system. This system alleviates pressure from the camera lens mount.

Image: Visual representation of the adjustable silicone cover fitting various lens sizes up to 95mm outer diameter.

Image: The teleprompter assembly mounted on a 15mm LWS rod support system, highlighting lens mount safety. An adapter ring kit is included for SmallRig Matte Box models 3575, 3196, 3680, 3556, 3645, and 5011. Additional adapter ring kits (ID: 3383) for 52-95mm lenses may be purchased separately if needed.

Image: A visual guide to adapter ring sizes for different lenses, indicating included and separately sold kits.

OPERATION

The SMALLRIG Teleprompter 3646 is designed for use with iPads and tablets up to 11 inches, providing a clear display for scripts during recording or live streaming. It is not compatible with smartphones.

SmallGoGo App Control:

The SmallGoGo App is essential for operating the teleprompter. It is available on both the Apple App Store and Android Market. The app allows you to:

- Extract text from PDF, picture, Word, and TXT files.
- Edit extracted text for teleprompter display.
- Control script scrolling and playback.

Image: Screenshots of the SmallGoGo app demonstrating text extraction from various file formats and image recognition. The app supports multi-language mixed recognition with high accuracy, including English (98%), Chinese (97%), Japanese (90%), and Korean (90%). It supports 96 languages and automatic language detection.

Remote Control Usage:

The included remote control allows for convenient operation of the SmallGoGo App features. Ensure the remote is paired with your tablet.

Image: A hand holding the remote control, with labels indicating button functions: Scroll up, Play/Pause, Scroll down, Play/Pause.

To enable remote control functionality, navigate to your tablet's settings:

- Settings → Accessibility → Touch → AssistiveTouch → Turn on

Optimizing Display:

The teleprompter features an adjustable top flag and a filter frame (filters not included) to prevent outdoor glare and ensure clear caption presentation. No vignetting will occur when the focal length is 22mm or greater. The recommended reading distance is within 5 meters (16.4 feet) for optimal clarity, especially when using a 10.9-inch iPad.

Image: A split image demonstrating no vignetting when using the teleprompter with appropriate focal lengths.

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your SMALLRIG Teleprompter.

- **Cleaning:** The lens hood features a modular design, allowing for quick release to facilitate cleaning of

the reflective glass and internal components. Use the provided cleaning cloth or a soft, lint-free cloth for cleaning. Avoid abrasive materials or harsh chemicals.

- **Storage:** When not in use, store the teleprompter in its included carrying bag to protect it from dust, scratches, and impacts.
- **Handling:** Handle the teleprompter with care, especially the reflective glass, to prevent damage.

TROUBLESHOOTING

If you encounter issues with your SMALLRIG Teleprompter, consider the following common solutions:

- **Text Not Displaying Clearly:**
 - Ensure the iPad/tablet is securely mounted and positioned correctly.
 - Check the brightness settings on your iPad/tablet.
 - Adjust the top flag to minimize glare from ambient light.
 - Verify that the script text in the SmallGoGo app is formatted for readability.
- **Vignetting (Dark Corners in Video):**
 - Confirm your camera lens focal length is 22mm or greater.
 - Ensure the teleprompter is correctly aligned with the lens and the silicone cover is properly seated.
 - Check that the 15mm LWS baseplate is securely attached and providing proper support.
- **Remote Control Not Working:**
 - Ensure the remote control has fresh batteries.
 - Verify that the remote is properly paired with your iPad/tablet via Bluetooth.
 - Confirm that AssistiveTouch is enabled in your tablet's accessibility settings (Settings → Accessibility → Touch → AssistiveTouch → Turn on).
 - Restart both the remote and the SmallGoGo app.
- **Tablet Not Fitting:**
 - Confirm your tablet is an iPad or another tablet up to 11 inches. Smartphones are not compatible.
 - Ensure the iPad stand is fully extended as per installation step 6.

If problems persist, please refer to the support section for contact information.
