## VIDCASTIVE L10

# VIDCASTIVE L10 4K WiFi Body Camera Instruction Manual

Model: L10

## PRODUCT OVERVIEW

---

The VIDCASTIVE L10 4K WiFi Body Camera is a portable body-worn camera designed for capturing high-quality video and audio in various scenarios. It features a 180° rotatable lens, 4K UHD resolution, night vision capabilities, and seamless WiFi connectivity for easy file management.

The VIDCASTIVE L10 4K WiFi Body Camera, showcasing its compact design.

### Key Features:

- **Crystal Clear 4K UHD Resolution:** Capture crisp and sharp 4K (3840x2160, 30 fps) videos with a 180° rotatable lens and 150° wide-angle view, ensuring no color distortion with IR-Cut technology.
- **Seamless Connectivity with WiFi Functionality:** Toggle the camera's WiFi hotspot on or off and use the free mobile app to access, view, and download recorded files instantly.
- **User-Friendly Visual Interface:** Features a 1.3" colorful display for easy navigation, real-time preview, and playback options.
- **Auto Night Vision:** Equipped with an intelligent auto night vision function, automatically detecting low-light conditions and activating infrared LEDs for exceptional night-time recording.
- **Long-lasting and Efficient:** A powerful 2000mAh battery offers 6 hours of continuous recording time. Motion Detection and Loop Recording features enhance efficiency. Built-in 64GB MicroSD card provides ample storage.

The VIDCASTIVE L10 4K WiFi Body Camera and its included accessories.

- 4K Body Camera (L10)
- 64G MicroSD Card (pre-installed)
- User Manual
- USB Type-C Cable
- USB Card Reader
- Reset Pin

## SETUP

---

## **1. Initial Charging**

Before first use, fully charge the camera using the provided USB Type-C cable. Connect the cable to the camera's charging port and a compatible USB power adapter (5V/2A recommended). A full charge typically takes approximately 2.5 hours.

## **2. Memory Card**

The camera comes with a built-in 64GB MicroSD card. It is recommended to format the memory card through the camera's settings menu before initial use to ensure optimal performance and compatibility.

## **3. Attaching the Back Clip and Mounts**

The camera includes a removable back clip and features a universal tripod interface for versatile mounting options.

# Removable Back Clip

## Universal Tripod Interface

The removable back clip and universal tripod interface allow for flexible attachment.

- To attach the back clip, align it with the grooves on the camera's rear and slide it into place until it clicks securely.
- The universal tripod interface allows attachment to standard tripods or other compatible mounting accessories.

## OPERATING INSTRUCTIONS

### 1. Power On/Off

Press and hold the Power button (usually marked with a power icon) for a few seconds to turn the camera on or off. The 1.3" colorful display will illuminate upon startup.

### 2. Recording Video

Once powered on, the camera typically defaults to video recording mode. Press the Record button (often indicated by a red dot or camera icon) to start and stop recording. The camera captures video in 4K UHD

(3840x2160) at 30 frames per second.

# WiFi Hotspot Connection

Easily access and download recorded files using our user-friendly phone app

Search "Viidure" to  
download and install the App
