1. INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, maintenance, and troubleshooting of your Robern M Series Reserve Frameless Single Door Medicine Cabinet, model MR2440D4FPE2. This cabinet is designed to enhance bathroom storage with its sophisticated profile and versatile features.

The M Series Reserve Collection offers advanced options, organization, and features, including cantilever shelves, slow-close hinges, and various upgrade possibilities.

2. IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before installation and use. Failure to follow these instructions may result in injury or damage to the product.

- Always disconnect power before performing any electrical work or maintenance on models with electrical upgrades.

- Handle glass components with care to prevent breakage and injury.
- Ensure the mounting surface is structurally sound and capable of supporting the cabinet's weight.
- Use appropriate tools and safety gear during installation.
- Keep small parts away from children to prevent choking hazards.

This product is intended for indoor use only in a bathroom environment.

3. PACKAGE CONTENTS

Verify that all components are present before beginning installation. If any parts are missing or damaged, contact Robern customer service.

- Robern M Series Reserve Medicine Cabinet (Model MR2440D4FPE2)
- Adjustable Glass Shelves (4 included)
- Mounting Hardware (specific to recessed installation)
- Instruction Manual

Note: Side kits for semi-recessed or surface-mount installation are sold separately and are not included with this recessed-only model.

4. INSTALLATION (SETUP)

The Robern MR2440D4FPE2 cabinet is designed for **recessed installation only**. Ensure your wall opening meets the required dimensions.

4.1. Dimensions and Requirements

- **Cabinet Width:** 23-1/4 inches (59.06 cm)
- **Cabinet Height:** 39-3/8 inches (100.01 cm)
- **Cabinet Depth:** 4 inches (10.16 cm)
- **Door Swing:** Left only

A rough-in opening slightly larger than the cabinet dimensions is typically required for recessed installation. Consult the detailed installation guide provided with your product for precise rough-in measurements and step-by-step instructions.

4.2. Installation Steps (Overview)

1. Prepare the wall opening according to the detailed installation guide.
2. If applicable, run electrical wiring to the rough-in opening for models with electrical upgrades. Ensure power is off at the circuit breaker.
3. Carefully insert the cabinet into the prepared opening.
4. Secure the cabinet to the wall studs using the provided mounting hardware.
5. Install the adjustable glass shelves.
6. Perform final adjustments to the door and hinges for proper alignment.

5. OPERATION

5.1. Shelf Adjustment

The cabinet features cantilever shelves that conceal adjustment holes, providing a clean, custom-built appearance. To adjust a shelf:

1. Carefully remove any items from the shelf.
2. Lift the shelf slightly and slide it out of its current position.
3. Reinsert the shelf into the desired slots, ensuring it is level and securely seated.

5.2. Slow-Close Hinges

The cabinet is equipped with slow-close hinges to prevent slamming and reduce wear and tear. Simply push the door gently to close, and the hinges will engage to provide a soft, controlled closure.

5.3. Electric Upgrade Options (If Applicable)

If your model includes Electric Upgrade or Electric+ Upgrade options, refer to the specific instructions provided with your cabinet for detailed operation of these features:

- **Sliding Magnification Mirror:** Adjust the mirror's height and position as needed for detailed tasks.
- **Wire Organizer:** Utilize the integrated organizer for cables and small electronic accessories.
- **Interior Lighting:** Operate the interior lighting via the designated switch or sensor.
- **USB Charging Ports & Electrical Outlets:** Use these for charging devices or powering small appliances.
- **Smart Technology Automatic Defogger (Electric+):** This feature automatically monitors and clears moisture from the mirror surface.
- **Programmable Night Light (Electric+):** Set the night light to activate during specific times for safe navigation in the dark.

6. MAINTENANCE

6.1. Cleaning the Cabinet

- **Mirrored Surfaces:** Use a soft, lint-free cloth and a non-abrasive glass cleaner. Spray cleaner onto the cloth, not directly onto the mirror, to prevent liquid from seeping into edges.
- **Aluminum Frame:** Wipe with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Shelves:** Glass shelves can be removed and cleaned with mild soap and water or a glass cleaner. Ensure they are completely dry before reinserting.

Regular cleaning will help maintain the high-quality finish and extend the life of your cabinet.

6.2. Hinge Care

The slow-close hinges are designed for long-term performance. If the door action becomes stiff or noisy, a small amount of silicone-based lubricant can be applied to the hinge points. Do not use oil-based lubricants.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Door does not close properly or is misaligned.	Hinges may need adjustment or are loose.	Refer to the detailed installation guide for hinge adjustment instructions. Tighten any loose screws.
Electrical features (lights, outlets) are not working.	No power supply; loose connection; faulty component.	Check the circuit breaker. Ensure all electrical connections are secure (consult a qualified electrician if unsure). Contact Robern support if the issue persists.

Problem	Possible Cause	Solution
Mirror fogs up (Electric+ model).	Defogger not active or malfunctioning.	Ensure the defogger feature is enabled. If the issue persists, contact Robern support.
Shelves are wobbly.	Shelves not properly seated in the slots.	Remove and reinsert shelves, ensuring they are fully engaged in the cantilever slots.

For issues not listed here, or if solutions do not resolve the problem, please contact Robern customer support.
