

KRIB BLING KB02 FLS-80G

KRIB BLING 3.5 Cu.Ft Double Door Refrigerator with Freezer User Manual

Model: KB02 FLS-80G

1. INTRODUCTION

Thank you for choosing the KRIB BLING 3.5 Cu.Ft Double Door Refrigerator with Freezer. This appliance is designed for efficient and convenient food storage in various settings such as dorms, offices, kitchens, and apartments. This manual provides essential information for safe operation, installation, maintenance, and troubleshooting to ensure optimal performance and longevity of your refrigerator.

2. SAFETY INFORMATION

Please read all safety instructions carefully before using the appliance to prevent injury or damage. Keep this manual for future reference.

- **Electrical Safety:** Ensure the appliance is connected to a properly grounded 120V outlet. Do not use extension cords.
- **Placement:** Place the refrigerator on a stable, level surface. Allow adequate ventilation around the unit (at least 4 inches from walls) to ensure proper cooling and prevent overheating.
- **Flammable Materials:** Do not store explosive substances or flammable materials inside the appliance.
- **Children:** Supervise children to ensure they do not play with the appliance.
- **Defrosting:** Use only recommended methods for defrosting. Do not use sharp objects to remove ice from the freezer compartment.
- **Cleaning:** Unplug the appliance before cleaning. Use mild soap and water; avoid abrasive cleaners.

3. PRODUCT OVERVIEW

The KRIB BLING 3.5 Cu.Ft Double Door Refrigerator features a compact design with separate freezer and refrigerator compartments, offering versatile storage solutions.

Key Features:

- **Total Capacity:** 3.5 Cubic Feet
- **Configuration:** Freezer-on-Top, Double Door
- **Adjustable Thermostat:** 7 levels for precise temperature control
- **Defrost System:** Automatic
- **Shelves:** 2 adjustable glass shelves in the refrigerator compartment
- **Door Storage:** Includes an egg holder and additional compartments

- **Quiet Operation:** Low noise level of 38 Decibels
- **LED Lighting:** Interior LED light for clear visibility

Components:

Familiarize yourself with the main components of your refrigerator:

- **Freezer Compartment:** Top section for frozen items (1.2 Cu.Ft).
- **Refrigerator Compartment:** Bottom section for fresh food (2.3 Cu.Ft).
- **Adjustable Thermostat Dial:** Located inside the refrigerator for temperature settings.
- **Adjustable Glass Shelves:** Can be repositioned or removed to accommodate various item sizes.
- **Door Racks:** For bottles, condiments, and an egg holder.
- **Ice Cube Tray & Scraper:** Included for manual ice making and defrosting assistance.

4. SETUP

Proper setup ensures efficient operation and longevity of your refrigerator.

Unpacking:

- Remove all packaging materials, including foam and adhesive tape.
- Inspect the appliance for any shipping damage. Report any damage immediately to the retailer.

Placement:

- This is a freestanding appliance. Do not recess or build it into a cabinet.
- Place the refrigerator on a firm, level floor that is strong enough to support the unit when fully loaded.
- Allow at least 4 inches (10 cm) of space between the back and sides of the refrigerator and any adjacent walls or cabinets for proper air circulation.
- Avoid placing the appliance in direct sunlight or near heat sources (e.g., stoves, heaters).

Figure 4.1: Product dimensions for planning placement.

Electrical Connection:

- Before plugging in, ensure the voltage (120V) matches your household power supply.
- Plug the appliance into an exclusive, properly grounded wall outlet. Do not use an adapter or extension cord.
- Allow the refrigerator to stand upright for at least 2-4 hours before plugging it in to allow the refrigerant to settle.

5. OPERATING INSTRUCTIONS

Operating your KRIB BLING refrigerator is straightforward. Follow these steps for optimal performance.

Temperature Control:

- The refrigerator features a 7-level adjustable thermostat dial located inside the fresh food compartment.
- Turn the dial to your desired setting. Higher numbers indicate colder temperatures.
- Recommended refrigerator temperature range: 41-50 °F (5-10 °C).
- Recommended freezer temperature range: -0.4-32 °F (-18-0 °C).
- Adjust the setting based on ambient temperature and food load.

Internal Organization:

- **Adjustable Shelves:** The glass shelves in the refrigerator compartment are removable and adjustable. Lift and slide them out to change their position or remove for cleaning.
- **Door Storage:** Utilize the door racks for beverages, condiments, and the integrated egg holder.
- **Freezer:** The top compartment is for freezing items. An ice cube tray and scraper are provided for convenience.

6. MAINTENANCE

Regular maintenance helps keep your refrigerator running efficiently and extends its lifespan.

Cleaning:

- Always unplug the refrigerator before cleaning.
- Clean the interior and exterior surfaces with a soft cloth and a mild detergent solution.
- Wipe down door seals regularly to ensure they remain clean and free of debris, maintaining an airtight seal.
- Remove and clean the adjustable shelves and door racks with warm, soapy water. Rinse thoroughly and dry before returning them to the refrigerator.

Defrosting:

- The refrigerator compartment features an automatic defrost system.
- The freezer compartment may require manual defrosting if ice buildup becomes excessive. Use the provided ice scraper to gently remove ice. Do not use sharp metal objects.

7. TROUBLESHOOTING

Before contacting customer service, review these common issues and solutions.

Problem	Possible Cause	Solution
Refrigerator does not operate	Not plugged in; circuit breaker tripped; thermostat set to 'OFF' or too warm.	Ensure plug is secure; reset circuit breaker; adjust thermostat to a colder setting.
Temperature is not cold enough	Door opened too frequently; warm food placed inside; poor ventilation; thermostat setting too warm.	Minimize door openings; allow hot food to cool before storing; ensure adequate space around the unit; adjust thermostat to a colder setting.
Excessive noise	Appliance not level; contact with wall; normal operating sounds.	Adjust leveling feet; move unit away from walls; gurgling or humming sounds are normal.
Water on floor	Drain tube blocked; door not closed properly.	Clear drain tube; ensure door is fully closed and seals are clean.
