Baseus CCTXP-UCL

Baseus USB-C Car Charger (60W Retractable 3-in-1) User Manual

Model: CCTXP-UCL

1. PRODUCT OVERVIEW

The Baseus USB-C Car Charger is a versatile 60W retractable 3-in-1 fast charger designed for in-vehicle use. It features two retractable charging cables (one iOS compatible, one USB-C) and an additional USB-A output port, allowing for simultaneous charging of up to three devices.

Image 1.1: The Baseus USB-C Car Charger, showcasing its compact design and integrated retractable cables.

2. SETUP AND INSTALLATION

1. **Vehicle Compatibility:** Ensure your vehicle has a 12V-24V cigarette lighter socket. The charger is designed for universal compatibility with most sedans, SUVs, and trucks.

2. **Installation:** Insert the car charger firmly into your vehicle's cigarette lighter socket. A blue LED indicator will illuminate, confirming the charger is powered on and ready for use.

Image 2.1: The car charger is compatible with a wide range of 12V-24V vehicles, including sedans, SUVs, and trucks.

3. OPERATING INSTRUCTIONS

3.1. Using Retractable Cables

- **To Extend:** Gently pull the desired cable connector (iOS or USB-C) until it reaches the required length, up to a maximum of 70cm.

- **To Retract:** Pull the cable connector again slightly, and it will automatically retract back into the charger housing.

Image 3.1: Illustration of how to extend and retract the charging cables for convenient use and storage.

3.2. Charging Devices

The charger offers three independent fast-charging outputs:

- 1 x iOS compatible retractable cable
- 1 x USB-C retractable cable
- 1 x USB-A output port

You can charge up to three devices simultaneously. The charger supports multiple fast charging protocols including PD 30W, QC 30W, and PPS 30W, ensuring efficient charging for a wide range of devices.

Image 3.2: The charger can fast charge three devices concurrently, such as an iPhone 15 Pro and a Samsung S23.

3.3. Fast Charging Performance

The charger is optimized for fast charging various devices:

- For iPhone 15 series: Supports 30W Max fast charging.

- For Apple 14 Pro: Approximately 55% charged in 30 minutes.

- For Apple 15: Approximately 59% charged in 30 minutes.

- For Samsung S23: Fully charged in approximately 62 minutes.

Image 3.3: The charger provides 30W Max fast charging specifically for the iPhone 15 series.

Image 3.4: Overview of approximate charging times for various compatible devices.

4. MAINTENANCE

- **Cleaning:** Use a dry, soft cloth to clean the exterior of the charger. Avoid using liquid cleaners or solvents.

- **Storage:** When not in use, ensure the retractable cables are fully retracted to prevent damage. Store the charger in a cool, dry place away from direct sunlight.

- **Temperature:** The charger is designed for low-temperature charging to promote healthier battery life for your devices. Avoid exposing the charger to extreme temperatures.

5. TROUBLESHOOTING

5.1. Common Issues

- **Charger not powering on:** Ensure the charger is fully inserted into the cigarette lighter socket. Check the vehicle's fuse for the cigarette lighter socket.

- **Slow charging:** Verify that your device and cable support fast charging protocols. Ensure the cable is securely connected to both the charger and your device.

- **Cables not retracting:** Gently pull the cable again to trigger the retraction mechanism. Do not force the cable.

5.2. Safety Features

The Baseus USB-C Car Charger incorporates multiple protection mechanisms:

- **Overcurrent Protection:** Prevents damage from excessive current.

- **Overtemperature Protection:** Safeguards against overheating.

- **Overvoltage Protection:** Protects devices from voltage spikes.

- **Overdischarge Protection:** Prevents battery damage from over-discharging.

- **Shortcircuit Protection:** Automatically cuts power in case of a short circuit.

- **Overpower Protection:** Manages power output to prevent damage.
