7. TROUBLESHOOTING

If you encounter any issues with your Merax Loft Bed, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose fasteners.	Check and tighten all screws and bolts. Ensure all components are correctly aligned.
Drawers do not slide smoothly.	Misaligned runners or obstructions.	Ensure drawer runners are correctly installed and free of debris. Check for any items obstructing the drawer path.
